Soul in the Zodiac

The background features a golden zodiac wheel on a blue background. The wheel is divided into twelve segments, each containing a zodiac sign: Aries (ram), Taurus (bull), Gemini (twins), Cancer (crab), Leo (lion), Virgo (virgin), Libra (scales), Scorpio (scorpion), Sagittarius (archer), Capricorn (goat), Aquarius (water bearer), and Pisces (fish). The wheel is surrounded by golden stars and a large sun/moon symbol in the upper left corner. The text is centered over the wheel.

**This book, as well as all the other books by Oris Oris, is intended only for those readers who seriously, deeply and sincerely want to understand everything that concerns Life and Death independently, who see in their forthcoming Death not the most terrible and dangerous enemy, a reliable adviser and friend able to help them to understand correctly all their priorities and to give advice about how to open their hearts to Love and Light when they are already living, and more importantly - in the most important moment of life - when they die "here" and are born "there".**

**Then Death turns from a frightening enemy, from an annoying failure or a fatal mistake in Creation into yet another, another Transformation to which we have been subjected more than once, into the deepest self-disclosure of Consciousness and the final moment of one of the stages of our evolutionary growth.**

# THE SOUL IN THE ZODIAC

*"Surrounded by vortexes of forces, I stand confused. I do not know them, for in the course of my past they have rushed me up or down here on Earth, on which I have been moving, blind and unaware. From place to place, from point to point chased me up and down countries, and there was no rest anywhere.*

*I know them now, and here I stand immovable until I recognize the Law that governs all this movement up and down the Earth. I can turn and turn my face to many different paths; I am facing a number of wide horizons, but for now I am standing here.*

*I am determining the path I will take. Then I will move forward. I will not wander the earth, nor return to space. But forward I will move."*

*(From «The Ancient Commentary»)*

In our first book we already told you about the Zodiac and the role played in human Evolution by these twelfefold radiations of Forces emanating from the four Persons of God. The question which we have now touched upon and want to explain is very difficult to understand, so we will try to present our Thoughts in as much detail as possible. In order to do this, we will literally remind you in a nutshell what we have already talked about in our first book).

So, the whole world around us is a single system, the parts of which are in very close relationships and interconnections. ***The whole Universe is subject to unified rhythms and unified cycles, of which there are a great many and which have different manifestations at different levels of Divine Being.***

Some of these cycles began at the creation of the Worlds and determine the Evolution of the Universe as a whole. Others determine the course of geological processes that change the face of our planet and, in turn, also influence the development of all mankind and the emergence and collapse of earthly civilizations. Even more minor and rapid rhythms affect the daily life of humans, animal and plant kingdoms.

The nature of all these influences, both global and individual rhythms, on World objects is determined by the laws of the Zodiac, whose symbolism is much deeper than many novice astrologers think. ***In addition, each cycle can also be divided into twelve basic and twelve current phases or micro cycles,*** whose characteristics are also related to the passage of the Soul in qualities and zodiac symbolism.

The planets themselves - in astrological terms - are considered by us rather as the hands of cosmic clocks, ***because it is not the planets themselves*** and, especially, not their sizes and masses that influence the developing Soul, ***but the cycles of the planets and their***

**relations with each other.** Our ancient ancestors not only knew about the existence of the stationary and mobile Zodiac, but they also used it quite differently. Let us remind you that the zodiacal constellations and the Zodiac signs are completely different concepts.

We shall note also that many astrologists consider the beginning of Aquarius Era as 2003 but this Era has already begun in 1991 according to the information received by us (this period is determined by transition of the Earth's axis projection, - taking into account its last, rather prompt deviation, - because of precession in Aquarius). You and I have already entered one of the most important global evolutionary cycles of planet Earth which greatly influences the development of all human civilization.

So, the Space through which the planets move, starting from the point of the vernal equinox, is divided into 12 parts called the Zodiac Signs. The word "Zodiac" comes from the Greek "Life", that is, the Zodiac is the "Circle of Life". In an ancient Avestan book "Bundahishn" ("Creation of the Basics") it literally says the following about it:

*"Ahura-Mazda produced illumination between Heaven and Earth by the stars of the constellations, and those that manifest the constellations, being outside them. And then the moon, and after that the sun, as I shall narrate further. He created the celestial sphere and defined for it the stars of the constellations, especially those twelve whose names are Aries (Varak), Taurus (Taran), Twos or Gemini (Dopatkar), Crab or Cancer (Kalakanga), Leo (Shagr), Virgo (Kushak), Libra (Tarazam), Scorpio (Gardum), Sagittarius (Nimasp), Capricorn (Nahazigan), Aquarius (Do-apdan) and Pisces (Mahik). Which from their incarnation were divided into 28 divisions, the lunar standings. And all beings in the world are entrusted to them.*

*So when the Destroyer advances, they defeat the enemy and their own adversities. By their special concern for the welfare of all the creatures of this world are saved from their enemies. In the image and likeness of an army destined for battle, they have disposed of each individual constellation of these 6 million 480 thousand stars as their helpers.*

*And among these constellations four chiefs, appointed to the four sides of the world and the four sides of time, are chief. On the advice of these chiefs, many innumerable stars are specially assigned to different quarters and different places, representing a united force, and are endowed with the authority of these constellations."*

The Zodiac and the stars are considered by Avestan astrology as protection of the world from the destroyer Angra Mainyu. The four Chieftains mentioned in this ancient text are supreme Essences placed at the very beginning of Creation, even before the invasion of Cosmic Evil (Angra Mainyu) into our World.

These Entities correspond to the four forms of Time: the present corresponds to the guardian of the North Hauranga, the past to the guardian of the West Shatavaesh, the future to the guardian of the East Tishtriya, the eternal to the guardian of the South Vanand. On Earth, the functions of the constellations are realized only through the planets, which are referred to in the text as "those that manifest the constellations".

Present time is so fleeting and short-lived that the human Consciousness hardly has time to grasp or realize it. It is a point of contact, transition, oscillation of Mind, Consciousness on the one hand and instincts, sub consciousness on the other. It is a certain transitional state of the Soul, which is most susceptible to the influence of Cosmic Evil.

The Guardian of the North is associated with it, and he warns us against dwelling on the present moment of Life for a long time. We must learn to fully and fully live and trace every moment of our Life, bringing the subconscious and the conscious to a kind of harmonious equilibrium. Otherwise one deprives oneself of the opportunity to break out of the established boundaries and find freedom.

The Guardian of the North is not only opposed but harmoniously supplemented by the Guardian of the South who stands guard over the Gateway to Eternity which no Soul can enter without being first completely cleansed of the virus of Cosmic Evil. It is this gate which attracts the evolving Soul most of all, because it is with it, with Eternity, with Divinity, that the notion of freedom is bound, of the overcoming of any systems and restrictions which suffocate and constrain the Soul in the lower Worlds.

Man's relation to the past is determined by the Guardian of the West, who is very closely connected with the 'wheel of samsara' - the circle of numerous incarnations of the Soul on the Physical and Astral Planes of the Earth and therefore very much in touch with all the unconscious, instinctive in every human being. It is also the custodian of the true knowledge that enables man to fight against evil.

The Guardian of the East holds the keys to all Worlds and opens the doors to the future. I am often asked: does the future exist for each individual or is everything in this Life fatal and unchangeable? Well, first of all, if a man has a right to choose, this circumstance alone tells you that each of us has future and it is multi variant, i.e. from the multitude of variants of future events you choose the one which is the most harmonious with your present position on evolutionary ladder and thus you yourself create your own Life.

The future is a certain branching corridor in which each branch starts from a point of your choice. There are strictly fatal incarnations and purposeful, missionary incarnations, when the incarnated Soul clearly, according to a preconceived plan, fulfills the task assigned to it in the next incarnation. In such cases the "corridor" of Life has practically no branches.

But there are also Destinies with great freedom of choice, where there are many ramifications and few associations into a common corridor. Through the development of reason in man, the Guardian of the East allows the individual to more fully reveal his individual qualities and characteristics. But by overdeveloping Reason, to the detriment of the soul, it is very easy to fall into a very dangerous extreme, into the delusion of the

omnipotence of Reason. In every human being, apart from Reason, mentality, awareness, there are also many uncontrolled, unconscious instincts, which not only oppose each other, but must complement and guide one another.

Each of the Guardian Entities has its own rhythms, in accordance with which the strength of their influence in our World changes. Characteristically, in these cycles there is still no division into Good and Evil and the higher Entities themselves continue to retain the original states they had before the invasion of the Cosmic Evil virus on our planet.

The contact of human Consciousness with these Essences could reveal the secrets of our Universe, but for this man must first overcome the evil in himself by being completely cleansed of its virus. Each of these Essences carries in itself a higher principle and if man by the level of his vibrations is not capable of perceiving it, then he is out of the guardianship of the given higher Essence and becomes a victim or slave of the demonic Egregors.

But besides above mentioned three guardians, in Avestan tradition there is one more supreme Being, who is also a representative of Zerwan (God) in our World - it is Vakshya, who unites all four forms of Time, mixes them up, breaks habitual order, destroys established laws. She stops the course of Time, unlocks its rings and spirals, makes its reverse course possible, and is also able to expand and contract Space at will.

On the Physical plane this essence acts with the help of elemental forces of Nature, which can set in motion not only wind, fire and water, but also entire masses of people, infecting them with a common Idea. Initially, Vakshya is also devoid of Good or Evil in itself, but acts as a universal equalizing Force, bringing everything to the so-called golden mean.

It is she who erases or removes those of the people who are too infected with evil and take too much on themselves, misusing their abilities and capacities in an unseemly manner. The Archons of Destiny or Lords of Karma are her impassioned servants and enforcers of the Law. The influence of Vakshya is not strongest on individuals, but on the fate of entire nations, states and regions of our planet, which, as you already know, is itself a reasonable living Entity.

But back to the Zodiac. It is known that in ancient astrology there were not twelve but ten Zodiacal signs: there were no signs of 3rd, 4th and 5th Earth Initiation - Aquarius and Pisces, because humanity was not yet so developed to feel the qualitative influence of Energies emitted by these constellations. And even earlier, in the times of the Lemurian Race, when mankind did not have sufficiently developed conductors to contact and receive the Energies of the constellations Leo and Virgo, the Zodiac had only eight Signs.

When the seeds of spirituality, sown into the astral "soil" of the first humans, began to take root and some people, through a reorientation of their thinking, acquired the ability to consciously perceive the vibrations of these Signs, the Energies emanating from the constellations Leo and Virgo were also taken into account. It was not until the time of the Atlantic Race that the door of Consecration to Hierarchical experience was opened to a sufficiently large group of human Consciousnesses, and therefore the need to consider the influence of the emanations coming from the polar spiritual opposites Leo and Virgo

(which were not totally separated at that time) - the constellations Aquarius and Pisces - arose. Libra was the midpoint of the division between the involutory and evolutionary Circles of Life:

**ARIES, TAURUS, GEMINI,  
CANCER, LEO, VIRGO,  
LIBRA,  
SCORPIO, SAGITTARIUS,  
CAPRICORN, AQUARIUS, PISCES**

The analogue of the Universe, the Macrocosm, is the human body. Each constellation sign ruled over a particular organ or part of the body. It is quite obvious that the vigorous Aries had power over the head, Taurus over the neck, and Gemini, Pisces and Libra over the three parts of the body respectively, the hands, feet and kidneys. Shield-like Cancer controlled the chest, Virgo the abdomen and Scorpio the genitals. Feet were controlled by Sagittarius, Capricorn and Aquarius.

The lines on the palms of the hands and face, associated with the so-called "bodily stars", have been used for centuries to interpret a person's character and determine their destiny. Each finger is a projection of the influence of one of the planets or one of the signs of the Zodiac. The palm is also divided into zones of planetary influence. The longer, flatter and longer the line, the stronger the influence of the signs and planets on a particular person.

The face is also controlled by the signs of the Zodiac. The forehead is divided into seven zones controlled by the heavenly bodies. Thus, people with pronounced wrinkles in the Sun area can gain power, authority and strength in Life. In the great circle of earthly incarnations, the Soul passes the zodiacal circle from the sign of Pisces to Aries (through Leo), i.e. against the movement of the Sun.

Only when a Soul develops to such an extent that it begins to consciously emerge from the captivity of the Great Earthly Illusion (Maya) - then the movement of its great Wheel of Life is reversed and only from that moment on does man begin to patiently and consciously act as a Soul proper, making its way through the thorns to its Star.

*Only by going backwards in an evolutionary circle from Aries to Aquarius and Pisces (through Leo) and by taking the first three Consecrations does the meaning of the Triumph over Death come to man, because he has overcome all trials and has been able to rise above Death. Then the Soul appears before the Highest Hierarchs of our planet and receives his Fourth Consecration.*

Books with esoteric content are becoming more and more common, with their authors referring to themselves as "initiates" of the fifth (!) and even sixth (!! ) degrees (which is not customary among the initiated). The very fact that in one's own mind reverence for a hierarchical table of ranks is too much prominent should put the seeker of truth on guard, because an experienced and observant mind cannot easily overlook the outward correctness and spirituality of the contents and unmask the usual ploy of the dark, calculated on the inexperienced seeker, to deliberately encode his mind into aggression and throw him off the righteous path. This is a common and proven tactic of the dark forces for thousands of years.

What, in fact, does this term, to which many now try to give such a mysterious and significant connotation, actually mean? The GOVERNMENT is nothing else than the Evolution of man concentrated in a small space of time. Many people confuse two unequal concepts: "development" and "evolution". The first is associated with millions of years, while the second is instantaneous.

*Evolution is a change in thinking with Consciousness moving to higher Planes of Being, it is a qualitative transformation of Matter through transmutation of Consciousness. Man prepares for Evolution for a long time, but evolves instantly.*

Due to certain circumstances which depend on the individual development of the incarnating Soul, in one of their Lives a person gets an opportunity to go through at an accelerated pace those stages of their development which sometime, but in later Periods or even Cycles, all mankind will go through. A special wide-ranging mission is always imposed on the Souls of such people, linking the Spiritual Plan with the Physical and Astral Planes. The distinguishing feature of the initiated is the utmost humility and complete determination to fulfill the task entrusted to them by the Higher Powers.

So, as you see, the degrees of Consecration are essentially just the public steps of the Knowledge which is revealed earlier than that of the majority of people. Few of the true initiates - because of the sublimity of their Consciousness - are interested in the question of which level of the unearthly Hierarchy their Spirit stands on. So, do not trust too much the high titles and mysterious names of the authors who claim to be worshipers.

Note also that the Door of Consecration has always been and remains open to man, but for many millions of years ambition has been driving the incarnating human Soul from Life to Life until it discovers the futility of all earthly gratification. Only after this realization does earthly ambition gradually replace earthly ambition in the incarnating Soul, a spiritual longing and an irrepressible desire for Liberation, which becomes the driving impulse of the Soul on its return, the evolutionary circle.

Only at the beginning of the so-called War of the Gods, in which the Forces of the space civilizations of the Dark Ring were defeated, many people managed to reach the

discipleship stage and some of them even received the Main Initiation. Since those times - when humanity was in Scorpio - some part of the human Consciousnesses was able to move from the involutory to the evolutionary Circle of development and mastering of the twelve qualities of the Earth Energies, but the most part of the incarnating Souls of humanity still continues their rotation on the involutory Circle under the leadership of the group of Dark Ring Hierarchs (the so called Masters of Materiality).

In the present world period, due to the obvious duality of human Evolution and conscious realization, the Signs of Leo and Virgo are completely divided between themselves. When, by the end of the current cycle, more than two-thirds of mankind will be exposed (to varying degrees) to the Principle of Christ and the final so-called "Last Judgment of God" will occur, Virgo and Libra as well as Aries and Pisces will again be merged into one Sign.

Then "Fire" and "Water" will mingle, and "Earth" and "Air" will fuse, establishing a single fusion on the planet and in a cosmic sense the unfolding of Christ will manifest, revealing finally the One whose Second Coming is expected by all those who believe in the Resurrection. Then again there will not be 12, but only 10 Signs of the Zodiac:

## **ARIES - PISCES, TAURUS, GEMINI, CANCER, LEO, VIRGO - LIBRA, SCORPIO, SAGITTARIUS, CAPRICORN, AQUARIUS**

Mankind's experience in "LIBRA", in which all agreements and experiments are now being conducted, must also be added, so that the libra tilts alternately to one side and to the other, until either the universal wish or the prevailing spiritual yearning of all mankind, when mentally polarized, weighs down one of the scales enough to show the way which men should follow in a given historical or evolutionary stage. This will be the "Judgment Day", about whose imminent arrival everyone is now arguing.

The first indication that such a "Day" is fast approaching is a "moment of crisis" in LIBRA, when the astral plane of the earth will be extremely polarized by two general Opposite Wishes of the people of our planet, which will turn them either upwards towards the spiritual plane, or downwards, to the very "bottom" of the matter. The next point of separation of mankind will be the Day of Judgment (see the tenth volume of this publication, "APOCALYPSIS").

After such a brief introduction to this difficult, but very necessary topic for understanding the issues of Death, let us remind you that all the Space around us, visible and invisible, is a living, Super conscious and Super conscious Entity, which we call "GOD" of our Solar System.

All the "heavens" we see are only the phenomenal appearance of this Infinite and Incomprehensible Entity, which in turn is also an integral part of an even grander Life, manifesting itself through the agency of the seven Solar Systems. Space is the field in which and through which Energies from the many sources that generate them pass.

This field is etheric in Nature, and its Life Body consists of the totality of the Etheric Bodies of all constellations, all solar systems and all planets that are part of them. Suffice it to say that there are about seventy "hidden" (so far) planets in our Solar System alone. As for the planets as physical bodies, they (just like our Earth) are living Beings, having their Destiny (Karma) and going through their own way of Evolution.

All of our subtle bodies are inseparable parts of the Etheric Body of the Essence of the Hierarchy above us, the Essence which we call the "human kingdom". Its Etheric Body is an essential part of the Etheric Body of our Planetary Logos, which is inseparable from the Etheric Bodies of the Logos of all other planets, which together with the Etheric Body of the Solar Logos constitute the Etheric Body of the Logos Essence of our Solar System.

All these constellations, solar systems, planets and man as a reflection of Microcosm, are only the result of the activity and manifestation of the energies of some Lives whose manifestation cycles and limitless purposes are simply incomprehensible to us. Just as the Forces of the planets, interacting with the etheric body of the manifested Human Soul on the Physical plane, condition all its activities and all its qualities, in the same way the various Forces of God of the Universe are poured out upon every part of the Etheric Bodies of each of the innumerable Logos of the various lower levels, conditioning and determining the outer manifestation, the activities and the individual qualities of each of these Cosmic Entities.

By the way, through the planets and constellations a person can be influenced by both the forces of Good and Evil. There are no (except for spiritual, higher ones) unambiguously good planets and unambiguously evil ones. There is a constant battle between the Hierarchy of Light and the Hierarchy of Darkness through any of the planets.

In general, the planets, especially the physical bodies of the first seven (Sun, Moon, Mercury, Venus, Mars, Jupiter, Saturn), i.e. those whose cycle is less than the average life span of a human (Saturn, for example, has a cycle of 29.5 years), are considered to be initially defiled when Cosmic Evil invades our system. Therefore, through their cycles, a person may come to be seduced, introducing evil viruses (vibrations) into their subtle bodies.

This is due to the fact that these planets are in an intermediate state and in the time scale of human life their action is not constant, it fluctuates and changes, therefore, as stated in Christianity, through them in man may incarnate demons. That is why (in terms of influence on the human soul) they are even opposed to the pure and unspoiled zodiacal constellations, because during one human life the constellations practically do not shift.

But here it should be noted immediately that in terms of universal Evolution, which has huge cycles in its duration, the constellations can also be considered as tainted with evil. The higher planets, beginning with Uranus (84-year cycle), may be considered as far less tainted with evil with respect to human Life, and for this reason they are considered as conductors between the first seven planets and the Zodiac. Their involvement in Cosmic Evil manifests itself on the course of world history, on the fate of generations, civilizations and peoples.

But these higher planets are dangerous for an individual person because he, because

of the brevity of his life, is not able to fully understand their cycles and is therefore also exposed to all sorts of seductions on their part. So we may say that the Zodiac is nothing but the imaginary path of the Sun across the sky. The Sun, which is not in any of the Signs, simply appears at one time or another in their background as it passes between the Earth and the constellations.

The twelve constellations that make up our Zodiac are themselves receivers of many streams of Energy coming to them from cosmic sources such as: the constellation of Ursa Major, the seven sister stars of Pleiades, Sirius, the Hound Star; seven solar systems, including our own, seven sacred and five non-sacred ("dark") planets...

The twelve main types of Energies (five major - which for us are now minor - and seven minor - which for us are now major) emanate from the seven stars of the Big Dipper, transmitting to us through the seven stars of the Little Dipper; two types of these Energies come from Sirius, and three from Pleiades.

The Seven Stars of the Big Dipper are the seven sources of each of the Seven Rays of our Solar System, transmitted to us through the three constellations of the Zodiac (we will talk about them in detail later). Thus, our Solar System is just a tiny reflection of: One Creator God, the Three Rishis, the Seven Stars of Ursa Major and the Twelve Signs of the Zodiac.

We have named only those Cosmic Entities whose influences are perceived to a greater or lesser extent at a given evolutionary stage by human energy centers, but here we should also add other energy flows emanating to us from the star Antares or Betelgeuse, as well as from other giant suns not belonging to our Galaxy, but influencing you and me through the Zodiac. Note again that the Energy of each particular constellation or Sign in which one is born has a deeper meaning than some ignorant and pragmatic scientists think.

Each Energy shows the present, specific problem of each person, sets the speed and tempo of his Life and is very closely related to the quality of his Life, controlling the aspect of his Soul's activity during incarnation. Zodiacal systemic and planetary Energies act on the incarnate human Soul, depending on the qualities of the bodies of its manifestation, either as restraining or stimulating Forces.

The degree of this influence depends entirely on the capacity of the soul to respond to them, to attract and absorb, to reject or transform in itself these vibrations, on the capacity of the individual to identify himself with the energies and impulses flowing through him, which depends entirely on the degree of the Evolution of his Soul and does not depend on what is already a conscious part or aspect of himself.

A constellation consists of two or more solar systems or a series of suns with their planetary satellites. These systems are held together as a whole through the powerful interconnections between their star suns, which maintain their relative distances and enliven their planets. But it is possible, though very rare, for the balance of the Forces to be disturbed and then, as in the constellation Gemini, there is an increase and predominance of influence and magnetism.

Through the influence of the Energies pouring forth from the Signs of the Zodiac, the Soul prepares for the "moment of reorientation of Consciousness" when it slowly

and gradually reverses its form of progress on the Wheel of Life and begins to move back to its origin, from Aries to Pisces through Leo. On this difficult Path, accompanied by immense suffering and boundless pain, the human Soul learns to function not only as an equal member of the human community, but also as a Divine Being.

The solar system is an electromagnetic coupling of planets orbiting around a central focal point, the Sun. The Solar Energies have a double effect on humans. First, the physical Sun affects us with the Energy of its Prana, which causes specific physical or sensory results in objective Forms. Prana enters a person through the spleen and the centre between the shoulder blades - between Vishudha and Anahata chakra.

Secondly, the Energies of the "spiritual Sun", flowing through a particular planet in seven large streams, flow into each of the seven Souls-aspects of the individual Spirit manifested on the Physical Plane, bringing them into a state of sensitivity that can be described as AWARENESS.

It is these seven types of Energies that create opportunities for the simultaneous manifestation on the Physical plane of Earth of the SEVEN MAIN TYPES OF SPIRITS or ASPECTS-ANALOGES of each individual Spirit. Through these seven energetic influences on the Matter of the Earth Space, the Spirit manifests in our Phenomenal World in seven areas at once, seven different levels of Consciousness of their own Souls, seven ray characteristics (while the other five Soul-Consciousnesses are in an undeveloped state, each going through their own postmortem Existence path).

Each incarnated Soul, to one degree or another (depending on the level of its development on the involutionary or evolutionary Circle), experiences, as we have already said, the influence of the Seven Main Rays emanating from the seven stars of the Big Dipper, which are enclosed in complex relationships with the Little Dipper and the Pleiades. This Trinity of Galaxies of Stars, dominating in our seventeenth Universe, has the most direct relation to the One Whom we call the Creator God, being the three aspects of the Absolute Divine Monad and the Reason for the Existence of seven solar systems, which includes our own.

**These Seven Rays manifest their effects through the energetic radiations of the following planets:**

- **The first ray is PLUTON - the Holy of Holies - Shambhala, the Abode of the Most High on Earth. This is Spirit. This is Life in the seed, successfully destroying all forms to reach the stage of fruition. This is the Energy which may be called "Divine prompting". This is the Will to begin (initiate, initiate). This is Identification. It is what awakens to Dedication and delivers it. This is the Beam of Will and Power containing the destructive aspect manifested by Consciousness focused on Pluto emanations. In this regard, we remind you once again that the common human approach to Death as the destroyer of Life is erroneous and temporary due to the evolutionary level of human Consciousness.**

The Force has a dual nature: if it is accompanied by Love, the Will manifested promotes self-denial and the advancement of the Divine Providence, and if it is mixed with selfishness, it is expressed only from the destructive side, contributing to the influence of Evil on the Life of the Cosmos. The energies of this Ray manifest as yet on the young Earth in the destructive qualities of Darkness and Death, which is expressed by the as yet undeveloped human Soul in its thirst for violence and change.

Pluto passes through the Zodiac in about 250 years and is associated with collective, elemental Energies; ruled by Scorpio. It is indicative of one's interaction with large masses of people, gives concentration of Will and directs it in the right direction. Pluto's vibrations give man the abilities of a hypnotist, healer, endowing him with the ability to influence various phenomena of nature and objects. Souls who have mastered the qualities of the First Ray are best manifested in extreme situations, when huge masses of people come into motion.

Pluto, like Mars, is also associated with sexual Energy, which it uses for sublimation and creativity. The nuclear, elemental energy contained in matter is also associated with Pluto. At its worst, the First Ray forms destroyers, troublemakers, instigators of mass riots, wreaking havoc and disorder around them.

*The Law of Life states that all new cycles of Being and Consciousness are generated by conflict. The First Ray destroys Death because in reality there is no such phenomenon, as most of you understand it, nor is there the Great Illusion in which the development of human Souls now takes place. The first Ray, by destroying the forms, abolishes not just "Death" but "Death of negation", because only after it does the Soul begin its true activity. Mastering the qualities of this Ray is very important on the Path of Consecration. That is why it is so important for Aries, Leo and Capricorn.*

- **The second ray - Jupiter (Sun) - is the Holy City of the Initiates of the Earth Hierarchy, the secret place of the Forces of Light on Earth. This is the Soul. This is Consciousness. This is Light. This is Love. This is Consecration. This basic Energy represents the Will to unite, to synthesize, to create connectedness and mutual attraction, to establish a relationship completely free from consciousness of connection. This Ray carries soul expression and spiritual Consciousness and the need to pour Love and Wisdom into the Earth and everything around.**

The qualities of this Ray create an inner tendency towards fusion which nothing can stop, thus contributing to achieving the final synthesis - the fusion of Heart and Mind, which is the subjective Goal of the manifestation of every human Soul. This is the fact of Oneness,

inherent from the Beginning and existing forever in the Mind of God the Creator. These vibrations of Oneness are especially necessary when mastering the qualities of GEMINI, VIRGO and PISCES.

This Ray rules and dominates all the other Rays, as Jupiter and the Sun (hiding the secret planet) gather all the Energies of the constellations Leo, Sagittarius, Pisces, Aquarius and Virgo on our planet and carry these Forces through all its Natural Realms. The Ray expresses the characteristic aspiration towards pure Knowledge and absolute Truth on the basis of Love, altruism and self-denial. It formulates the plan according to which the Ideas of God the Creator are to be constructed and materialized.

Jupiter passes the Zodiac in 11 years and 31 days; leads Sagittarius. Manifests as the connection of man with society, relations with society, social psychology of man, attitude to authority, in the ability to choose an ally; gives the ability to be an organizer and educator, gives a flair for contradiction and the ability to understand the unfavorable moment of Life for oneself. Brings glory, honour and success in learning.

Ideological attitudes, religious beliefs, and the desire to extend one's influence are also associated with this Ray. A person who has mastered the qualities of the Second Ray has excellent organizational and pedagogical abilities, a strategic type of thinking. In its highest manifestation, this Ray forms true guardians of the Law, while in the worst case a person develops arrogance, the desire to impose his opinion on others as the most correct at all costs, all sorts of justification of their unseemly transgressions by reference to the authorities.

- **The third ray is SATURN, the HOLY SPIRIT GOD, He Who Knows, one of the four most powerful Lords of Karma, who makes man face his past and prepare for the future in the present. It is - Christ in us, the future humanity. This is the Form. It is the Identification. It is - The Body. This is Mind. This is Individuality. It is the Will of the conditioned purpose, the Will for Evolution. The qualities of this Ray express the Principles of human consciousness, the Energy of Active Intelligence, that is Active Mind. It strongly influences the development of the Soul in the Signs of Cancer, Libra and Capricorn, because unlike Jupiter, which corresponds to the centrifugal beginning and expansion, Saturn conditions the action of centripetal Forces.**

From a certain point of view this planet can be seen as the planetary Resident of the Threshold, the steward of the cycles of life and therefore humanity must see it as clearly as the Angel of the present, which are essentially two aspects of the same duality, duality - all humanity. The qualities of the Energies of this Ray are very important on the Path of Discipleship.

There is an inner core, a well-established system of values, and life principles independent of outside influences, associated with Saturn, which passes through the Zodiac in 29 years and 155 days. This planet rules psychological crises and subsequent more or less stable

## About the author

During his creative life Oris has written about 100 books on spiritual-philosophical and esoteric topics, as well as on the mental and spiritual relationship between the human energy-structure and the energy-structure of the universe.

A large part of Oris's life is devoted to spiritual creativity through writing books on cosmological subjects. In them the author uncovers such matters, which no one has ever touched so deeply and in such detail before. As early as 1996 Oris managed to find his Spiritual Mission, which he is tirelessly pursuing to the present day.

Oris was born on 25 January 1954 in small Ukrainian village of Maryinka in the Donetsk region in the family of a miner and a nurse.

From an early age (at the age of three) Oris developed an intuitive gift for writing poetry. Oris read out his first poem «Zhen-shen» at the age of 3 to his mother, who wrote it down, because he couldn't write yet.

He also possessed medial abilities from an early age: he could spontaneously «see» dynamic pictures of events and episodes from other people's personal lives, the authenticity of which was often later proven.

As a preschooler, Oris would periodically warn the children of impending contingencies when they were up to some mischief, and at school he knew who would be called to the blackboard and warned his classmates about it. He also knew in advance which boys and girls would be sympathetic to one another and which not.

Oris's first poems, from the age of 6, were published in the Maryinsky district

newspaper. In addition, Oris was good at drawing: 14 portraits of Ukrainian and Russian writers, which he painted in the 3rd grade, decorated the walls of the school corridor.

In 1971, Oris graduated from the 10th grade, worked as an instructor of physical education in Maryinsky Raypotrebsoyuz, and in 1973 he entered the Faculty of Agronomy of the Crimean Agricultural Institute, graduating in 1978. After 4 years of professional activity on the South Coast of Crimea (Yalta), he became the director of sports and recreation base (village of Ponizovka), belonging to two Moscow research and production associations - «Measuring Equipment» and «Energy», serving the space industry. He resigned in 1990 to pursue his literary career.

As a teenager, Oris became very interested in martial arts: karate (Kyokushinkai), kung fu (dim mak - «the art of the poisonous hand», Wing Chun, Zui Quan), judo, sambo and others. Later, in 1975 he achieved a black belt in martial arts and in 1979 in Yalta at the Ministry of Internal Affairs he opened a martial arts section and hand-to-hand fighting.

From this period (1975), while still a student at the Institute, he worked for 15 years on writing several books series about martial arts. Three volume textbook on karate and Dim-Mak Art titled «Karate Way - from Student to Master» was colourfully designed and published in Moscow in 1992. During these years a separate book «Dim Mak - the art of poisonous hand» was published in Moscow. A second cycle consisting of more than 20 books under the general title «Initiation or the Path of a warrior» was written during this period, but it was not published in the USSR because the author had no higher physical education. For this reason in 1982 Oris entered Simferopol State University, but in the 4th year he left the University for family reasons (due to the birth of his son Yaroslav in 1983) and because of perestroika.

During his work on the book cycle 'Initiation or the Path of a Warrior', Oris (in a state of deep meditation) first inadvertently came into Contact with his Spiritual Teachers, after which he regularly received the information that formed the basis of the most unique book series 'Life between Live's and all the books subsequently written by him.

Then begins a more intense Spiritual Path for Oris, marked by a turning point in his life due to the urgent need arising in his Consciousness to find Himself and his Spiritual role in life.

He went as a hermit to a cave in 1996 from which he had no plans to return. There, in the cave, deep Spiritual revelations came to him, as well as information about his past (parallel) lives. Some of these inner experiences Oris described in poems, which have been published in a separate collection. On the basis of the contacts with his Spiritual Teachers during this period (after 40 days of taking only water), having learned his Purpose in life, he returns home with a renewed Self-consciousness, after which a new Spiritual phase begins in his life: within four years he writes more than 40 books, which are combined into several cycles with the following

titles: «Life Between Lives», «The Art of Dying» and «Extraterrestrial Contacts».

After 2000 he began to write texts to the melodies of Soviet hit songs, in which he expressed the whole quintessence of his spiritual conclusions and thoughts, emphasizing the role of Love, Kindness, Mercy and all Human qualities and feelings, which people so often forget in their everyday life.

Also after 4 consecutive Spiritual Initiations (from 1996 to 2000) Oris gets access to more true and authentic information about the structure of the Universe and the role of human in it, which he reveals in the book series called «lissiidi», «The Great Message», «Immortality is available to everyone» and «lissiidiology Fundamentals». These book series are written as the quality of information that Oris received becomes more and more complex because it comes from deeper and deeper levels of the collective Subconsciousness. These more profound and insightful conceptions form basis of his own Self-Consciousness and he begins to find answers to complex cosmological questions that until then were expected to remain unanswered for people for many decades to come.

A more detailed and complete list of all books written by Oris is set out below. They are presented in chronological order as books were written.

## A collection of poems «40 days of Hermitage»

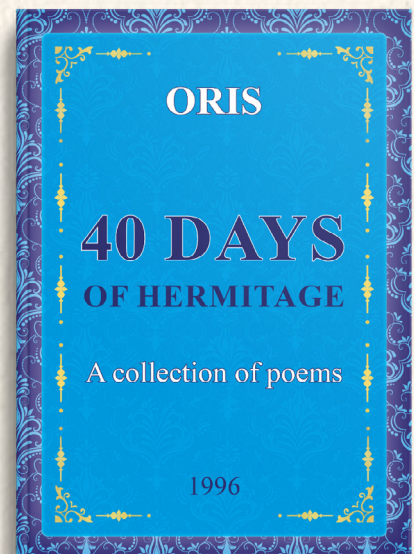

Yalta, 1996

Pages: 47

All poems in this book were written by Oris in 1996 in the Ai-Petri mountains, when he voluntarily took a vow of silence and lived for 40 days in a mountain forest, in a small space dug with a tin can between two rocks supporting each other, completely refusing food and any communication with people.

His inner reason for going to the mountains was the pressing, unyielding need in his Soul to try to cognize the Meaning of his present existence as deeply as possible and, if possible, to try to find the Essence of his own Spiritual Destination by conducting an inner dialog with his «Higher Self» and seeking opportunities to understand himself...

This book also contains an audio recording of these poems, which Oris recorded onto a tape recorder during this act of hermitage.

## Thought and Meditation

Yalta, 1997

Pages:

Thoughts, unlike objects, do not belong to you: they come from somewhere else all the time, stay and interact with your Consciousness for a while, and then imperceptibly disappear to somewhere. Your thinking is the process of continuously synthesizing in your reality newer and newer Forms from the already known to you mental and sensual experience. Therefore for you the thinking process represents the «beginning» and the «end» of absolutely all of your desires - from getting some material benefits to achieving «higher» (according to your concepts) spiritual goals.

By mastering the art of mental transformations, you will have an absolutely real means of consciously controlling the material conditions of your earthly existence. By improving in this direction, your mentality can reach the point where it becomes possible to control the powerful factors of the natural elements of Nature, influencing not only the weather, but also such destructive phenomena as tornadoes, tornadoes, earthquakes, tsunamis with the power of your Mind...

# Book series «Life between Lives»

*Yalta, 1997-1998*

What Oris writes about in this book series is the most detailed description ever written by human about the entire sequence of events undergone by the Consciousness of a dead person when he returns to his Heavenly Home, which has so many «abodes» that it is impossible for an ordinary person to even imagine.

Oris, using his many years of individual experience of astral travel, describes in detail the Astral and Mental realities he has explored, transforming the Incomprehensibly-Cognizable Existence into Knowledge that is comprehensible to almost every person, which leads readers to a gradual realization of the immutable Truth of their infinite Cosmic Existence.

## **Book 1. «Life without death» («The spirit of death»)**

And will you really exist after that? These are constant questions. But they have answers. The secret of life and death irresistibly draws man to the realization of what he has long known, but what has remained a mystery and unknown.

If you need answers to these eternal questions, if you can no longer live without understanding them, then this source of knowledge is for you.

## Book 2. «Soul and the Cosmos»

*Yalta, 1997*

 Pages:

 When confronted with the constant choice between Good and Evil, man is lost and does not always think about whom exactly with his every choice and action he serves: God or Satan? To help the reader to choose, the author tells in details about Egregors - astral entities, adapted to living in both as in positive so and in negative poles of Existense, which are mainly determined by the nature of Egregor itself.

 The author helps to understand all the subtleties of this topic, showing using examples the activity of «devil's Egregors», explains to what can lead the spiritual ignorance and thoughtless worship of material symbols, which all lower the human consciousness to the level of sorcerers, magicians and so-called non-humans.

How can we cleanse ourselves from the astral dirt of our own ignorance, which degrades our spiritual Essence and puts us on the same level as wild animals? How can we in Life take care of favorable conditions of our postmortem existence? This and much more is discussed by Oris in his second book «Soul and the Cosmos».

## Book 3. «Soul in other Worlds»

Yalta, 1997

Pages:

Always when people speak of «other cosmic thinking civilizations» they usually mean either the intelligent populations of other planets, the so-called «brothers in mind» or something very abstract and vague. But for some reason no one ever thought that these very «thinking civilizations» could be OURSELF, but only OURSELF located at other levels of OUR development, in other conditions of Existence, in the past or future space-time structure, in other circles of OUR human civilization's time field.

All so-called «other worlds» should not be perceived as something alien and unknown. There is no dividing barrier between «this World» and the many «other Worlds». On the contrary, all that exists is one single Divine Being.

You will learn about this and much more from the third book «Soul in other Worlds».

 This book may seem unbelievable and dreamy to the reader, but those who have ears to hear will find confirmation of their thoughts and hopes and proof that we are not the only people in the cosmos.

The time has come to meet those who have been invisibly present around us for millions of years, sending signals of their invisible existence. May each of you perceive this book the way he or she feels! For some, it may be perceived as a fairy tale, and for others, as information for reflection or as a guide. In this way, the main goal of this book will be achieved, because you will know the Truth, and what to do with that Truth is everyone's personal choice.

This book represents the least amount of information about the author's many Contacts with other cosmic civilizations and the information that has been received from Those whom the author calls The Universal Teachers.

*Yalta, 1998*

In this book the author continues his exploration of the world around us and tries to unravel one of the most unexplored mysteries of nature – the human. After all, only by knowing ourselves we can come closer to knowing God and His Mysteries.

And in general, will there be anything left after Death other than the memory of you? All these questions will be answered through the author of this book by his Teacher, who has undertaken the mission to give a thorough introduction to the mankind on Earth to the problem of so called «post-death existence» of a human.

## Book 7. «Soul in the Zodiac»

Yalta, 1998

Pages:

In this book the author tells us that the entire world around us is a single system, and the parts of which are in very close relationships and interconnections, and that the entire Universe is subject to unified rhythms and unified cycles. Some of these cycles began at the creation of the Worlds and determine the Evolution of the Universe as a whole. Others determine the course of geological processes that change the face of our planet and, in turn, also affect the development of all mankind, the emergence and collapse of terrestrial civilizations.

The nature of all these influences, both global and individual rhythms, on the objects of the World is determined by the laws of the Zodiac, whose symbolism is much deeper than many novice astrologers think. In addition, in each cycle we can distinguish twelve basic and twelve current phases or micro-cycles, the characteristics of which are also associated with the passage of the Soul along different qualities and with the zodiac symbolism.

This book, as well as all the other books by Oris, is intended for those readers who seriously, deeply and with a sincere desire want to understand on their own everything that relates to the problems of Life and Death, who see in their impending Death not the most terrible and dangerous enemy, but on the contrary, a reliable adviser and a friend.

With Oris's books, Death is transformed from a frightening adversary, from an unfortunate failure or fatal mistake in the Universe into one more, another Transfiguration, to which we have already been subjected more than once.

## Book 8. «The art of dying»

This book consists of 5 parts.

Pages:

The author has tried to give the most detailed answers to specific questions through his many years of experience of independent out-of-body explorations of the Ethereal World: how to die correctly? How to learn to accept your death in time? How the transformation of subtle bodies takes place during the post-mortem transition?

This book, describing in the most detailed way the changing state of a person's Consciousness during the process called «dying» and his Soul's presence in various

vibrations of the energies of the Astral, is also a kind of manual of religious therapy and eschatological psychosurgery, carried out through the most detailed texts of “Instructions” read by relatives for the dying ones or an already dead person in order to strengthen and awaken his Consciousness before the Transition to the Other World.

Among other things, this book can safely be classified as one of the most detailed travel guides to the many realms and spheres of the Ethereal World, which we commonly refer to as the «afterlife».

## Book 13. «Ordeal of the Soul»

*Yalta, August 1999*

**Pages:**

As long as man is alive, he gives little thought to WHAT awaits him, perhaps in the next second: after all, how many beautiful lines broke off in mid-sentence, and how many good deeds were not destined to come true only because people in their busy every-day life keep putting off all the best and the most necessary,

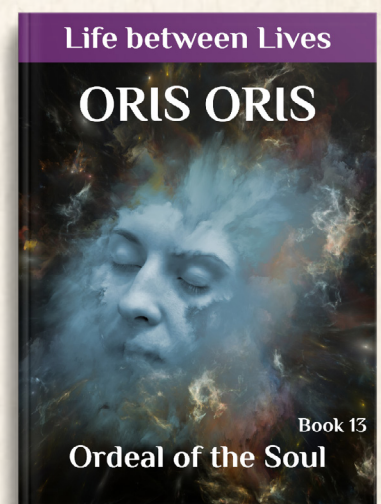

forgetting that in the next moment they may not have that «later» at all. How many lost opportunities for the most simple manifestation of Kindness and Love towards each other have never been realized, and how many unspoken beautiful words have fallen into nothing!

This book is not about Death, but rather about HOW to restructure your whole life now, immediately, so that you can meet every next moment of your earthly existence without disappointment, despair and grief.

Yalta, August 1999

What Oris writes about in the book series «Life Between Lives» is the most detailed description, ever written by man, of the entire sequence of events undergone by the Consciousness of a dead person when he returns to his Heavenly Home, which has so many «abodes» that it is impossible for an ordinary person to even imagine.

Oris, using his many years of individual experience as an astrologer, describes in detail the Astral and Mental realities that he has explored, transforming the Incomprehensible-Cognizable Existence into Knowledge that is comprehensible to virtually every person and leads to a gradual realization of the immutable Truth of human's infinite Cosmic Existence.

Never before has the Mystery of the Creation of our World and the tragic role that Lucifer, one of the most highly spiritual First Consciousnesses of the Logos of our Universe, played in the history of the birth and development of mankind on our planet in such detail been revealed to people.

The purpose of this book is to give you the Knowledge which will help you to understand who is the God and what place in Him belongs to the forces which people call «Satan», «devil», etc. What energy-informational niche do they occupy in the Earth's Space and what form do they take (and if they have a form?) in reality?

## Book 19. «Soul in Hell»

*Yalta, 1998*

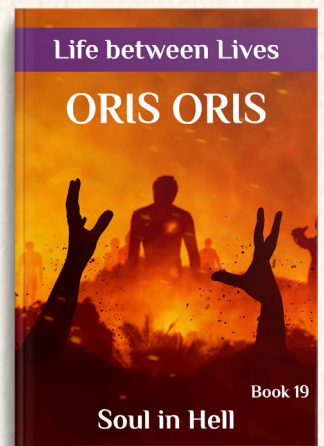

Pages:

Fear of Death is the individual's fear of losing himself, the fear of the need for further evolution. Man is most afraid of the unknown, but it is the unknown that makes a man to conquer his fear again and again. Many people are totally unaware of the infinite variety of levels of Consciousness in their own nature and whatever the author of this book may say to them about it, it will still not help them to understand it.

But there is still a small, even a tiny one-thousandth part of humanity which is the reason why all this knowledge about the true picture of Existence after Death is given. For the Transfiguration of this small part of mankind a small group of Star-Born Ones have specially incarnated and agreed to become conductors between the awakening Consciousnesses of the Earth and the Consciousnesses of the spiritual Teachers from Sirius and Pleiades. To each thousandth of the incarnate Earth's humanity Oris addresses in his books.

# «Extraterrestrial Contacts»

In today's world there is a lot of information about UFOs, about the meetings of individuals and even whole governments with aliens, as well as materials of telepathic Contacts with representatives of various extraterrestrial civilizations, etc. Unfortunately this information, while passing through different dimensions to us, in our three-dimensional world, is often subject to very strong distortions and is very often misunderstood by us due to the specifics of our three-dimensional way of thinking.

Offered to you materials of Oris's Contacts with the commanders and crew members of the Sirius-A and Sirius-B starships, as well as with other extraterrestrial Consciousnesses and Civilizations, including the Consciousness of Christ, Lord Maitreya, God of the Sun (the Logos of our Solar System), Elohim (the Creators of our Universe), and the four Archangels (Michael, Uriil, Gabriel and Metatron), are unique because they are literally received «first-hand» and contain very valuable information, useful for all humanity, which lives on the eve of the Transfiguration of the Earth.

The Pleadians and Siriusians, who are the true spiritual Teachers of Earth's humanity, are happy to share with us the knowledge without which we earthlings cannot emerge from the endless series of earthly incarnations and join as equals the extraterrestrial civilizations that are part of the «Commonwealth of the Light Ring» on the expanses of Cosmic and Galactic Creativity.

About this and much more you can learn from this book series called «Extraterrestrial Contacts».

## Book 1. «Teachers from Pleiades report»

Yalta, 1998

Pages:

Such concepts as «Cosmos», «Higher Intelligence», «UFOs», «aliens», etc. have now firmly established in our Consciousness, and we can no longer imagine ourselves, our planet and our entire existence in isolation from the rest of the universe, from the hope of a promising direct contact with brothers in Mind.

Who are they, our teachers, what do they teach, what do they look like, and what do they want from us? In this book you will find answers to these and many other questions.

Yalta, 1998

Pages:

In this book, the Pleiadians and Siriusians, who are the true spiritual Teachers of mankind, gladly share their knowledge with us, without which we, the earthlings, would not be able in the very short time that remains before the Transfiguration to come out of the many thousands of years of hibernation and to make the necessary number of timeless passages in the impermeable thickness of the Collective Consciousness, necessary for the so called «shift of the paradigm».

## **Book 3. «The crew of the Starship Sirius-B reports»**

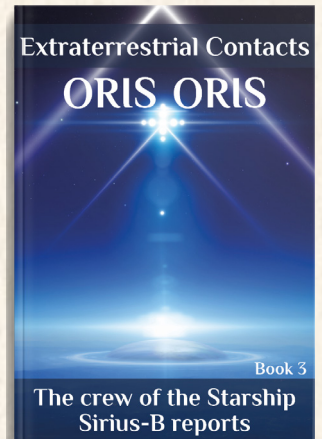

*Yalta, 1998*

**Pages:**

The next ten to fifteen years are predicted by extraterrestrials to be very informative and interesting for humanity. We will see how our so-called «unshakable reality» will begin to be rapidly turned upside down before our very eyes. Already the world does not seem as solid and unbreakable as it once did. And very soon we will all be witnesses and direct participants in a worldwide spectacle of Chaos and Confusion. The foundations of all our cultural, religious, philosophical, and scientific Paradigms, which have served us so far invariably as an image of the «real» World, in a matter of years, will crack and begin to crumble before our very eyes.

The reality of the New Age is within us, and main changes that we have to make must affect primarily our inner content, which, by freeing the Divine Light of our Souls from the millennia-old oppression of the Matter, will turn the mustiness and decay of our earthly cities into the unearthly glow of Beauty, which overflows the Cities of Light of the new, transfigured Earth.

## **Book 4. «The Teachers of the humanity report»**

*Yalta, 1998*

**Pages:**

Throughout all the history the humanity has been narrowing its perception of the Worlds from multidimensional, which includes all the subtle-material Spheres of the Astral, to three-dimensional, rough-material Level, thus not only limiting itself in the better understanding of the world around, but also completely destroying the possibility of free contact with the Consciousnesses of hundreds of thousands of other space civilizations, who actively create and work in the Cosmos.

Representatives of many of these Intelligent Civilizations have practically never left our planet, while other Higher Entities have been incarnated among people only for several millennia.

They have voluntarily shared and continue to share with us all the burdens of earthly incarnations and the very heavy human Karma, only to help with their Knowledge of the Truth and their personal experience, so that the people of Earth could more rapidly climb the steep steps of the Evolution Stairs.

## **Book 5. «Extraterrestrials»**

*Yalta, 1998*

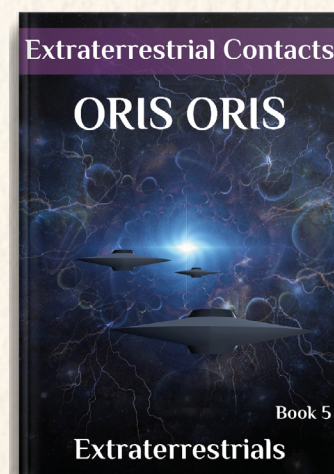

**Pages:**

They, the extraterrestrials, are working on our planet neither to conquer nor to enslave it, but with one single goal in mind: to slow down our rapid fall into the abyss of self-destruction, trying to bring to our Consciousnesses the moral, spiritual, social and scientific values accepted in the civilized Cosmos.

Those few people who are able to perceive their Word of Truth do everything possible, even impossible, to bring it to the half-asleep Consciousnesses of the rest of mankind.

Many «extraterrestrials» from Pleiades, Sirius, Andromeda and other civilizations of the «Light Ring» have been living among us for thousands of years, voluntarily giving up being in the Worlds of higher dimensions, just so that we, people of Earth, did not remain completely cut off from the Source, from Which all of us have come out, and to illuminate with the Knowledge of Truth the Path of spiritual ascent for Consciousnesses who no longer wish to

abide in the sleep of illusion and the darkness of ignorance. The Books of Oris are an example of this Service.

## **Book 6. «On the eve of Armageddon»**

*Yalta, August 1998*

**Pages:**

This book, in its uniqueness and value of the information it contains, is on par with the other Oris's books, continuing the subject of Contacts with Representatives of Worlds of Higher Levels of Existence.

Does The Christ Himself communicate with many people on the eve of the so-called «Last Judgment» transmitting specific recommendations? Has the Mother of God appeared to many to show them the way to salvation through Her Word in these terrible days of the approaching disasters and cataclysms? You just stop for a minute and delve into the rank of Those Who appeal to you – the Christ and the Queen of Heaven!

To ignore this information would be to close one's eyes, on the edge of the precipice, at the risk of being crushed to death. Is that what you want? Then read carefully, absorb and, opening the eyes of your Heart, draw your own conclusions.

### **CONTENTS:**

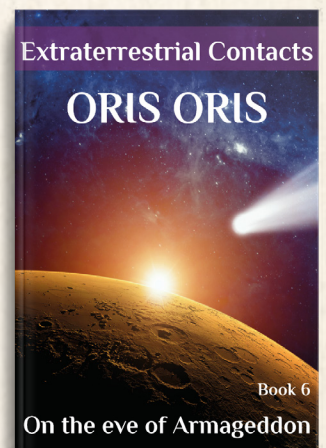

On the Eve of Armageddon

Second Message of Christ, Lord Maitreya

Commandments of Christ

The Word of the Queen of Heaven to the Adam's family

Oris's answers to the questions of the Swiss group of Star-Born

## Book 7. «The beginning of Armageddon»

Yalta, September 1998

Pages:

The beginning of the Age of Aquarius. Nostradamus wrote: «I see a reborn and renewed Christ coming. And then there will come a long peace, unity and harmony among the generations of several races».

The process of division of people depending on the quality of their Consciousness has already begun rapidly around the world. It will soon lead to the final separation of mankind not by national, religious or party affiliation, but by the quality of their spiritual vibrations. People had more than enough time to change their lives for the better. But now there is no time even for a reflection.

Very soon there will be the first cataclysm of an unprecedented force, which will not only change the circumference of the Earth, but will also shift its magnetic poles. The Earth's axis, which is already in an unbalanced state, will change

and all this will cause continuous, endless cataclysms. Earthquakes and floods will become a common thing, and long and extensive fires will engulf the entire planet.

Today we are no longer «slipping into the abyss» or «standing on its edge», as economists and politicians reassure us; we are already flying into the abyss with great acceleration, and no one gave us wings to wave and soar upward to avoid death, or rather, God in fact did, but we have all forgotten about them.

*Yalta, 1999*

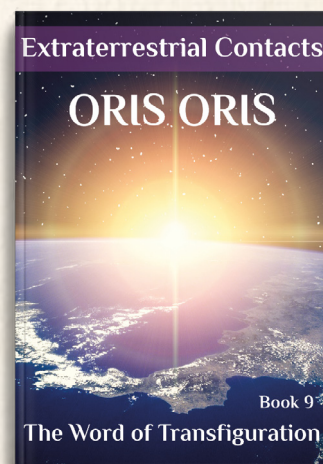

Pages:

Holy Mother of God, save us! - This is what the prayer to the Blessed Virgin asks for. But the same people disbelieve and slander, avoid and remain indifferent when the Living Virgin herself speaks to them and tells them about the ways of their salvation. «Hypocrites», says the Queen of Heaven to them, «get to know what Heaven looks like, and why do you not know the signs of the times? Prepare yourselves, people, as truly the day and hour of the Judgment of this world has already come».

In August Our Lady transmitted the first part of Her «WORD» through Oris, and on January 13 and 19, 1999, through the same channel She transmitted the next two parts and commanded to compose from Her «Word» a supranational «Gospel of Transfiguration», which was published as a separate book «The Gospel of Transfiguration by the Mother of God» (see below).

### «Muladhara chakra (Argllaamuni-lissiidi)»

*Yalta, 2000*

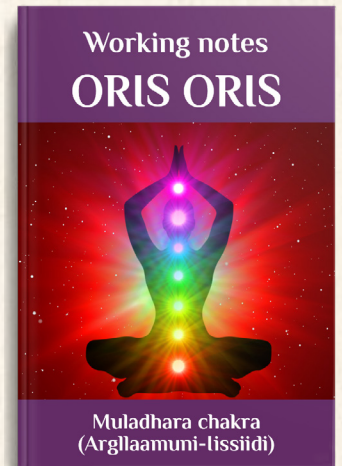

Pages:

Functionally, the Argllaamuni-center (Muladhara) is closely connected with the psychological abilities of the physical body, which provide survival of the physical body and protection of a person from unfavorable external influences. A big role in the activation of the whole immune system belongs to this lower center. Its normal functioning gives a sense of physical health, well-being, self-confidence and stability.

Imbalance and all kinds of muladhara «breakdowns» in the Aura, lead to the constant outflow of these energies and can cause a feel of insecurity, deep depression, lack of willpower, a sharp decline and energy loss, increased soreness in the lower and middle parts of the body, despondency and melancholy. This is particularly typical for those, who have not yet opened the karmic channels of the heart center or if karmic channels of the heart center are very weakly activated, which in order to switch the person to completely higher, spiritual levels of feeling and thinking. In such cases a person loses the purpose of his Life, as if he loses his roots and, purely intuitively, following the consciousnesses of the organs and body systems, completely surrenders himself to the satisfaction of his own lower desires in order to replenish the energies of the Argllaamuni center.

## «Svadhithana chakra (Inglimilissa-lissiidi)»

Yalta, 2000

Pages:

The weaknesses of our sex education have led to the fact that most people, even if they feel a deep sensual attraction, instead of beginning a heartfelt spiritual exploration of each other in the process of intimate interaction and accumulation of sexual energy, instead, close their heart centers and turn the unique opportunity of highly sensual admiration into a trivial sexual act.

Unfortunately, the creators of the lower-astral and dense-material types of Reality benefit greatly from the fact that the prevailing majority of people completely incorrectly and perversely understand the very essence of SEXUAL INTERACTION. Sexual interaction in fact is a spiritual intimate process which, if properly understood, contributes to a stronger contact between a person and his inner Essence and contributes to a more highly-sensual and deeply soulful manifestation of the person.

Love is the real Symbol of the Age of Transfiguration that is coming on Earth! And the mysterious «sacred key» to the Gate of Spiritual Transformation is not somewhere in the cosmic infinity and unfathomable unknown, beyond our psychic capabilities, but in fact is located quite «nearby», or rather, in our own heart center AIGLILLIA, which is filled with the highest vibrations of Love literally towards every manifested aspect of the Life around us, including the strongest of all – the sexual one.

## «Anahata chakra (Aigllilliaa-lissiidi)»

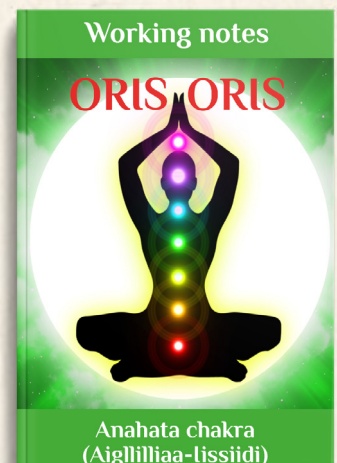

*Yalta, 2000*

Pages:

Oris describes his reflections about the so-called Anahat states and deepens the concepts of Kindness and Love, revealing their different shades depending on the presence of a greater or lesser selfish component in each of such manifestations.

## Book series «ISSIIDL»

This series of books, from the first to the last pages, includes the most unique in meaning and the most important information, accepted by Oris after the year 2000 during his next direct Contacts with the Creators of Humanity: Algellis (Argllaamuni and Inglmilissa iissiidi centers), lillgmmii-I, (Aigllilliaa and Orlaaktor iissiidi) Lua-Andis (Ulgluu and Ssaassfati iissiidi), Greyli-Vin (Olgoolloni and Aani lissiidi), Slliangsmiii (Raaklima and Uluuguma lissiidi), Sslaaiingsa (Svaagali and Eyyaaa lissiidi) and Ssniillgsa. These Cosmic Entities represent personal Interpretations of Oris at the levels of the collective Subconsciousness, Supraconsciousness, Ultraconsciousness, Superconsciousness, Hyperconsciousness, Proconsciousness and Protoconsciousness. The detailed Knowledge of such a high Buddhist level, for many evolutionary reasons, has never before was accessible to humans or even the spiritual Initiates of the 3-4 Planetary Initiations.

Only because of the spiritual transformations which have intensively begun on Earth and because of the preparation of the collective Consciousness of mankind for the act of Transfiguration this Knowledge is now being transmitted to those of earthmen who are ALREADY spiritually mature for its proper understanding and comprehension and who are eager to use it to continue their further Path of mastering and accumulating the entire experience of incarnated earthly existence as swiftly and as effectively as possible.

In none of the astral or written sources on our planet there is even a mention or a distant analogy of this Teaching, because the degree of admission to it requires from the spiritual seeker an active self-discovery and prolonged experience of conscious existence at the causal-buddhich level, as well as an experience of being outside the physical shell for long time.

Oris deliberately integrated all the Knowledge he received - the «Teaching about chakram personalities» - only onto the highest ajna-vishuddha levels of the collective Consciousness of the planet, because further adaptation of these highly spiritual codes to the generally accessible understanding would lead to a significant decrease in their degree of authenticity. Therefore this information can be productively assimilated only by people with actively developed over diaphragmatic psychic centers. For them and ONLY FOR THEM the Spiritual Teachers from Pleiades transmit this newest spiritual Teaching.

## «The Great Message»

In 2006 two volumes of Oris's books were published, reflecting the results of his further Contacts with the Teachers of Humanity, which represent the highest personal Interpretations of his Ultraconsciousness and Superconsciousness, under the general title «The Great Message». Its contents marked the beginning of the creative stage of work with information of a principally new, more qualitative level.

As a result of numerous answers to reader's questions on the materials of these volumes a new series of books «Immortality is accessible to everyone» was published as part of the Issiidiological Knowledge - the newest spiritual-cosmological conceptions about the Universe and the human being.

Pages: 1,469

From 2001 to 2022 Oris has written over 1600 song lyrics to popular tunes of the 20th and 21st centuries. The first 555 songs were combined in two collections called «My Testament». The lyrics of all subsequent songs are published on the Ayfaar Songs website [ayfaarpesni.org](http://ayfaarpesni.org).

These songs tune to a positive perception of life circumstances, an altruistic way of life and unconditional love for everything, as well as a deep understanding of the fact that everything that happens to a person as a good thing.

## Book series «lissiidiology»

From 2009 to the present, Oris has been working on the book series called «lissiidiology».

This series consists of the following books:

- lissiidiology Fundamentals (Volumes 1-6)
- Texts of Ayfaar Songs (Volumes 7-8, previously published under the general title «My Covenant»)
- Dictionary of terms (Volume 9)
- «Immortality is Available to Everyone» (Volumes 10-15),
- «Commentaries to the Fundamentals» (vols. 16-20), which were compiled from the author's written answers to reader's questions
- «Kollokviums on Fundamental Concepts» (volumes 21-22), compiled from the author's oral answers to various lissiidiology questions

This book series is being continually updated with new Oris's answers to reader's questions, which are being subsequently formed into new lissiidiology volumes or added to existing volumes according to their subject.

This series of books reflects the author's latest iissiidiological insights, which deepen, expand and supplement the information published in the previous book series «lissiidi».

# LISSIIDIOLGY

## Volume 9. Glossary of terms

Moscow, 2010

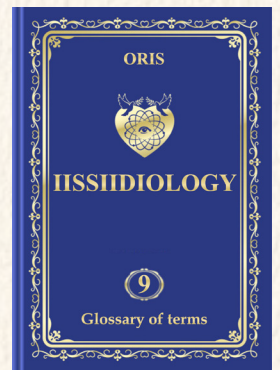

Pages: 725

IISSIIDIOLOGY terminology has its own individual specificity of spelling.

Also, each of the terms includes a much deeper meaning than might seem at first glance, because it is rooted in more qualitative levels of this Knowledge, which, without sufficiently developed extrasensory abilities, is not yet available for access to the current creative dynamics of the Self-Consciousness of an average person.

This publication contains only short vocabulary articles to facilitate the process of understanding the material, at least at the most elementary level. More detailed information on each of the terms can be found in other lissidiology books.

Some terms are very difficult to describe and have absolutely no analogues in the habitual human associative perception, so it is an extremely difficult task for the Author to formulate a dictionary article within the limits of an ordinary person's comprehension.

## Volume 10. Immortality is accessible to everyone. «Fundamental Principles of Immortality»

Moscow, 2010

Pages: 521

In this book, Oris continues to give full answers to inmost and fundamental questions of cosmic and human existence: about Earth and universal destinies, the nature of life and death, Soul and God, good and evil, about our relations with one another, the nature of Space-Time and how the entire visible and invisible-to-us reality is formed. The Universal Knowledge given by Oris offers the fundamentals of a new and unique world view for all of us. It allows us to penetrate the mystery of eternal existence to an extent inaccessible before, reasonably and substantially solving the problems therein, offering convincing answers which are not available in any religious world view, philosophical movement or scientific theory. Oris's Information expands the limits of human experience and perception literally to infinity!

### «Energy and biological mechanisms of refocusing of Self-Consciousness»

Moscow, 2010

Pages: 691

In the first Chapter of Volume, Oris describes in detail functioning of Formo-Creators of the brain, how the memory is accessed, how biological structures of the brain are associated with energy-informational structures of Self-Consciousness, how various Self-Consciousness Levels are differentiated and reprojected at the moment of so-called «Death». This Chapter also describes functioning of «the intestinal brain», how it becomes possible to cure at a distance (the technique of ethereal projection), gives the meaning of the esoteric term the «Astral Plane» from the point of view of lissidiology.

The second Chapter tells us that biological Forms can exist in different Continuums and explains the interrelationship between our lifespan and quality of active Levels of our Self-Consciousness. It also provides information on the following subjects: it is possible to «live one's Life many times» in higher-quality scenarios, cycles of changing male and female manifestations within the structure of a multi-dimensional human Form, physical principles of organization of higher-frequency levels of the Universal Reality with a detailed description of the nature of boson and fermion fields, and types of particles that are carriers of such interaction.

#### **CONTENTS:**

Preface

- SECTION VII. Objective mechanisms of a phenomenal manifestation of the Illusion of «Death» of any «personality» in the dynamics of Formo-systems of the Worlds

Volume 12 is devoted to the diversity of the Self-consciousness manifestation forms in the infinite variety of the Form-Systems of the Worlds. Tell me, what do you know about the universal properties of Space and Time? About the illusory nature of our existence? About the Essence of «development» of each «personality»? It's not easy to answer any of these age-old questions.

But Oris, with all possible detail and thoroughly, goes on to answer not only these, but many other equally urgent and vital questions that trouble us and compel every seeker to learn, to give up something, and to gain something...

### **CONTENTS:**

*Moscow, 2011*

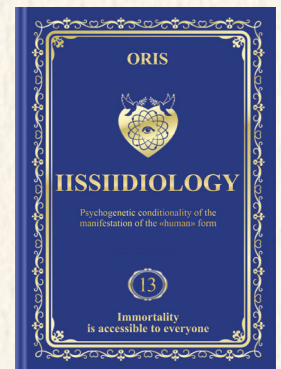

**Pages: 700**

In the 13th volume of the commentaries, Oris answers the vital questions of mental and physical health, medicine, psychology, psychiatry, genetics, somnology, pharmacology, and reveals the psychogenetic features of the manifestation of the «human» Form.

Our biological Existence is a continuous process - when we feel, think and experience something, we immediately become part of those groups of the Worlds, Realities and Continuums whose synthetic dynamics correspond exactly to the quality of these infinite processes.

## **Volume 15. Immortality is accessible to everyone.** **«The Conscious Path to Human Worlds of «personal» Immortality»**

*Moscow, 2012*

**Pages: 648**

«The Conscious Path to the Human Worlds of «personal» Immortality» - this is the name of the new volume from ORIS book cycle «Immortality is accessible to everyone». At first glance, this may seem like an invitation to a philosophical contemplation. But by appealing to his devoted readers, the author hopes for the consideration and perception of this issue in a broader or, if you like, deeper understanding. Philosophical concepts offer to us only sensory-contemplative,

mostly associative images regarding a particular issue. The author, however, presents in this work, as a logical continuation of previous volumes, a detailed consideration of the practical prospects for the development of a personality into a true Human, who explores his own spirituality.

In addition to the mechanisms of working with own Self-Consciousness, which will lead people as Humans to «personal» conscious Immortality, ORIS describes the «Worlds of our Future», the prospects for the manifestation of the coming times. And in order for everyone to develop an understanding of their own Path, a comprehension of the choice of their spiritual development, the author not only describes «bright» prospects, but also specifies in detail the obstacles that each of us may face and, by not noticing or not determining the nature of which, to unconsciously, under the influence of particular reasons, deviate from the development in the Human direction.

With the help of this book, you will be able to determine the qualities that are truly inherent in people, and you can finally figure out how to form in yourself these qualities that are truly Human - with a capital letter. Having experienced what a highly sensual Intellect is, you will then understand why only with the help of highly intellectual Altruism you can find the Path to the cherished Goal of your spiritual future!

### **CONTENTS:**

- SECTION XIX.       Obstacles on the path of realization of «individual» Immortality
- SECTION XX.       The Specific States of uoldmiism (high-sensual Intellect) and stollmiism (High-Intellectual Altruism) synthesized in the Human (lluuvvumic) development Direction
- SECTION XXI.       Specificities of lluuvvumic transformation of human features
- SECTION XXII.     Our «future» Worlds. Perspectives of the approaching times

### **«Interaction of Information and Energy as the Primary Cause for origination of the Creative Activity of Self-Consciousness Focus and the Macrocosmos in whole»**

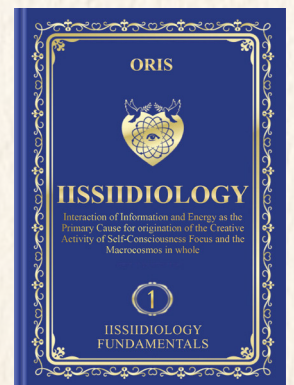

*Moscow 2013*

**Pages: 312**

This book presents the beginning of an overall 20-volume information series titled «The Great Message», which consists of «IIS-SIIDIOLGY. Fundamentals», «Commentaries to Fundamentals» and author's Song lyrics with a highly-spiritual content written to popular and all-loved melodies.

From the very beginning, the author pinpoints the reader's atten-

tion upon fundamental notions of IISSIIDIOLOGY starting from basic, axiomatic Conceptions. The book contains the newest interpretation of formation of the outer reality based on the Self-Consciousness's Focus Dynamics as the main functional mechanism of the Macrocosmos's Creative Activity. A detailed comparison of the author's hypotheses with existing scientific conceptions allows to draw parallels with the current worldviews about nature, space, time, energy and to find the ways for their radical transformation and potential development.

In this volume, the author introduces the conceptual foundation necessary for an adequate understanding of all other IISSIIDIOLOGY books of this series. Hierarchy of Self-Consciousness Levels, dimensional differentiation of manifestation Forms, classification of elementary (and other) particles as structural components of the Universal Plasmic-Differentiation Emission, information theory of the formation of Energy in the Macrocosmos are described in order to form necessary notions that will serve as the basis for further more complex iissiidiological Categories: Universal Cosmic Laws and their Principles, Diapasons of Plasmic Forces, Evolutional and Involutional Branches of development, and many others. The first volume of Fundamentals is the required minimum for any reader who wants to thoroughly study iissiidiological conceptions.

Many scientists may consider this volume of «Fundamentals of IISSIIDIOLOGY», as well as all the other books of this twenty-volume series titled «The Great Message», no more than «science fiction» — each of us has the right to believe in what is the most convincing. However, every intelligent person who possesses at least

the rudiments of cognitive intuition can discover in this information those more Qualitative characteristics of the objective truth, thanks to which continuous eglleroliftive Amplification of all Self-Consciousnesses Forms is carried out.

Catastrophism periodically appearing in the process of human self-cognition is always accompanied by the radical breaking of many old Conceptions, which by its radicalism surpasses greatly all theoretical forecasts. Fanatical belief in dogmas and postulates established once, as well as the clear tendency for idolatry — these are obvious characteristics of degradation and regression that converge modern academic science with paganish religion. Yet, the eglleroliftive Amplification process and harmonious evolution both of a separate personality and human population in general is impossible without breaking down old stereotypes and establishing — on the basis of deep cognition of Wisdom of previous and future generations — much more universal conceptions about ourselves and our surrounding reality.

This uneasy, but grandiose on its depth and scale Task of prompt and Qualitative transformation of human community is assigned by the Evolution Itself to the universal knowledge of IISSIIDIOLOGY, absolutely new to people, which is received for the first time and entirely by one person only by means of the intuitive way of cognition. We offer you to find out more about its newest fundamental Conceptions in the second volume.

Besides, the IISSIIDIOLOGY offers to Collective Consciousness of humankind a totally new paradigm that gives new and fresh view of the multitude of clinical phenomena studied by psychotherapists. It gives a theoretical model for understanding the changes in the mentality of a patient and the hope on clarifying mechanisms of effectiveness of psychotherapeutic method.

### «Variety of Forms of Creative Realization of the Cosmic Human»

Moscow, 2014

Pages: 780

The third volume of «ISSIIDIOLGY Fundamentals» allows readers to go deeper into yet completely unexplored by us structures that provide functioning of human Self-Consciousness and its interconnections with Self-Consciousnesses Forms focused by it. First two volumes of «ISSIIDIOLGY Fundamentals» thoroughly describe the deep Nature of Causes and Mechanisms of Creative Activity of everything manifested in multidimensional and different-Qualitative Macrocosmos, including also qualitative Basis of Focus Dynamics of Form-Creators of Universal Structures. The third volume in its turn focuses on the detailed description of basic Principles of exiberation of Human and other Self-Consciousnesses Forms in all the diversity of different-dimensional diapasons of the Tertiary Illusion.

To allow the reader to fully comprehend the essence of the notion «Self-Consciousness Form,» the author describes realization functions of these structures at the example of subjective formation — as a result of life creativity of every personality — of so called personalistic Worlds, which goes far beyond existing scientific notions about the surrounding reality and peculiarities of interaction between Forms structuring it, whether it is a human, a planet, or an elementary particle. Furthermore, he describes different-dimensional variety of Forms of Iluuvvumic Direction of development and characteristics of focal realization of Humankind Collective Cosmic Intelligence as a unified the LLUU-VVU-Entity.

The third volume ends with a detailed description of multi-level manifestation of Plasmic Forces Diapasons of our Universe, which are described from a position of their subjective interpretation through the specific peculiarities of human Perception systems. Endless inner transformations of Universal Illusion, as mechanisms of evolutional growth of the Cosmic Human on its Way to its Universal Future, lets inquisitive readers to form in their Self-Consciousness own highly intuitive conceptions about endless varieties of all possible variants of development, where goes the process of eternal multidimensional Existence of every human personality.

 **Volume 6. lissidiology Fundamentals.**  
 **«Bioenergy processes of Self-Consciousness Focus Dynamics formation»**

*Moscow, 2017*

**Pages: 772**

This new volume of the series «lissidiology Fundamentals» is a reasonable consequence of consideration of biological mixtum NUU-VVU-Form-Types that was started in the previous volume. For our deeper understanding, it draws our attention even more at iissidiological approach to the matters, which are related discretely by contemporary scientific community to philosophic anthropology in general and to behavior theories of personality in particular.

At more objective, transcendent, gabitual (primordial, objectively deep) discussion, it becomes clear that the given material leads a reader maximally to objectivization of own conceptions about relations among personalized, unconscious, and subconscious levels of Self-Consciousness at the background of developing invizusal (imperceptible by our sensor systems and measuring devices) mechanisms of anatomy and brain neurophysiology, accompanied by dominant dynamics of

the first IISSIIDI-Centers pair.
