LIFE BETWEEN LIVES

PART 3

THE ART OF
DYING

There are so much despair, inconsolable sobbing and bitter tears over the deceased! What a terrible horror many people feel at the approaching of Death, taking it as the end of their existence, their complete destruction and disappearance!

All this happens only because they do not know about the existence of their immortal Soul or they do not believe in It, identifying themselves only with their physical bodies. These people are so self-confident, that they loudly shout: «The human being lives only once!» Saying that or repeating that after other people they insist on the greatest lie.

The books of Oris dissolve the human beings' fear of one of the most sophisticated earthly Illusions, taking the phenomenon of Death from the category of «horrors» into the category of the most effective tools to reach the spiritual Enlightenment and Liberation from the darkness of material Worlds.

«You are the children of the flesh of Abraham; but, lo, I say, There is a spiritual Abraham whom you know not. In spirit you are children of your father, and your father is Devil; you hang upon his words and do his will.

He was a murderer from the first; he cannot tell the truth, and when he tells a lie he speaks his own; he is himself a lie, and he is father of himself.

If you were children of my Father-God, then you could hear the words of God; I speak the words of God, but you can bear them not.

The Aquarian Gospel of Jesus Christ, 135:25-28.

THE AUTHOR'S FOREWORD

The majority of people look with fear and terror on the perspective of their own Death or, as they are sure, on their non-existence and a complete disappearance from **EVERY-THING**. We have given much thought about this in our previous books. If you, upon thorough reading, still do not accept the very fact of Death, it is useless for you to waste your time on reading of this book. Here we are going to dwell on the most important issues of «the Art of Dying» itself during the transitions of Consciousness from a manifested Life on Earth to an excarnated existence in Cosmos.

Dying which many people consider as «the end of Life», actually, is a dramatic transition process from one form of Consciousness's existence to another. In fact, Death itself is not a swift jump (even in cases of so-called «instant death»). It is only the first stage of the Transition from a human being's Life «in the body» to Life «outside of the body». As a whole, such Transition includes the termination of life activity of the physical organism (dying), the release from the field capsule (Soul) and first steps of excarnated Consciousness in a new postmortal Life.

The information that already exists about the process of dying only begins to make a basis for a new medical science of reanimatology, but unfortunately it deals only with the first minutes of the complex and rather prolonged in time psycho-physiological-chemical process, that goes on even after the breath of the dying disappears and their heart stops beating. The termination of the heart beating and breath are no longer taken as a sign of Death.

The modern medicine has assessed difficulties in finding the moment of a biological Death, which is characterized first of all by a progressive decomposition of the whole organism, making it impossible to revive a human being. Nowadays, due to achievements of the modern surgery, the arrest of the heart even for several hours, when it is connected to a heart-lung apparatus, is an ordinary event.

The characteristic thing is that a patient's heart continues to beat, though the electroencephalograph, which determines the brain activity and serves as an essential instrument to register «Life», shows a completely flat **ECG**. Not long ago international medical authorities revised and adjusted the very notion of Death: now it is connected with «the death of the brain», that is, with the beginning of irreversible processes and a damage of the whole brain as a physical substrate of a personality, that determines his/her social and biological essence.

Thanks to the more precise notion, the process of dying is now considered by medical officers not as «a simple transition from an active state of Consciousness to

its complete inertia», but as a much more complex process, affecting all tissues of the organism in various ways and in different degrees. There are situations when the brain of a person is completely dead, but due to reanimation intervention, artificial oxygenation and supportive drug therapy, the heart activity and other functions of inner organs are still fully preserved.

It is good that finally psychiatrists and psychologists started to seriously study such problems as the change of a personality during the process of dying, the character of the subjective experience, connected with it, psychic effects of experiencing deadly dangers, the role in Life of a universal symbolism of Death and rebirth. Thanks to that, the anthropological and philosophical meaning of dying becomes more and more important for realizing not only «the Death phenomenon», but also the Life phenomenon» in general.

In developing countries the attitude towards Death has always been and now remains absolutely different from the one of a modern technically developed society, because they take the art of dying as a necessary aspect of their life experience. In mystery cultures, temple mysteries and ceremonies of initiations people have constantly, for thousands of years, experienced Death and further Resurrection. This experience, though it was purely symbolic in most cases, not only promoted increasing of life forces, acquiring extraordinary capabilities and spiritual enlightenment, but also served as the basic preparation to a real Death experience afterwards.

Such written guides as the Tibetan and the Egyptian Books of the Dead were actually practical reference books on «necropedia». They were specific manuals that helped not only to prepare neophytes for a ritual death and resurrection, but also to prepare people to the experience of a real natural Death. Until now the experience of a symbolic Death is still performed in all the details in numerous ceremonies of the transition from the earth world into the other world. Only in the modern Western culture human beings are absolutely unprepared to meet Death neither psychologically, nor morally.

In our books we are not going to repeat the information described by others. But from our own experience of out-of-body explorations, we would like to add to the already existing information some new interpretations, impressions and meanings, clear enough for the modern civilized human being. Also we would like to help all those wishing to start during their Life to understand more deeply the «cartography» of their possible postmortal existence through methods of training in transformed states of Consciousness.

METAMORPHOSIS OF DEATH

«Friends, search for the truth while you are alive. Plunge into experience while you are alive! Think, meditate, while you are alive, your salvation is possible before death. If within your life you do not shatter illusions, do you think, that after death spirits will help you to do that?»

When they say, that the Soul joins the blessed ones only because the physical body perishes, - do not believe that. As you feel now, so it will be.

If you find nothing now, then at the end of your days you will appear in the Dead City. But if you merge with the divine in yourself now, then in your next life you will have the face of the one whose wishes are satisfied...»

Kabir.

The state of Death can be described or explained in such a small degree as all human lives all together may be described only by the «Jesus Life» or life of any other human being. There are billions of different states of happiness and sufferings - emotional states that have as their resource, physical and spiritual capabilities and feelings. Among them only spiritual ones are left and preserved after the transformation of the lower bodies on the Astral subplanes.

So that you do not ask any baffled questions we would like to dot your i's and cross your t's concerning our understanding of the Death state. Let's begin that our planet, the World surrounding us and we ourselves are no more created than the book you are reading now.

The living Earth Entity and we are only conditions of our Consciousness at the present time, at the present point of the Time field of our civilization. Both the present view of our Planet and our appearance are temporary and transitory. They are only necessary **condi-**
tions. corresponding to the stage of Evolution achieved by the Spiritual Cosmic Entity of each of us in its individual evolution cycles.

If you can realize that all our so-called Life is only a dream, Illusion, one of numerous and multilevel conditions of a constantly developing Consciousness, that all events, situations, appearing in our Life are also unreal like dreams, illusions, echo, mirage, reflection of the Moon in water, then it will not be too hard for you to understand that Death is also a continuation of the same akasha dream of the Soul.

In our earth Life there are practically no moments, when our Consciousness is fully awake. All their life the majority of people seem to sleep and see dreams which they

consider their own Life. That is why such a problem appears concerning the proper interpretation and understanding of the Death phenomenon. What one can expect from a sleeping human being?

Try to understand all that we are trying to describe to you, though in fact it is practically impossible to tell it in the usual human language, because it is indescribable. All we are going to tell you about later on is only one of sixty billions of interpretations of the Consciousness state during such a dream.

We would like to remind you, that the human being personality is only one of a great number of links in a long chain of earth reincarnations of an individual Spirit and 144 its main manifestations - Souls (12 Souls-analogs x 12 Souls-aspects = 144 Souls-manifestations). The physical body of the human personality is given by his/her earth parents. It is the manifestation of hereditary features of a whole family which the immortal individuality - Spirit - during the next incarnation of one of its Souls-analogs must acquire and transform through earth existence of this personality. Later on during the postmortal existence of the Soul-aspect the Spirit will get rid of the features.

Consequently, ***the physical body of the human being incarnated on Earth directly and functionally depends on the evolution experience of the Soul-aspect that manifests itself through it on the Physical Plane. The physical body also depends on the level of the human being's Consciousness development, on the necessity to improve spiritually, on those tasks that the manifested Soul must fulfill during the development of some of the 12 Zodiac qualities.***

Thus, the physical body represent not only the supply of positive and negative Karma of an individual in this particular incarnation, but also the result of karmic consequences of existence of several generations that gave their genetic codes to the body. Emotional and intellectual aspects of Consciousness of a human being are an accumulated result of many centuries of experience during all earth reincarnations of a Spirit. They are the psycho-physical-spiritual capital that will be used by a Soul-aspect in the next reincarnation through this particular personality.

That is why ***the personality is a physical and psychical expression of the Soul experience, crystallized during a great number of reincarnations into its emotional qualities, intellectual capabilities and will power.*** As for the real Spiritual Cosmic Entity, that is an individual Spirit, it does not concern lower energy-information levels of Existence. It remains plunged in the Causal World which is close and proper to it, where it gets its strength for manifesting its 12 Souls-analogs on the lower levels (see the book «The Soul in the Zodiac»).

Please, remember and try to understand that each feeling is always relative. **AT THIS STAGE OF THE DEVELOPMENT** of humankind there is no Good, no Evil, no happiness, no sufferings both personal and abstract, that exist **AS IF** by themselves, outside of their reflections through a particular Consciousness level or in isolation from a quality momentary state of manifested Consciousness. Whatever we do, think, whatever

we live though is just consequences of numerous and multi-quality Causes whose deep roots go back hundreds of thousands and billions of years, during which our individual Cosmic Spirit has evolved.

Good is limitless and eternal only in what is eternally hidden from us, that is why we consider it eternal. One is supposed to counterbalance the other on manifested Planes of Existence. *Evil is only a counteracting Force in Nature, it is a reaction, resistance and contrast of something to somebody. What seems to be Evil to some people is considered as Good by others.* Evil does not exist by itself, in isolation from Good. It is like a Shadow without Light. Light would not exist without the Shadow even in our ignorant perceptions.

In the human nature Evil shows only the polarity of Spirit and Matter, «the fight for Life» between two different polar manifestations of ONE ENERGY on the Physical Plane of Earth, two Sources, which are one in their essence, because both have roots in the One and the Only God. The action of these two **seemingly** opposites, like two interdependent forces - centrifugal and centripetal, creates that very Divine Harmony and balance, that are inherent to the one and indivisible Cosmos surrounding us.

If the action of one of these Forces could be suddenly blocked, then the action of the other Force would immediately start to destroy itself. A human being, like God, also creates himself/herself, creates his/her own world and only having reached a complete self-knowledge in this world, starts really to unite into one whole all his/her numerous manifestations with his/her Divine Spirit.

During all our Life we constantly break up ourselves. Moving along our Life within Time, that exists absolutely only **BEFORE US**, we constantly come across timeless Worlds and dynamically influence on them. *Each of our activity automatically gives rise to its equal passivity aimed in the opposite direction in Space.* That is why, often unconsciously, *all the time we create an equal counteraction to each of our actions.*

The human Spirit is limitless, that is why only a scanty part of our truthful Cosmic Entity participates in each aspect of our Life. And our moving force is only one particular aspect of our Spirit - its 1/144 part - our Soul-aspect. If we compare a human being with a multifaceted crystal, then we can say, that in each particular case we come into contact with Worlds «located» outside us only with one of our many facets, leaving all other facets passive at this moment.

Spirit, one of numerous aspects of which is our Soul during its manifestations on the Physical Plane, is an integral part of Galactic and Universal Cosmic Spirit and that is why It is immortal. It is given to each of us by God, It will always exist and Its destination is coming back to the Source.

Upanishads describe Spirit as *«the one that exist everywhere, without a body, without a form, whole, wise, all knowing, brilliant, self-sufficient, all superior. It enjoys nothing, never dies, is not an effect of any cause, eternal, self-dependent, immortal, eternal, ancient».* The Greek philosopher, Heraklith, said: *“Whatever you study, you will never reach boundaries of the Spirit, because the Spirit has no boundaries at all.”*

A human being is passive by his/her Nature; only our Spirit is the active beginning in each of us. That is why the Spirit is the primary source of all our relations with Worlds, surrounding us. Changing states of our bodies of manifestation in corresponding Worlds, the Spirit constantly brings us into contact with new factors of these Worlds, which influence on us correspondingly. And we, according to the level of our Consciousness, adequately or inadequately react on these influences.

Only a real Love and a real Hatred are the only immortal feelings, ***but between them there are numberless transition stages of the human Consciousness conditions on the seven-times-septenary scale of the entire Life keyboard.*** Only these two poles of the human Soul - Love and Hatred - form the future state of any human being, whether it is Death or Life. This means, that the diversity of such conditions must be inexhaustible.

THE PREPARATION FOR DEATH

«A man is a part of the whole named «Universe»; it is a part, limited in space and time. He experiences himself, his thoughts and his feelings as something totally separate from all the rest,- as an optical illusion of Consciousness. This illusion is a peculiar prison to us, that limits us to our personal wishes, desires and attachments to several close people.

Our purpose is to let us free from this narrow prison by enlarging the circle of compassion, which must be spread around on all living creatures and the beauty of Nature.»

Albert Einstein.

The period of dying is always the event of the greatest importance, because the moral, ethical and spiritual position of a dying person at the moment of his/her Death determines not only the level of his/her postmortal existence, but also the quality of a future incarnation of the Soul. The essence and the course of the next incarnation, in their turn, are actualization of the person's manner of Death. But, unfortunately, until now the majority of people do not consider the processes of aging, deadly diseases and dying as integral parts of the united and inseparable process of Life. They look at all these events as a complete failure and unhealthy misunderstanding of limited possibilities of human beings to control Nature.

The attitude towards the world, Life and Death, imposed on us by science and materialistic philosophy makes the position of a dying atheist terribly hard. Such person is absolutely sure that nothing exists beyond limits of the materialistic World. Science states that only living organisms, with functioning sense organs are able to perceive the reality. Science considers Consciousness only as a product of the physical brain activity, so that decomposition or annihilation of the brain leads to the irreversible end of the human Life.

The horror of Death raises up so many sufferings, so many gloomy Thoughts! People usually connect this sort of fear with the realization of their Life trajectory. Unlike animals, human beings know that they are mortal and that sooner or later they will have to experience the end of their biological existence. In addition all of us keep in our subconsciousness functional matrixes containing all episodes of the Soul's real connection with Death that ever happened in its Existence.

Analyzing the reasons of human fear before Death in the second part, we have found out roots of this fear: most often the dying people are afraid to let go the moment of their Life, they are terribly afraid to be lost for ever in the unknown **SOMETHING**,

or to stop their existence at all, whatever it is. The majority of people cannot cope with this particular fear, because it is full of dread of the transient, unknown, uncertain and next ever changing moment of Life.

When you do not trust Life, you cannot trust Death. Human beings make so many mistakes during their Life taking wrong decisions. But thoughtlessly they put all the responsibility for their own mistakes on other people, considering them guilty. They do not even guess that they deceive themselves, that Life does not deceive them severely. If their own foolishness, ignorance and egoism became main reasons of their mistrust towards Life, then all these qualities will become main obstacles for their faith in their future Death as the Transition to a new Life.

Those are really ready to die who have lived such a full Life that they are not afraid of any notions of non-existence. Those who live their own Life so wholly that they include Death naturally and easily into their Life cannot have spiritual sufferings or disappointments during dying. But to live so fully you must stop postponing your own Life «for later». Because together with your Life you «put off» your Death, being rather naive and supposing you will have enough time in the future to enjoy your Life «properly», «as you really want», «like normal human beings».

So, if you do not wish to open yourself and let go everything negative you have acquired during the years of your inadequate Life, you also constantly postpone «for later» the possibility of your Liberation. In order to come as close as possible to your Liberation, you must learn to stay in the present, here and now, being only positive. You must consider with love each moment of your Life as a precious gift - whether it is a disease, joy, sorrow or even more, Death itself.

Imagine that you were born into this World only to meet one particular, really precious and unique occasion during your whole Life, but you do not know anything about it: its character, when and how, in what circumstances it will happen to you. That is why each moment of your Life, every day, all the time you must be wide awake, must pull yourself together, be always prepared to be always ready to meet with dignity this extraordinary trial.

Read in the part «The Warrior and Death» how in ancient times Warriors considered this most important and leading moment in their Life and you will understand many things. You must understand only one simple thing: in order to really get to this main moment - your own Death - you must not leave any single instant of your Life without your personal attention. For that you must constantly open for all Life manifestations.

To be always open for any moment of your own Life, for everything happening in it without any exceptions - this is the best way to be really prepared for your forthcoming Death. Because if you decide from the very beginning that everything is fine in your Life, except Death, then soon you will definitely notice that you start to consider many things as negative and unacceptable parts of Life: a quarrel with a beloved person, the feeling of a loss, love failure, etc.

With such thinking you will inevitably start to shut yourself off from Life itself, gradually making the circle of events that you consider safe and acceptable narrower, until finally you will find yourself in a complete isolation. And from its point of view any somewhat significant unpleasant thing, let alone the possibility to die any moment, you will consider the ruin of all your hopes and all the meaning of your Life. It is possible to open yourself to Life endlessly, because it has so many trifles which you would like not to have and so many trials which you would prefer to escape, that even during the longest Life you would not be able to exhaust all of them.

The only thing you need is to open yourself to this inexhaustible flow, accept it **kindly**; allow it to enter into you. If you risk to start living in this very way, then very soon you will notice for yourself that the more you are open **ABSOLUTELY TO EVERYTHING HAPPENING WITH YOU AND AROUND YOU**, the less you will see your enemy in your future Death. Enemies, like a category of people threatening your safety and your peace, will disappear altogether from your Life!

When you start using Death for deepening and spiritual enrichment of your Life, very soon everything around you will become as it is in reality, not as you imagine it. Only then you will get the possibility to live a real Life, to the best of your abilities, not being afraid of anything any more: either Life, or Death.

At least for a moment imagine yourself as a child fully trusting its mother. The child follows her and does not even think whether it would influence somehow its safety, comfort or dependence. It obeys and trusts the mother absolutely in everything, whatever she does. **IT TRUST!** It does not even think that, due to her experience and knowledge of Life, the mother has a much broader perspective of their joint existence in Life than the child itself. It **SIMPLY BELIEVES AND TRUSTS HER ABSOLUTELY AND INFINITELY!**

You should also trust, that God Himself (which means that your Life itself) is full of an absolute, unlimited, unconditional Love for you personally and does not want to make you suffer from suffering, pain or anxiety. You cause all these feelings yourself, as you do not really trust either God, or Life, taking the lessons taught to you every moment in a wrong way, negatively, egoistically and one-sidedly.

Let us discuss again the situation with that mother and her child. When the child stops trusting her, when it becomes naughty, doing everything in its own way, it tears itself from its mother and stops following the line of least resistance in Life. The child begins to tear about chaotically, interfering in other flows of Life, getting blows, slaps, spits, pushes which cause pain, humiliations and sufferings to it.

As soon as the naughty child behaves too bad, plays the rogue, rents the air with loud cries, the mother has to use more and more strict and strong measures to discipline it, call it to order and help it to return back to a normal behavior. Depending on the degree of its mischievous behavior, the child may be strictly blamed, warned against its bad actions or slightly spanked.

The mother has to take all these measures not because she hates her shiftless son,

but because she wants to teach it decent norms of behavior in the particular society (on Earth, in Cosmos) and by these lessons make its future existence safer. All this would not happen if her son was obedient and followed accurately his mother's advice. Then his mother would take upon herself the majority of blows from outside. She would also solve most of their problems - for herself and for her son.

His duty and his part, as an obedient child, would be to hold on tightly to his mother's hand, look around carefully, observing from outside all the events taking place around them, and infinitely trust and be sure that the mother will find a proper way out and make a right decision in any situation. Your «mother» is your Life, God! All the rest, by analogy, correspondingly depends whether you behave like an obedient son, or make the mother take exclusively strict measures towards you, when each moment you try to do everything **AGAINST** anything, not **FOR THE SAKE OF** higher, noble, right ideas.

Everything, absolutely everything in your Life happens not from somewhere or something outside, but depends on your personal attitude to somebody or something, whether you take a right decision each moment of your Life. Only when you learn to live properly, - not being resistant to Life, when you trust, believe and positively take each next moment of Life, however «bad» it might be from your personal point of view, - only then you will learn how to die properly. There is no other option.

Please, remember one more thing: the more you hide from yourself, the more you wait and postpone your Life, the more you will be afraid to die. Putting off your Life, you also set aside your Death. Having a negative attitude to Death, you soon willy-nilly will start to reject Life itself, you will start to be afraid of its hardships, vicissitudes and unpleasant surprises. You must know that the fear of Death is proportional to the fear of Life, to the fear to part and lose all that you call “your self”, lose the possibility to be «yourself».

The stronger, more rooted is your notion about your personal «ego», the deeper and fundamentally you start to separate yourself from Life, that is run away from your «mother». That means that the fear of Death will also possess your Consciousness more and more. The more the dying defend their own personality, identifying themselves with it, the less they will manage to experience that **SOMETHING** located beyond their visible personality.

The more the dying defend the right of their own «ego» to exist separately from the **WHOLE**, the more they will push off Life from themselves, the more they have to be surprised by its complete meaninglessness, consequently the more illusory and transient things they will accumulate, which they will be afraid to lose during their Death.

In order to get rid of the fear of Death, you have to cross over its boundaries, cross over the limits of your physical body's Consciousness restricted by this World and therefore of the one who can die. Consciousness of a physical human being is so nervous because it is consciousness that is threatened with the destruction and decomposition into chemical elements. That is why Consciousness denies so furi-

ously any Thought about its decease.

You must try to reach a higher level of Consciousness, that is the Consciousness of your own subtle body, and to merge as full as possible with vastitude of Existence that all of us are used to call immortality. Only in such a case your Death will become a Revelation for you and a possibility for the spiritual ascension of your Soul.

That is why as a practical preparation for Death, we suggest you to try to stay open for everything unpleasant. Whatever happens to you, learn to accept and release all your negative emotions, especially such as irritation and fear. For instance, if you make a list of your limitations and attachments, as full as possible, you will be able to see yourself as if from outside and you will be convinced of a complete inability of what you are used to consider your own personality.

This will help you to stop identifying yourself with your outer manifestation. This will allow you to get rid of that imaginary fear to lose your factitious earthly «individuality»; otherwise your fear of Death will become stronger and stronger. Consciousness of a physical human being and Consciousness of the Soul closed up in the physical body, are at absolutely different levels, exactly in the same way as differ consciousness of the heart and the one of the bowels. Not so long ago I had the possibility to make sure of it, when - following demands of my mature Karma - I went to the mountains and lived completely alone in a cave, fasting and only drinking spring water during 40 days (from June 15 till August 25, 1996).

All the time Consciousness of the physical body tried to convince me, that the situation I pulled myself into willingly is extremely dangerous and has no sense at all. My lower “self”, worried about its safety, gave me so many proofs; but by that time I had already managed to separate my real essence from my physical personality, not perfect enough. That is why I managed to endure up to the end such a hard test which after a two hour’s coma ended well with a **SPECIAL EVENT**.

As we have mentioned the majority of people are afraid of the very Idea of Death, the uncertainty hiding behind this process. For most people it is extremely hard to imagine where they will go after Death. Whatever they are told concerning Death and “post-mortal existence”, people accept with mistrust, even if they are given really convincing evidence as a proof.

Our mind is not able to defend us from fears. It does not allow us to enter calmly into the process of the other world’s investigation. We definitely know for sure that our physical body will disintegrate after our Death, but who will prove, that the same Energy making our body alive sometime ago, will not also disintegrate. Our identity with our body as our «self» is proportional to our fear of Death.

By the way, American Indians had a tradition to give a natural crystal to a dying person for meditation, like amethyst or crystal sparkling with all rainbow colors; this helps to distract the dying person from painful thoughts about a coming Death. Watching the shining stone helps the dying person to let his/her Mind go and go beyond its limits.

Besides clear and high frequency vibrations of these minerals help the dying person's Consciousness to reach a higher energy level, distract the person's attention from annoying earthly problems and Thoughts, and approach as close as possible to energies of the Worlds of higher quality. In such a way during their Death, human beings as if enter by their Consciousness into the rainbow of the crystal and part with their physical body much easier.

In order to prepare the dying for Transition American Indians also use the so-called «song of Death». To get such a «song» every mature Indian, while still being healthy and in the prime of his/her life, must go to a desert for several days and stay there absolutely alone, strictly fasting and praying to his/her Spirits. If the Indian is lucky enough, during such an individual state of Consciousness he/she receives from the Great Spirit some sacred directions for the future.

Being in the state of a trance, many Indians indeed experience specific lofty feelings of exaltation that help them to invent such an original sacred «song of Death». Later on they are supposed to sing it while in danger, in some critical situations or when Death approaches. This sacred song becomes an inseparable part of this person, the essential feature of his/her Life. It helps to concentrate instantly in any unfavorable situation, become focused, leaving the heart open, and the Mind clear and free from any kind of fear.

In fact this «song of Death» becomes a special secret code that helps the Indian to get into contact with something unknown, including his/her own Death. The song can be inherited by the Indian's children, grandchildren and relatives. This sacred song of Death is a specific kind of psychotechnique that gives full scope to the vision and allows a believer to go practically instantly beyond limits of the known. Thanks to such a song many American Indians performed their Transition into the other existence in the state of a complete Consciousness clarity. The great Japanese poet Basho told his disciples who asked him to leave his «song of Death» before his decease:

«Since ancient times there was a traditional custom to leave after oneself a poem of death. Maybe I should also write such a poem. But each moment of life is the last one, each poem is the poem of death! Then in such case why should I write another poem? At this my last hour I have no poem...»

When his disciples insisted that at least the poet should write down something before his Death, he wrote only one single hieroglyph - «dream» and, with an evident joy in his eyes he peacefully and calmly left the vanity of this Life. We are neither American Indians nor Japanese. We grew up in absolutely different traditions that also condition our attitude towards Death. Unfortunately we do not have either our own «song of Death», or any other means, except prayer, that would help us to overcome a hard psychological barrier of the Transition.

About the author

During his creative life Oris has written about 100 books on spiritual-philosophical and esoteric topics, as well as on the mental and spiritual relationship between the human energy-structure and the energy-structure of the universe.

A large part of Oris's life is devoted to spiritual creativity through writing books on cosmological subjects. In them the author uncovers such matters, which no one has ever touched so deeply and in such detail before. As early as 1996 Oris managed to find his Spiritual Mission, which he is tirelessly pursuing to the present day.

Oris was born on 25 January 1954 in small Ukrainian village of Maryinka in the Donetsk region in the family of a miner and a nurse.

From an early age (at the age of three) Oris developed an intuitive gift for writing poetry. Oris read out his first poem «Zhen-shen» at the age of 3 to his mother, who wrote it down, because he couldn't write yet.

He also possessed medial abilities from an early age: he could spontaneously «see» dynamic pictures of events and episodes from other people's personal lives, the authenticity of which was often later proven.

As a preschooler, Oris would periodically warn the children of impending contingencies when they were up to some mischief, and at school he knew who would be called to the blackboard and warned his classmates about it. He also knew in advance which boys and girls would be sympathetic to one another and which not.

Oris's first poems, from the age of 6, were published in the Maryinsky district

newspaper. In addition, Oris was good at drawing: 14 portraits of Ukrainian and Russian writers, which he painted in the 3rd grade, decorated the walls of the school corridor.

In 1971, Oris graduated from the 10th grade, worked as an instructor of physical education in Maryinsky Raypotrebsoyuz, and in 1973 he entered the Faculty of Agronomy of the Crimean Agricultural Institute, graduating in 1978. After 4 years of professional activity on the South Coast of Crimea (Yalta), he became the director of sports and recreation base (village of Ponizovka), belonging to two Moscow research and production associations - «Measuring Equipment» and «Energy», serving the space industry. He resigned in 1990 to pursue his literary career.

As a teenager, Oris became very interested in martial arts: karate (Kyokushinkai), kung fu (dim mak - «the art of the poisonous hand», Wing Chun, Zui Quan), judo, sambo and others. Later, in 1975 he achieved a black belt in martial arts and in 1979 in Yalta at the Ministry of Internal Affairs he opened a martial arts section and hand-to-hand fighting.

From this period (1975), while still a student at the Institute, he worked for 15 years on writing several books series about martial arts. Three volume textbook on karate and Dim-Mak Art titled «Karate Way - from Student to Master» was colourfully designed and published in Moscow in 1992. During these years a separate book «Dim Mak - the art of poisonous hand» was published in Moscow. A second cycle consisting of more than 20 books under the general title «Initiation or the Path of a warrior» was written during this period, but it was not published in the USSR because the author had no higher physical education. For this reason in 1982 Oris entered Simferopol State University, but in the 4th year he left the University for family reasons (due to the birth of his son Yaroslav in 1983) and because of perestroika.

During his work on the book cycle 'Initiation or the Path of a Warrior', Oris (in a state of deep meditation) first inadvertently came into Contact with his Spiritual Teachers, after which he regularly received the information that formed the basis of the most unique book series 'Life between Live's and all the books subsequently written by him.

Then begins a more intense Spiritual Path for Oris, marked by a turning point in his life due to the urgent need arising in his Consciousness to find Himself and his Spiritual role in life.

He went as a hermit to a cave in 1996 from which he had no plans to return. There, in the cave, deep Spiritual revelations came to him, as well as information about his past (parallel) lives. Some of these inner experiences Oris described in poems, which have been published in a separate collection. On the basis of the contacts with his Spiritual Teachers during this period (after 40 days of taking only water), having learned his Purpose in life, he returns home with a renewed Self-consciousness, after which a new Spiritual phase begins in his life: within four years he writes more than 40 books, which are combined into several cycles with the following

titles: «Life Between Lives», «The Art of Dying» and «Extraterrestrial Contacts».

After 2000 he began to write texts to the melodies of Soviet hit songs, in which he expressed the whole quintessence of his spiritual conclusions and thoughts, emphasizing the role of Love, Kindness, Mercy and all Human qualities and feelings, which people so often forget in their everyday life.

Also after 4 consecutive Spiritual Initiations (from 1996 to 2000) Oris gets access to more true and authentic information about the structure of the Universe and the role of human in it, which he reveals in the book series called «lissiidi», «The Great Message», «Immortality is available to everyone» and «lissiidiology Fundamentals». These book series are written as the quality of information that Oris received becomes more and more complex because it comes from deeper and deeper levels of the collective Subconsciousness. These more profound and insightful conceptions form basis of his own Self-Consciousness and he begins to find answers to complex cosmological questions that until then were expected to remain unanswered for people for many decades to come.

A more detailed and complete list of all books written by Oris is set out below. They are presented in chronological order as books were written.

A collection of poems «40 days of Hermitage»

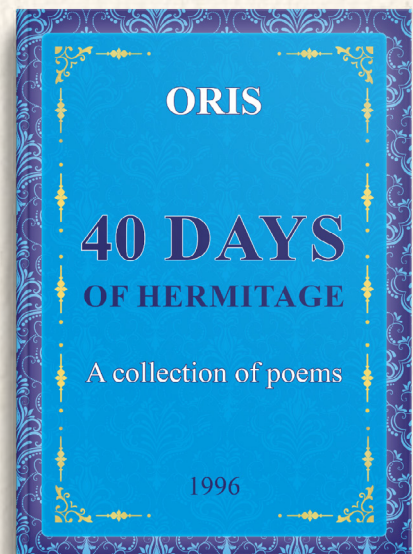

Yalta, 1996

Pages: 47

All poems in this book were written by Oris in 1996 in the Ai-Petri mountains, when he voluntarily took a vow of silence and lived for 40 days in a mountain forest, in a small space dug with a tin can between two rocks supporting each other, completely refusing food and any communication with people.

His inner reason for going to the mountains was the pressing, unyielding need in his Soul to try to cognize the Meaning of his present existence as deeply as possible and, if possible, to try to find the Essence of his own Spiritual Destination by conducting an inner dialog with his «Higher Self» and seeking opportunities to understand himself...

This book also contains an audio recording of these poems, which Oris recorded onto a tape recorder during this act of hermitage.

Thought and Meditation

Yalta, 1997

Pages:

Thoughts, unlike objects, do not belong to you: they come from somewhere else all the time, stay and interact with your Consciousness for a while, and then imperceptibly disappear to somewhere. Your thinking is the process of continuously synthesizing in your reality newer and newer Forms from the already known to you mental and sensual experience. Therefore for you the thinking process represents the «beginning» and the «end» of absolutely all of your desires - from getting some material benefits to achieving «higher» (according to your concepts) spiritual goals.

By mastering the art of mental transformations, you will have an absolutely real means of consciously controlling the material conditions of your earthly existence. By improving in this direction, your mentality can reach the point where it becomes possible to control the powerful factors of the natural elements of Nature, influencing not only the weather, but also such destructive phenomena as tornadoes, tornadoes, earthquakes, tsunamis with the power of your Mind...

Book series «Life between Lives»

Yalta, 1997-1998

What Oris writes about in this book series is the most detailed description ever written by human about the entire sequence of events undergone by the Consciousness of a dead person when he returns to his Heavenly Home, which has so many «abodes» that it is impossible for an ordinary person to even imagine.

Oris, using his many years of individual experience of astral travel, describes in detail the Astral and Mental realities he has explored, transforming the Incomprehensibly-Cognizable Existence into Knowledge that is comprehensible to almost every person, which leads readers to a gradual realization of the immutable Truth of their infinite Cosmic Existence.

Book 1. «Life without death» («The spirit of death»)

Yalta, 1997

Pages:

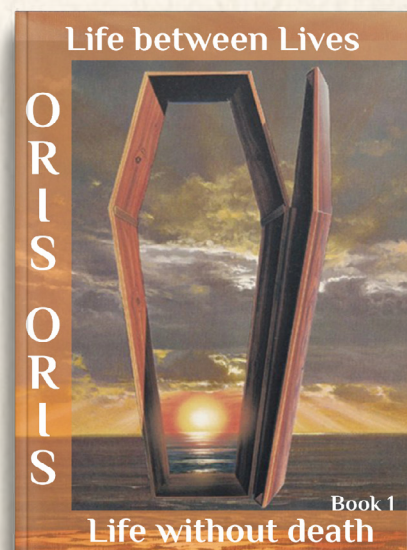

Who are you? How and why did you come to this cruel and alien world? Where will you go and how will you live after your loved ones have said good-buy to you on this earth? And will you really exist after that? These are constant questions. But they have answers. The secret of life and death irresistibly draws man to the realization of what he has long known, but what has remained a mystery and unknown.

If you need answers to these eternal questions, if you can no longer live without understanding them, then this source of knowledge is for you.

Book 2. «Soul and the Cosmos»

Yalta, 1997

 Pages:

 When confronted with the constant choice between Good and Evil, man is lost and does not always think about whom exactly with his every choice and action he serves: God or Satan? To help the reader to choose, the author tells in details about Egregors - astral entities, adapted to living in both as in positive so and in negative poles of Existense, which are mainly determined by the nature of Egregor itself.

 The author helps to understand all the subtleties of this topic, showing using examples the activity of «devil's Egregors», explains to what can lead the spiritual ignorance and thoughtless worship of material symbols, which all lower the human consciousness to the level of sorcerers, magicians and so-called non-humans.

How can we cleanse ourselves from the astral dirt of our own ignorance, which degrades our spiritual Essence and puts us on the same level as wild animals? How can we in Life take care of favorable conditions of our postmortem existence? This and much more is discussed by Oris in his second book «Soul and the Cosmos».

Book 3. «Soul in other Worlds»

Yalta, 1997

Pages:

Always when people speak of «other cosmic thinking civilizations» they usually mean either the intelligent populations of other planets, the so-called «brothers in mind» or something very abstract and vague. But for some reason no one ever thought that these very «thinking civilizations» could be OURSELF, but only OURSELF located at other levels of OUR development, in other conditions of Existence, in the past or future space-time structure, in other circles of OUR human civilization's time field.

All so-called «other worlds» should not be perceived as something alien and unknown. There is no dividing barrier between «this World» and the many «other Worlds». On the contrary, all that exists is one single Divine Being.

You will learn about this and much more from the third book «Soul in other Worlds».

 This book may seem unbelievable and dreamy to the reader, but those who have ears to hear will find confirmation of their thoughts and hopes and proof that we are not the only people in the cosmos.

The time has come to meet those who have been invisibly present around us for millions of years, sending signals of their invisible existence. May each of you perceive this book the way he or she feels! For some, it may be perceived as a fairy tale, and for others, as information for reflection or as a guide. In this way, the main goal of this book will be achieved, because you will know the Truth, and what to do with that Truth is everyone's personal choice.

This book represents the least amount of information about the author's many Contacts with other cosmic civilizations and the information that has been received from Those whom the author calls The Universal Teachers.

Book 5. «The technique of Astro-Travel. Chakrams»

Yalta, 1998

Pages:

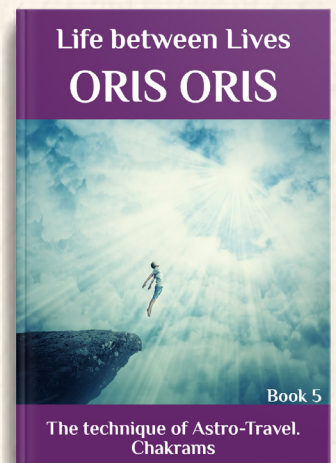

In this book the author continues his exploration of the world around us and tries to unravel one of the most unexplored mysteries of nature – the human. After all, only by knowing ourselves we can come closer to knowing God and His Mysteries.

Who are you and what are you doing on this planet? What is the point of your being here? Where will you go after people say about you, «He's dead...»? And in general, will there be anything left after Death other than the memory of you? All these questions will be answered through the author of this book by his Teacher, who has undertaken the mission to give a thorough introduction to the mankind on Earth to the problem of so called «post-death existence» of a human.

Book 7. «Soul in the Zodiac»

Yalta, 1998

Pages:

In this book the author tells us that the entire world around us is a single system, and the parts of which are in very close relationships and interconnections, and that the entire Universe is subject to unified rhythms and unified cycles. Some of these cycles began at the creation of the Worlds and determine the Evolution of the Universe as a whole. Others determine the course of geological processes that change the face of our planet and, in turn, also affect the development of all mankind, the emergence and collapse of terrestrial civilizations.

The nature of all these influences, both global and individual rhythms, on the objects of the World is determined by the laws of the Zodiac, whose symbolism is much deeper than many novice astrologers think. In addition, in each cycle we can distinguish twelve basic and twelve current phases or micro-cycles, the characteristics of which are also associated with the passage of the Soul along different qualities and with the zodiac symbolism.

This book, as well as all the other books by Oris, is intended for those readers who seriously, deeply and with a sincere desire want to understand on their own everything that relates to the problems of Life and Death, who see in their impending Death not the most terrible and dangerous enemy, but on the contrary, a reliable adviser and a friend.

With Oris's books, Death is transformed from a frightening adversary, from an unfortunate failure or fatal mistake in the Universe into one more, another Transfiguration, to which we have already been subjected more than once.

Book 8. «The art of dying»

This book consists of 5 parts.

Pages:

The author has tried to give the most detailed answers to specific questions through his many years of experience of independent out-of-body explorations of the Ethereal World: how to die correctly? How to learn to accept your death in time? How the transformation of subtle bodies takes place during the post-mortem transition?

This book, describing in the most detailed way the changing state of a person's Consciousness during the process called «dying» and his Soul's presence in various

vibrations of the energies of the Astral, is also a kind of manual of religious therapy and eschatological psychosurgery, carried out through the most detailed texts of “Instructions” read by relatives for the dying ones or an already dead person in order to strengthen and awaken his Consciousness before the Transition to the Other World.

Among other things, this book can safely be classified as one of the most detailed travel guides to the many realms and spheres of the Ethereal World, which we commonly refer to as the «afterlife».

As long as man is alive, he gives little thought to WHAT awaits him, perhaps in the next second: after all, how many beautiful lines broke off in mid-sentence, and how many good deeds were not destined to come true only because people in their busy every-day life keep putting off all the best and the most necessary,

forgetting that in the next moment they may not have that «later» at all. How many lost opportunities for the most simple manifestation of Kindness and Love towards each other have never been realized, and how many unspoken beautiful words have fallen into nothing!

Fear of Death is the individual's fear of losing himself, the fear of the need for further evolution. Man is most afraid of the unknown, but it is the unknown that makes a man to conquer his fear again and again. Many people are totally unaware of the infinite variety of levels of Consciousness in their own nature and whatever the author of this book may say to them about it, it will still not help them to understand it.

But there is still a small, even a tiny one-thousandth part of humanity which is the reason why all this knowledge about the true picture of Existence after Death is given. For the Transfiguration of this small part of mankind a small group of Star-Born Ones have specially incarnated and agreed to become conductors between the awakening Consciousnesses of the Earth and the Consciousnesses of the spiritual Teachers from Sirius and Pleiades. To each thousandth of the incarnate Earth's humanity Oris addresses in his books.

«Extraterrestrial Contacts»

In today's world there is a lot of information about UFOs, about the meetings of individuals and even whole governments with aliens, as well as materials of telepathic Contacts with representatives of various extraterrestrial civilizations, etc. Unfortunately this information, while passing through different dimensions to us, in our three-dimensional world, is often subject to very strong distortions and is very often misunderstood by us due to the specifics of our three-dimensional way of thinking.

Offered to you materials of Oris's Contacts with the commanders and crew members of the Sirius-A and Sirius-B starships, as well as with other extraterrestrial Consciousnesses and Civilizations, including the Consciousness of Christ, Lord Maitreya, God of the Sun (the Logos of our Solar System), Elohim (the Creators of our Universe), and the four Archangels (Michael, Uriil, Gabriel and Metatron), are unique because they are literally received «first-hand» and contain very valuable information, useful for all humanity, which lives on the eve of the Transfiguration of the Earth.

The Pleadians and Siriusians, who are the true spiritual Teachers of Earth's humanity, are happy to share with us the knowledge without which we earthlings cannot emerge from the endless series of earthly incarnations and join as equals the extraterrestrial civilizations that are part of the «Commonwealth of the Light Ring» on the expanses of Cosmic and Galactic Creativity.

About this and much more you can learn from this book series called «Extraterrestrial Contacts».

Book 1. «Teachers from Pleiades report»

Yalta, 1998

Pages:

Such concepts as «Cosmos», «Higher Intelligence», «UFOs», «aliens», etc. have now firmly established in our Consciousness, and we can no longer imagine ourselves, our planet and our entire existence in isolation from the rest of the universe, from the hope of a promising direct contact with brothers in Mind.

Who are they, our teachers, what do they teach, what do they look like, and what do they want from us? In this book you will find answers to these and many other questions.

In this book, the Pleiadians and Siriusians, who are the true spiritual Teachers of mankind, gladly share their knowledge with us, without which we, the earthlings, would not be able in the very short time that remains before the Transfiguration to come out of the many thousands of years of hibernation and to make the necessary number of timeless passages in the impermeable thickness of the Collective Consciousness, necessary for the so called «shift of the paradigm».

Book 3. «The crew of the Starship Sirius-B reports»

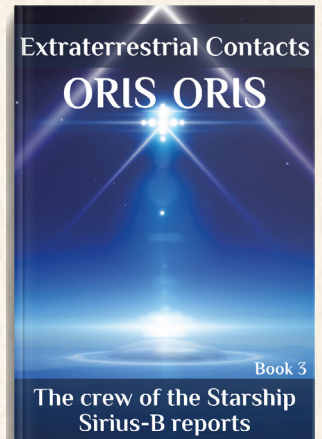

Yalta, 1998

Pages:

The next ten to fifteen years are predicted by extraterrestrials to be very informative and interesting for humanity. We will see how our so-called «unshakable reality» will begin to be rapidly turned upside down before our very eyes. Already the world does not seem as solid and unbreakable as it once did. And very soon we will all be witnesses and direct participants in a worldwide spectacle of Chaos and Confusion. The foundations of all our cultural, religious, philosophical, and scientific Paradigms, which have served us so far invariably as an image of the «real» World, in a matter of years, will crack and begin to crumble before our very eyes.

The reality of the New Age is within us, and main changes that we have to make must affect primarily our inner content, which, by freeing the Divine Light of our Souls from the millennia-old oppression of the Matter, will turn the mustiness and decay of our earthly cities into the unearthly glow of Beauty, which overflows the Cities of Light of the new, transfigured Earth.

Book 4. «The Teachers of the humanity report»

Yalta, 1998

Pages:

Throughout all the history the humanity has been narrowing its perception of the Worlds from multidimensional, which includes all the subtle-material Spheres of the Astral, to three-dimensional, rough-material Level, thus not only limiting itself in the better understanding of the world around, but also completely destroying the possibility of free contact with the Consciousnesses of hundreds of thousands of other space civilizations, who actively create and work in the Cosmos.

Representatives of many of these Intelligent Civilizations have practically never left our planet, while other Higher Entities have been incarnated among people only for several millennia.

They have voluntarily shared and continue to share with us all the burdens of earthly incarnations and the very heavy human Karma, only to help with their Knowledge of the Truth and their personal experience, so that the people of Earth could more rapidly climb the steep steps of the Evolution Stairs.

Book 5. «Extraterrestrials»

Yalta, 1998

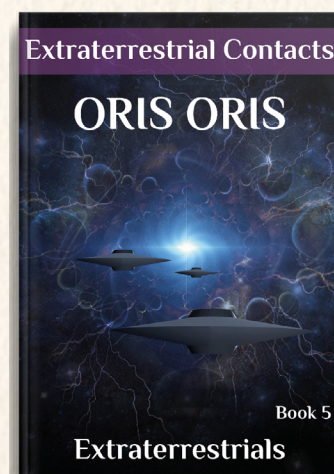

Pages:

They, the extraterrestrials, are working on our planet neither to conquer nor to enslave it, but with one single goal in mind: to slow down our rapid fall into the abyss of self-destruction, trying to bring to our Consciousnesses the moral, spiritual, social and scientific values accepted in the civilized Cosmos.

Those few people who are able to perceive their Word of Truth do everything possible, even impossible, to bring it to the half-asleep Consciousnesses of the rest of mankind.

Many «extraterrestrials» from Pleiades, Sirius, Andromeda and other civilizations of the «Light Ring» have been living among us for thousands of years, voluntarily giving up being in the Worlds of higher dimensions, just so that we, people of Earth, did not remain completely cut off from the Source, from Which all of us have come out, and to illuminate with the Knowledge of Truth the Path of spiritual ascent for Consciousnesses who no longer wish to

abide in the sleep of illusion and the darkness of ignorance. The Books of Oris are an example of this Service.

Book 6. «On the eve of Armageddon»

Yalta, August 1998

Pages:

This book, in its uniqueness and value of the information it contains, is on par with the other Oris's books, continuing the subject of Contacts with Representatives of Worlds of Higher Levels of Existence.

Does The Christ Himself communicate with many people on the eve of the so-called «Last Judgment» transmitting specific recommendations? Has the Mother of God appeared to many to show them the way to salvation through Her Word in these terrible days of the approaching disasters and cataclysms? You just stop for a minute and delve into the rank of Those Who appeal to you – the Christ and the Queen of Heaven!

To ignore this information would be to close one's eyes, on the edge of the precipice, at the risk of being crushed to death. Is that what you want? Then read carefully, absorb and, opening the eyes of your Heart, draw your own conclusions.

CONTENTS:

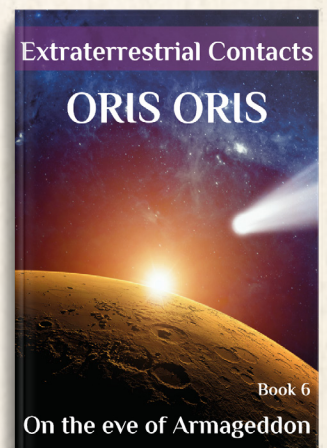

On the Eve of Armageddon

Second Message of Christ, Lord Maitreya

Commandments of Christ

The Word of the Queen of Heaven to the Adam's family

Oris's answers to the questions of the Swiss group of Star-Born

Book 7. «The beginning of Armageddon»

Yalta, September 1998

Pages:

The beginning of the Age of Aquarius. Nostradamus wrote: «I see a reborn and renewed Christ coming. And then there will come a long peace, unity and harmony among the generations of several races».

The process of division of people depending on the quality of their Consciousness has already begun rapidly around the world. It will soon lead to the final separation of mankind not by national, religious or party affiliation, but by the quality of their spiritual vibrations. People had more than enough time to change their lives for the better. But now there is no time even for a reflection.

Very soon there will be the first cataclysm of an unprecedented force, which will not only change the circumference of the Earth, but will also shift its magnetic poles. The Earth's axis, which is already in an unbalanced state, will change

and all this will cause continuous, endless cataclysms. Earthquakes and floods will become a common thing, and long and extensive fires will engulf the entire planet.

Today we are no longer «slipping into the abyss» or «standing on its edge», as economists and politicians reassure us; we are already flying into the abyss with great acceleration, and no one gave us wings to wave and soar upward to avoid death, or rather, God in fact did, but we have all forgotten about them.

Holy Mother of God, save us! - This is what the prayer to the Blessed Virgin asks for. But the same people disbelieve and slander, avoid and remain indifferent when the Living Virgin herself speaks to them and tells them about the ways of their salvation. «Hypocrites», says the Queen of Heaven to them, «get to know what Heaven looks like, and why do you not know the signs of the times? Prepare yourselves, people, as truly the day and hour of the Judgment of this world has already come».

In August Our Lady transmitted the first part of Her «WORD» through Oris, and on January 13 and 19, 1999, through the same channel She transmitted the next two parts and commanded to compose from Her «Word» a supranational «Gospel of Transfiguration», which was published as a separate book «The Gospel of Transfiguration by the Mother of God» (see below).

Yalta, 2000

Pages:

Functionally, the Argllaamuni-center (Muladhara) is closely connected with the psychological abilities of the physical body, which provide survival of the physical body and protection of a person from unfavorable external influences. A big role in the activation of the whole immune system belongs to this lower center. Its normal functioning gives a sense of physical health, well-being, self-confidence and stability.

Imbalance and all kinds of muladhara «breakdowns» in the Aura, lead to the constant outflow of these energies and can cause a feel of insecurity, deep depression, lack of willpower, a sharp decline and energy loss, increased soreness in the lower and middle parts of the body, despondency and melancholy. This is particularly typical for those, who have not yet opened the karmic channels of the heart center or if karmic channels of the heart center are very weakly activated, which in order to switch the person to completely higher, spiritual levels of feeling and thinking. In such cases a person loses the purpose of his Life, as if he loses his roots and, purely intuitively, following the consciousnesses of the organs and body systems, completely surrenders himself to the satisfaction of his own lower desires in order to replenish the energies of the Argllaamuni center.

«Svadhithana chakra (Inglimilissa-lissiidi)»

Yalta, 2000

Pages:

The weaknesses of our sex education have led to the fact that most people, even if they feel a deep sensual attraction, instead of beginning a heartfelt spiritual exploration of each other in the process of intimate interaction and accumulation of sexual energy, instead, close their heart centers and turn the unique opportunity of highly sensual admiration into a trivial sexual act.

Unfortunately, the creators of the lower-astral and dense-material types of Reality benefit greatly from the fact that the prevailing majority of people completely incorrectly and perversely understand the very essence of SEXUAL INTERACTION. Sexual interaction in fact is a spiritual intimate process which, if properly understood, contributes to a stronger contact between a person and his inner Essence and contributes to a more highly-sensual and deeply soulful manifestation of the person.

Love is the real Symbol of the Age of Transfiguration that is coming on Earth! And the mysterious «sacred key» to the Gate of Spiritual Transformation is not somewhere in the cosmic infinity and unfathomable unknown, beyond our psychic capabilities, but in fact is located quite «nearby», or rather, in our own heart center AIGLILLIA, which is filled with the highest vibrations of Love literally towards every manifested aspect of the Life around us, including the strongest of all – the sexual one.

Book series «ISSIIDL»

This series of books, from the first to the last pages, includes the most unique in meaning and the most important information, accepted by Oris after the year 2000 during his next direct Contacts with the Creators of Humanity: Algellis (Argllaamuni and Inglmilissa iissiidi centers), lillgmmii-I, (Aigllilliaa and Orlaaktor iissiidi) Lua-Andis (Ulgluu and Ssaassfati iissiidi), Greyli-Vin (Olgoolloni and Aani lissiidi), Slliargsmiii (Raaklima and Uluuguma lissiidi), Sslaaiingsa (Svaagali and Eyyaaa lissiidi) and Ssniillgsa. These Cosmic Entities represent personal Interpretations of Oris at the levels of the collective Subconsciousness, Supraconsciousness, Ultraconsciousness, Superconsciousness, Hyperconsciousness, Proconsciousness and Protoconsciousness. The detailed Knowledge of such a high Buddhist level, for many evolutionary reasons, has never before was accessible to humans or even the spiritual Initiates of the 3-4 Planetary Initiations.

Only because of the spiritual transformations which have intensively begun on Earth and because of the preparation of the collective Consciousness of mankind for the act of Transfiguration this Knowledge is now being transmitted to those of earthmen who are ALREADY spiritually mature for its proper understanding and comprehension and who are eager to use it to continue their further Path of mastering and accumulating the entire experience of incarnated earthly existence as swiftly and as effectively as possible.

In none of the astral or written sources on our planet there is even a mention or a distant analogy of this Teaching, because the degree of admission to it requires from the spiritual seeker an active self-discovery and prolonged experience of conscious existence at the causal-buddhich level, as well as an experience of being outside the physical shell for long time.

Oris deliberately integrated all the Knowledge he received - the «Teaching about chakram personalities» - only onto the highest ajna-vishuddha levels of the collective Consciousness of the planet, because further adaptation of these highly spiritual codes to the generally accessible understanding would lead to a significant decrease in their degree of authenticity. Therefore this information can be productively assimilated only by people with actively developed over diaphragmatic psychic centers. For them and ONLY FOR THEM the Spiritual Teachers from Pleiades transmit this newest spiritual Teaching.

«The Great Message»

In 2006 two volumes of Oris's books were published, reflecting the results of his further Contacts with the Teachers of Humanity, which represent the highest personal Interpretations of his Ultraconsciousness and Superconsciousness, under the general title «The Great Message». Its contents marked the beginning of the creative stage of work with information of a principally new, more qualitative level.

As a result of numerous answers to reader's questions on the materials of these volumes a new series of books «Immortality is accessible to everyone» was published as part of the Issiidiological Knowledge - the newest spiritual-cosmological conceptions about the Universe and the human being.

These songs tune to a positive perception of life circumstances, an altruistic way of life and unconditional love for everything, as well as a deep understanding of the fact that everything that happens to a person as a good thing.

IISSIIDIOLOGY terminology has its own individual specificity of spelling.

Also, each of the terms includes a much deeper meaning than might seem at first glance, because it is rooted in more qualitative levels of this Knowledge, which, without sufficiently developed extrasensory abilities, is not yet available for access to the current creative dynamics of the Self-Consciousness of an average person.

This publication contains only short vocabulary articles to facilitate the process of understanding the material, at least at the most elementary level. More detailed information on each of the terms can be found in other lissidiology books.

Some terms are very difficult to describe and have absolutely no analogues in the habitual human associative perception, so it is an extremely difficult task for the Author to formulate a dictionary article within the limits of an ordinary person's comprehension.

«Energy and biological mechanisms of refocusing of Self-Consciousness»

Moscow, 2010

Pages: 691

In the first Chapter of Volume, Oris describes in detail functioning of Formo-Creators of the brain, how the memory is accessed, how biological structures of the brain are associated with energy-informational structures of Self-Consciousness, how various Self-Consciousness Levels are differentiated and reprojected at the moment of so-called «Death». This Chapter also describes functioning of «the intestinal brain», how it becomes possible to cure at a distance (the technique of ethereal projection), gives the meaning of the esoteric term the «Astral Plane» from the point of view of lissidiology.

The second Chapter tells us that biological Forms can exist in different Continuums and explains the interrelationship between our lifespan and quality of active Levels of our Self-Consciousness. It also provides information on the following subjects: it is possible to «live one's Life many times» in higher-quality scenarios, cycles of changing male and female manifestations within the structure of a multi-dimensional human Form, physical principles of organization of higher-frequency levels of the Universal Reality with a detailed description of the nature of boson and fermion fields, and types of particles that are carriers of such interaction.

Volume 12 is devoted to the diversity of the Self-consciousness manifestation forms in the infinite variety of the Form-Systems of the Worlds. Tell me, what do you know about the universal properties of Space and Time? About the illusory nature of our existence? About the Essence of «development» of each «personality»? It's not easy to answer any of these age-old questions.

But Oris, with all possible detail and thoroughly, goes on to answer not only these, but many other equally urgent and vital questions that trouble us and compel every seeker to learn, to give up something, and to gain something...

CONTENTS:

- SECTION IX. Possibilities of extending Life through another Form
- SECTION X. UU-VVU and Stereo-Types of LLUU-VVU-Forms

Moscow, 2011

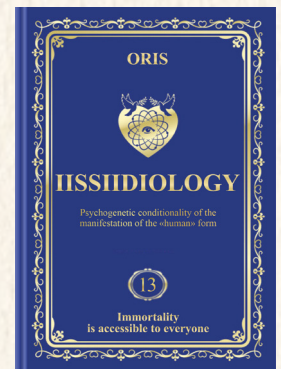

Pages: 700

In the 13th volume of the commentaries, Oris answers the vital questions of mental and physical health, medicine, psychology, psychiatry, genetics, somnology, pharmacology, and reveals the psychogenetic features of the manifestation of the «human» Form.

Our biological Existence is a continuous process - when we feel, think and experience something, we immediately become part of those groups of the Worlds, Realities and Continuums whose synthetic dynamics correspond exactly to the quality of these infinite processes.

Moscow, 2012

Pages: 648

«The Conscious Path to the Human Worlds of «personal» Immortality» - this is the name of the new volume from ORIS book cycle «Immortality is accessible to everyone». At first glance, this may seem like an invitation to a philosophical contemplation. But by appealing to his devoted readers, the author hopes for the consideration and perception of this issue in a broader or, if you like, deeper understanding. Philosophical concepts offer to us only sensory-contemplative,

mostly associative images regarding a particular issue. The author, however, presents in this work, as a logical continuation of previous volumes, a detailed consideration of the practical prospects for the development of a personality into a true Human, who explores his own spirituality.

In addition to the mechanisms of working with own Self-Consciousness, which will lead people as Humans to «personal» conscious Immortality, ORIS describes the «Worlds of our Future», the prospects for the manifestation of the coming times. And in order for everyone to develop an understanding of their own Path, a comprehension of the choice of their spiritual development, the author not only describes «bright» prospects, but also specifies in detail the obstacles that each of us may face and, by not noticing or not determining the nature of which, to unconsciously, under the influence of particular reasons, deviate from the development in the Human direction.

With the help of this book, you will be able to determine the qualities that are truly inherent in people, and you can finally figure out how to form in yourself these qualities that are truly Human - with a capital letter. Having experienced what a highly sensual Intellect is, you will then understand why only with the help of highly intellectual Altruism you can find the Path to the cherished Goal of your spiritual future!

CONTENTS:

- SECTION XIX. Obstacles on the path of realization of «individual» Immortality
- SECTION XX. The Specific States of uoldmiism (high-sensual Intellect) and stollmiism (High-Intellectual Altruism) synthesized in the Human (lluuvvumic) development Direction
- SECTION XXI. Specificities of lluuvvumic transformation of human features
- SECTION XXII. Our «future» Worlds. Perspectives of the approaching times

Volume 1. lissidiology Fundamentals.

«Interaction of Information and Energy as the Primary Cause for origination of the Creative Activity of Self-Consciousness Focus and the Macrocosmos in whole»

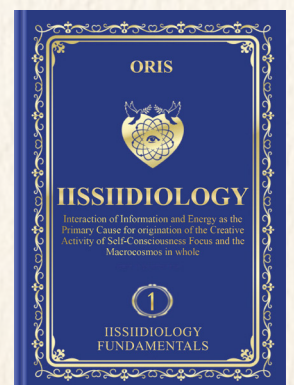

Moscow 2013

Pages: 312

This book presents the beginning of an overall 20-volume information series titled «The Great Message», which consists of «LIS-SIIDIOLOGY. Fundamentals», «Commentaries to Fundamentals» and author's Song lyrics with a highly-spiritual content written to popular and all-loved melodies.

From the very beginning, the author pinpoints the reader's atten-

tion upon fundamental notions of IISSIIDIOLOGY starting from basic, axiomatic Conceptions. The book contains the newest interpretation of formation of the outer reality based on the Self-Consciousness's Focus Dynamics as the main functional mechanism of the Macrocosmos's Creative Activity. A detailed comparison of the author's hypotheses with existing scientific conceptions allows to draw parallels with the current worldviews about nature, space, time, energy and to find the ways for their radical transformation and potential development.

In this volume, the author introduces the conceptual foundation necessary for an adequate understanding of all other IISSIIDIOLOGY books of this series. Hierarchy of Self-Consciousness Levels, dimensional differentiation of manifestation Forms, classification of elementary (and other) particles as structural components of the Universal Plasmic-Differentiation Emission, information theory of the formation of Energy in the Macrocosmos are described in order to form necessary notions that will serve as the basis for further more complex iissiidiological Categories: Universal Cosmic Laws and their Principles, Diapasons of Plasmic Forces, Evolutional and Involutional Branches of development, and many others. The first volume of Fundamentals is the required minimum for any reader who wants to thoroughly study iissiidiological conceptions.

«Cosmic Qualities as the Basis for energy-informational manifestation of all the Form-systems of Macrocosmos»

Moscow, 2013

Pages: 662

Many scientists may consider this volume of «Fundamentals of IISSIIDIOLOGY», as well as all the other books of this twenty-volume series titled «The Great Message», no more than «science fiction» — each of us has the right to believe in what is the most convincing. However, every intelligent person who possesses at least

the rudiments of cognitive intuition can discover in this information those more Qualitative characteristics of the objective truth, thanks to which continuous eglleroliftive Amplification of all Self-Consciousnesses Forms is carried out.

Catastrophism periodically appearing in the process of human self-cognition is always accompanied by the radical breaking of many old Conceptions, which by its radicalism surpasses greatly all theoretical forecasts. Fanatical belief in dogmas and postulates established once, as well as the clear tendency for idolatry — these are obvious characteristics of degradation and regression that converge modern academic science with paganish religion. Yet, the eglleroliftive Amplification process and harmonious evolution both of a separate personality and human population in general is impossible without breaking down old stereotypes and establishing — on the basis of deep cognition of Wisdom of previous and future generations — much more universal conceptions about ourselves and our surrounding reality.

This uneasy, but grandiose on its depth and scale Task of prompt and Qualitative transformation of human community is assigned by the Evolution Itself to the universal knowledge of IISSIIDIOLOGY, absolutely new to people, which is received for the first time and entirely by one person only by means of the intuitive way of cognition. We offer you to find out more about its newest fundamental Conceptions in the second volume.

Besides, the IISSIIDIOLOGY offers to Collective Consciousness of humankind a totally new paradigm that gives new and fresh view of the multitude of clinical phenomena studied by psychotherapists. It gives a theoretical model for understanding the changes in the mentality of a patient and the hope on clarifying mechanisms of effectiveness of psychotherapeutic method.

Moscow, 2014

Pages: 780

The third volume of «ISSIIDIOLGY Fundamentals» allows readers to go deeper into yet completely unexplored by us structures that provide functioning of human Self-Consciousness and its interconnections with Self-Consciousnesses Forms focused by it. First two volumes of «ISSIIDIOLGY Fundamentals» thoroughly describe the deep Nature of Causes and Mechanisms of Creative Activity of everything manifested in multidimensional and different-Qualitative Macrocosmos, including also qualitative Basis of Focus Dynamics of Form-Creators of Universal Structures. The third volume in its turn focuses on the detailed description of basic Principles of exiberation of Human and other Self-Consciousnesses Forms in all the diversity of different-dimensional diapasons of the Tertiary Illusion.

To allow the reader to fully comprehend the essence of the notion «Self-Consciousness Form,» the author describes realization functions of these structures at the example of subjective formation — as a result of life creativity of every personality — of so called personalistic Worlds, which goes far beyond existing scientific notions about the surrounding reality and peculiarities of interaction between Forms structuring it, whether it is a human, a planet, or an elementary particle. Furthermore, he describes different-dimensional variety of Forms of Iluuvvumic Direction of development and characteristics of focal realization of Humankind Collective Cosmic Intelligence as a unified the LLUU-VVU-Entity.

This new volume of the series «lissidiology Fundamentals» is a reasonable consequence of consideration of biological mixtum NUU-VVU-Form-Types that was started in the previous volume. For our deeper understanding, it draws our attention even more at iissidiological approach to the matters, which are related discretely by contemporary scientific community to philosophic anthropology in general and to behavior theories of personality in particular.

At more objective, transcendent, gabitual (primordial, objectively deep) discussion, it becomes clear that the given material leads a reader maximally to objectivization of own conceptions about relations among personalized, unconscious, and subconscious levels of Self-Consciousness at the background of developing invizusal (imperceptible by our sensor systems and measuring devices) mechanisms of anatomy and brain neurophysiology, accompanied by dominant dynamics of

the first IISSIID-Centers pair.
