

The background of the cover is a vibrant, multi-colored nebula in shades of blue, purple, green, and orange. In the center, a dark planet with a reddish-orange horizon is visible. Below the planet, a bright star system with a lens flare effect is positioned, with two beams of light extending downwards to a glowing, circular object on the ground. The overall scene is set against a dark, starry sky.

The crew of the Starship  
Sirius-A reports

In today's world there is a lot of information about UFOs, meetings of individuals and even whole governments with aliens, as well as materials of telepathic Contacts with representatives of various extraterrestrial civilizations, etc. Unfortunately, passing through different dimensions to us, in our three-dimensional world, this information is often subject to very strong distortions and is very often misunderstood by us, due to the specifics of our three-dimensional way of thinking.

The materials of the Contacts of Oris with the commanders and crews of the Sirius-A and Sirius-B starships, which we are offering to you, are unique in that they were received literally "at first hand" and contain very valuable information, useful for all humanity, living on the eve of the Transformation of the Earth. The Pleiadians and Siriusians, who are the true spiritual Teachers of mankind, are happy to share their knowledge with us, without which we, the earthlings, would not be able in the very short time remaining before the Transformation (a mere 15 years!) to come out of the millennia-long hibernation on our own and break through the impermeable thickness of the collective consciousness into the right number of timeless passages necessary for the so called paradigm shift.

Once this shift reaches a certain level, the fabric of the reality around us will become transparent and what has until recently been invisible to us and as if non-existent, will become real. This will be the beginning of a mass awakening of Earth Consciousness for the subsequent Transformation of most of humanity as Intelligent God-like Entities.

# ALBELLIC'S THIRD MESSAGE – THE CREW COMMANDER OF THE STARSHIP «B101001 SIRIUS-A»

*(TP-contact dated 19.01.1998)*

Our entire crew and I welcome you Brother Oris! We are now in the thirteenth overtone of Venus' orbit and are communicating with the very hospitable inhabitants of this wonderful planet whose civilization is the most highly organized within your stellar circle. Now we have a time of rest and I take advantage of it to talk to you. After all, what you are doing is one of the important episodes of our common work on the realization of the Plan of Preparation of the Earth People's Collective Consciousness for Transition to a Qualitatively New Level of Existence and Evolutionary Development.

We are carefully monitoring the dynamics of reports in your press in all parts of the world regarding true and suspected human contact with what you call "Extraterrestrial Intelligence". This is not very difficult for us, because specialized biorobots do it. So, almost daily we are faced with reports that somewhere some credible space flying objects with credible passengers appear in different points of the Earth.

We would like to warn you that other preconditions for such phenomena also exist, namely according to the development of energy spectra of different layers of your planet, different parallel civilizations which are developing on your planet, it often happens that not they manifest with you but you manifest with them unexpectedly. This variant is quite possible, taking into consideration the existence of certain hyperspace tunnels and temporary passages between parallel civilizations and worlds, and you will very soon become convinced of the reality of this statement from your own experience.

As well as that your military, since the beginning of this century having close contacts with representatives of technocratic Martian civilization, actively uses these space-time points of intersection of temporal circles of Earth and your civilization for extensive, though sometimes very questionable in their nature, investigations.

Through other TP-communication channels actively operating in other parts of the planet, we have repeatedly informed people about the existence on Earth of a worldwide secret organization, consisting of more than 2.500 members of the richest families of your society, which has long been using for their selfish purposes information about super-technology, received from the Martians in exchange for the right to use your planet as a laboratory for their large-scale research.

This organization, which we have called conditionally the “secret world government” in our previous reports (as we have no right to interfere with your internal problems), has long possessed flying machines which can cruise freely between the Earth, the Moon, and Mars. In the seventies, NASA specialists have created entire underground colonies with self-contained life-support systems for urgent relocation there of the elite members of this secret organization, should the Earth be threatened by an earthly danger.

In the late eighties nearly all the works of the so-called Montauk Project on the establishment of a Martian base by the Earthmen were practically entirely finished, but to the deep disappointment of their future inhabitants, it became known that in case your Sun transforms into a red pulsar, the existence of Consciousness as a protein-thought system, which – in principle – you humans are, will be simply impossible on any planet of your ring. On top of that, it has been discovered that Mars is subject to the same changes in its axis shift as Earth, and so it will face the same problems as your planet in the near future.

We remind you of this information, not only because your military has done everything to disprove the existence of the so-called “Project Phoenix”, but also so that you would reduce your fervour around your inflated “UFO problem”. We were here when you, as primitive people, were warming yourselves in your caves by bonfires and have never disappeared, though you tried not to make your presence known for the sake of purity of the experiment. What you usually perceive as a UFO does not actually exist, although visually it may be perceived by your eyes as a real object.

We try to penetrate your Physical plane as little as possible, so we send you holograms of explorer ships or phantoms. You are not yet sufficiently trained to distinguish a phantom from a real object. By concentration of thought some phantoms, in your usual understanding, may look like quite normal material objects, – both by their behavior and by the way they feel – and therefore be perceived by your senses as real physical objects. But it may be the other way round: many real physical objects, which have different absorbing and emitting energy spectra than you do, are often perceived by you as ghost phantoms, because you have no other interpretation or explanation for them.

Your assessment or concept of Space and Time is wrong. There is no Space and Time separately, they are not separate realities and are in fact part of the same dimension – Space-Time. You have already written in your books that Time can probably be attributed to one of the forms of existence of Matter, because it, depending on Time, takes its various forms. Time is a huge energy-information flow comprising many Universes that has the form of a volumetric multidimensional sine wave, closed and cylindrical in its cross-section.

Comparison of this time stream with a “corkscrew snail” seems to me the closest in meaning. The beginning and the end of the “snail”, though indirectly, are

connected: being next to each other, they form another gigantic “snail”, which with its cone goes downward. The whole Space surrounding us, with planets, stars, galaxies and universes saturating it, “moves” in this River of Time, as if “moving apart” temporal “waves” twisted into specific for each object spiral temporal “channels” or “fields of Time”.

Each such ‘wave’ is also ‘corkscrewed’ and if you could look from the surface of your Earth into your ‘future’ you would see your ‘wave’ as a homogeneously dispersed energy-information tunnel, self-moving and counter-clockwise swirling inside itself. Not only does every star and planet have its own channel, but every historical epoch, as well as every conscious individual, has its own energy-information footprint in this free-flowing spiral.

Our Universe completes each of its turns in its Time “channel” or “field” (from a given point – to the point of its superior projection) in about 2.500.000.000 Earth years. But this figure is different for each Universe, because all of them move in their field of Time not in a straight line, and can be situated both closer to the centre and closer to the edges of the given time tunnel.

The diameter of the “cross section” of our Universe’s time field (at the present moment of the Time) is 28 parsecs, but if we move along the spiral of the time field 5 billion years into the “future”, this figure will already be 26 parsecs, and in another 5 billion years – 32 parsecs. The 28 parsec diameter is the size of the main channel, not including the size of the edges. At the edges, including borders, the speed of Time flow slows down very strongly, almost three times in comparison with the centre, and this means a reduction of density of the “river of Time” at the periphery of the field of Time.

Your solar system is not closer to the centre but to the periphery of the Universe’s time field and it spirals its time field in about 84 million years, travelling a distance of about 30 parsecs. The whole length of the spiral of the field of time of your system is equal to more than 75.000.000.000 years, and only one third of this way is traversed. The spiral of each of individual fields of Time of each of objects of the Universe untwists, correlating with the fourth factor of time, turning into a spiral on which all matter of Space of the Universe and all, being in it, substances move.

Inside the central Time field of the Universe, there are three main or central temporal axes and an infinite number of lateral energy axes, which change their locations in accordance with the coils of the intermediate Time fields or when they are looped. We are able to loop Time as we wish. As noted, Time is in the form of a double-sided cochlea. The coefficients of energy and information quality increase with each turn of the spiral of Time field. On the last turn of the Time field a cyclic spiral chain is formed and the countdown of a new “Zero-Time” begins”.

The major temporal axes cannot be changed, but it is possible to move objec-

tively along these axes. The energy or temporal axes are the supports for matter, energy and information, which ensure the existence of materially existing energy-time formations having a definite form in Space. The presence around the time axes, at certain intervals, of secondary formations, defines the concept of “time factor”. Time and Energy are very strongly related, but their ratio is not equal. Roughly speaking, the bearing part of time axis is energy substance and is equal to only 3-5% of volume, while 95-97% is time substance.

Stars release Energy by recycling Time. The so-called “expanding Universe” theory is also very popular among your scientists. In part, this information can be taken as a basis. “Expanding” Universe is a consequence of substance expansion in the “cochlea of Time”, because as one moves along the “cochlea” the arm expands and the time axes of the Time fields diverge. That is to say, what you think of as the “expansion of the Universe” is merely the expansion of matter in the “Snail” arm of Time.

The driving force of this process is: firstly, the kinetic energy of the explosion (for your planet Time begins only after the so-called “Big Bang”) and, secondly, the interaction of temporal factors of our Universe, the arm of the Time field of which is expanding outwards by a funnel, with temporal factors of other Universes flowing back on its sides. Differences between temporal factors consist first of all in peculiarities of their geometry, in quality of vortex phenomena on their boundaries, and also in their energetic and informational saturation.

Time is unidirectional: as electric current, obeying the law, runs in one direction, so Time “runs” from one pole to another. Therefore it is quite logical, taking into account the fact of existence of the “river of Time” in our Universe, that there are “rivers of Time” moving in the opposite direction with respect to us, i.e. it turns out that for objects of our Universe **THAT EQUALLY OTHER TIME** does not exist at all, though for objects located in the time fields of other Universes it is quite real. We want to say that in this Space the laws of both Time and Energy operate unambiguously, but objectively there are, as a dominant link, also the laws of Anti-Matter which characterize this formation.

If we look at the transverse energy “slice” of the Time field of our Universe at the present moment, we can see that temporal axes closer to the centre pass with rather high density, while closer to the periphery there is a tendency for them to thin out. In addition, in this “slice”, one would find free niches or Void Arms formed by temporal substance. It is along these “empty channels” that the motion of Galaxies and various clusters of stellar matter occurs.

Throughout its length these axes at first diverge, forming a peculiar inflection whose Time is at the level of connection of the opening “snail” with the zero point of contact, and then, closer to the end, there is a compaction of axes, densification of energies and convergence of both spatial and temporal distances. All this also applies to billions of galaxies making up each Universe, which

causes all variety of their forms, structures, properties and which in its turn depends on elementary composition of these energy-information formations.

Some Galaxies are fog-shaped, crab-shaped, spiral-shaped, etc. which is determined, roughly speaking, first of all by their composition: heavier formations are gradually sifting to the centre of the common temporal channel and are **ALSO** slightly behind the “lighter” Galaxies in their speed of evolutionary spiral movement. Besides, each galaxy in its individual, “serpentine” in shape, ascending time stream has to overcome the helical movement of time individual stream of the whole Universe while maintaining the structure of the Universe time field turns.

Time is completely misunderstood by people in conjunction with notions of three-dimensional reality: you are absolutely certain that Time is measured in years, days, hours, minutes and seconds. But this phenomenon has a much wider range of manifestation in your reality than you realize. Space and Time are most closely interrelated and while Space represents as it were the “outer” part of Matter, the substance Time – as a hologram of the past – is its “inner” part, the plasma of Matter’s constituent ingredients.

In fact, Time encodes information and plays with it, allowing you to simultaneously enter different realities, stretching, distorting, bending, compacting and twisting the substance of Time around you. You can enter the elliptical curve of Time and perceive multiple realities by simply moving along the ellipse and discovering that neither Time nor reality is anything “solid” and constant. Any change in the organization of Space entails a change in the density of the substance of Time. In turn, this change is instantly transmitted to any distance in Space, changing the organization (entropy) of all media encountered in the path of the Time density wave.

Deformation of Time is also possible when the adaptive block of perception and information processing is affected by a certain spectrum of energy radiations, and also when the sweep in Time for perception is increased due to the need of superposition of energy information which requires a certain period of time of perception.

The release of energy causes a change in entropy, which increases the density of Time and discharges the structure of Space, which goes to its ‘zero’ state in relation to your World. Thus an object instantly disappears from the Physical plane and travels to any selected point in Space-Time. Using a chain of Entropy – Time – Space transformations, we almost instantly eliminate all distances.

The time fields of all people are subject to the same laws of development, but each of them develops individually and has its own physical characteristics. There are no visible boundaries between the time fields of different people: the time field of one person blends with the time field of another person during contacts. The interdependence and mutual influence of this “blending” is clearly

seen in the further development of each Time field, i.e. each Life of any person (or person – with an animal).

Collision, blending and interpenetration of the time fields of different people not only influence the development of each person's Time field, but are also the causes of changes in some physical characteristics of each Time field and influence future contact, collision and blending of the time fields of these and other people, which may be manifested through acquaintance and communication, liking and antipathy, help or enmity between them.

Due to all these properties of Space-Time, many life experiences can take place simultaneously, each in its own separate dimension, and with the help of many of your Life-experiences something resembling a sequence or as you call it 'reincarnation' is created. But this is not exactly what you mean by the word. Although you think of **THIS** as your "past" Life, **THIS** is still happening now.

This concept is closer to what the so-called "**KARMA**" is actually, a spillover of "past", "present" and "future" in sequence. Your "future" also **ALREADY** exists "now", so you are influenced not only by the "past", but also by what lies ahead, in the next rising circles of your Time field, i.e. in your "future".

The history of mankind is constantly changing, being rewritten or modified because you have the ability to influence your "past", the past circles of your Time Field through your re-awareness: you "grow older", "grow up" and re-evaluate your "past". The "past" as a purely physical phenomenon remains unchanged but with the growth of your Consciousness it is perceived differently each time. On some levels of your Time Field there are aspects of yourself which cannot develop by themselves and therefore you have to "pull" them forward by acting on them intuitively or subconsciously.

How can one explain the existence of the "past" at the same time as the "present"? Very simply, if you consider that everything that happens is just a recycling of Matter. For example, sometimes a person is haunted by the feeling that he has heard or seen or been in **THIS** situation before. Or, say, one dreams about events taking place in distant historical epochs. Or one feels oneself a certain animal, or even a ray of light. One should always remember that **MATTER NEVER EXIST**, that some of its parts can be reproduced with newly-born people.

It turns out that some part of each person did live in the "past" and the rest in the "present". What I mean here is not only what you call "generational memory". Humanity itself in its totality is not only a physical community of individuals, but also a unified form of living Matter. Thus, for instance, the events of the present day which have already passed have not disappeared without leaving a trace but remain in the passed phase of the spirals of the Time Fields of mankind as well as of individuals, filling all sections of each of these spirals.

And if you could learn to go back in your spirals, you could draw great conclusions from the events of the past, in which you have participated, no matter how many centuries or millennia have passed since then. Remember, how you went back one by one on your coils, going deeper and deeper, gradually living through (in all the nuances of feelings and details) the closest of your past Lives-incarnations. Because **THIS EVENTS HAVE NEVER BEEN ENDED**, otherwise you just could not reproduce them in the Memory of your Spirit.

You have to take into account that not more than 5% of all information about the past history reaches humanity through material sources: annals, retellings, folklore, etc., And the rest part of the necessary and useful information goes to the second modern factor (Noosphere) and can either just stay there in its primordial form, as if vanishing without a trace, or be gradually “pulled out” by particular individuals capable of conscious or unconscious moving along the spirals of time fields backwards, in the “past”, or forwards, in the “future”.

With the completion of the Christ Consciousness level energy grid, more and more people on Earth will be included in the overall work of the spiritual realignment of human civilization at this level of the Time Field. Using temporal factors, people who have reached the level of Christ Consciousness will be able to easily and easily reach some of our intergalactic points of departure on their own, which are not subject to earthly laws.

Knowing the laws and properties of temporal perturbations we can travel through cosmic Space at enormous speeds several orders of magnitude higher than the speed of light propagation, while storing in our memory all data about any planet and without making star maps for that. In this connection your word “soul” is not quite correct either, or rather it does not reflect **WHAT** should be meant by this vast and rather complicated concept.

You have done well to elaborate on the characterization of this meaning category in one of your next books. By this concept – “**SOUL**” – we should mean first of all the “creative impulse” which, after entering the Physical Matter, divides into many parts (as you have already said, each impulse gives rise to 12 more “analogous Souls”, but it is still more correct to call them not “analogues”, but rather “aspects”, because none of them exactly repeat the others, and each creates for itself (and in itself) new variations of multiple creative impulses, etc. д.).

The constant and endless stages of your self-disclosure are the causes of the self-disclosure of other bio-minded systems. Your astral-physical entities, or as you call them, “personalities”, are merely compilations seeking to evolve or move towards some level, to a point of their self-creation or so-called “etheric realization”. I can’t explain it to you exactly, because there is no such concept in your language yet. Every physical person intuitively tries to move **THERE**, where they do not exist as a physical person, but as an etheric substance.

Your forthcoming earthly Transformation is only the first real step on the way thereto; it is not an unconscious fall into a ‘cosmic abyss’ but the progressive evolution of Consciousness naturally, in the presence of accelerating factors. You are now evolving with the help of the interrelated physical explorations which are taking place at the same time on the various levels of your Time field, but necessarily in the direction of progressing or exceeding (growing mass of the intelligent plasma of each protein-thought system in comparison with the previous point in its Evolution).

Etheric realization is a mechanism which, in principle, can be seen as a switching of the frequencies of existence of Consciousness. This process or transition – under certain psycho-physical conditions – can be accomplished by a self-aware Consciousness both during its stay in a dense body and after release from it. The main thing during realization of every such “etheric realization” is to avoid the falling back of the consciousness, i.e. not to sink down to lower circles of its time field. Otherwise, the hologram of the past in the memory of the Spirit will be repeated and this simply means repeating the experience of a past Life of one of the aspects of the Soul.

To understand **WHAT** I mean, you should clearly realize that there is a telepathic channel or a subtle connection between each of you and all those who you were before, in your past Lives, or rather with your parallel entities (both **REMOTE** incarnated and **NOW** incarnated). All of you: both so called ‘living’ and so called ‘dead’, constantly influence each other and are in constant unconscious contact (communication) with each other. You, who are still “alive”, feel the same things as they, who are already “dead”, but the forms and circumstances in which this “feeling” takes place are very different from one another, although the consequences of your experiences are also seemingly the same.

You and all your parallel beings are like a soldier’s column, crossing a certain Space: each of you separately is a separate soldier (personality), but being in this column unites you by one common Goal, one task and one direction of movement. Ahead of you come those who are more evolved and who are trying to influence the others, to involve also them, the less conscious ones, into the right direction of the common evolutionary movement of this civilization. In terms of your non-physical existence, you are all at the same stage.

For example, the hologram of the “now” (one of the individual self-developing Spirits) or the personality of Sergey Tsvelev sets the direction in moving towards an evolutionary overdrive for the hologram of the “past” (this Spirit) or the personality of Shota Rustaveli, who **ALWAYS WILL BE** in the Time Field of your civilization at the 11<sup>th</sup>-12<sup>th</sup> Century level, and which in turn positively influences the spiritual path of the Italian priest Giorgi Ionelli, who also **ALWAYS WILL BE** in the 4<sup>th</sup>-5<sup>th</sup> Century level, in turn, in the same way, positively influences the spiritual path of the Italian priest Giorgio Ionelli, who

**ALSO WILL BE** at the 4<sup>th</sup> or 5<sup>th</sup> century level of your civilization's Time Field, and who, in turn, also on a superconscious level, influences the evolutionary growth of Consciousness of the Israeli High Priest Nicodemus, who . . . Etc.

This may seem difficult to understand to some extent, but nevertheless, try to understand, for behind it lies the Truth. Through your own Evolution, through your own constant transcending, all of you humans are helping many other sentient (and non-sentient) beings on your planet to evolve as well. This is the way the 'Total Soul of Mankind' achieves a constant evolutionary excess in the upward spiral movement of its Time Field.

We have always taken care that in every period of earth's history, in every human society, there always exist (incarnate) individuals who are evolutionarily most advanced and who have retained the clearest memories of this entire total process. They are sort of the centres of Collective Consciousness around whose Knowledge others cluster, and they inform them of these invisible connections with the other levels of the Time Field of your civilization, just as you do.

So what does the future hold for each of you people of Earth? When a certain point of your Evolution comes, each of you will have to make a decision for yourself: to stay on this planet or not. To understand your 'future' better try to imagine a dandelion flower which has ripened into a fluffy ball, whose seeds, under gusts of wind, scatter to all parts of the world to continue its development in new places and under new conditions and give birth to many new Lives.

Very soon each human Soul, which has managed in its evolution steadily to exceed, will be like a huge silvery ball-shaped dandelion flower: all the Soul-Aspects which were here on the Earth closely interconnected, will scatter each of them separately and disperse in myriads of self-conscious Lives in different directions, in all directions of the Universe. You will not form your physical shells again as you do now, because you will no longer need them: you will remain in your superlight bodies and will be able to spread in the Space-Time instantly through the vibrations that the Power of Love forms in you.

I have already told you, Brother Oris, but I want to repeat it once again that each of you is a kind of space-time structure and occupies a definite zone in the Spaces of the Earth's biosphere. Each earthling has an individual field of Time with a built-in rhythm of its development. During any spatial movements you simultaneously move inside the field of Time and within the Space of Biosphere. Even while having dinner at a table or resting on a bed, each of you may change your spatial structure.

For example, while running a runner accelerates not only his speed of movement in Space, but is also able, in comparison with other ordinary people, to make the best use of moving himself as spatial structure from one point of

your planet's biosphere to another point there, using the smallest segment of his Time field for that. Some space civilizations are also capable of doing the same, moving their entire spatial structure at high speed in their time field and travelling in Space in the form of huge objects (space super-ships, as you understand them).

But it is also possible not to fly, not to increase the speed of its movement. Time can be freely manipulated – as you do – by leaving your spatial structure in place, or by changing the form of Being in partial self-disassembly of yourself as a biological-minded system, since your Myself does not occupy your space! When combined through the rotation of Space and Time, Space and Time become one. It is possible to move through the Time field within Space, i.e. being at any point in Space, move within the Time field.

It is possible to move in Space within the field of Time, i.e. to move from one point in the field of Time to another point in Space. It is possible to move both inside the Time field and inside the Space field at the same time. It is possible to move in whole its space-time structure at different tempo with changing of movement rhythm. In principle all qualitative components of your communications and mutual relations are really largely predetermined, but the qualitative level and the development of the direction of your mutual relations with people around you ultimately depends on yourselves, in accordance with your main right – the right of freedom of your choice.

You already talked about this in your next books when you gave the example of parents losing their child. Why do the parents suffer in the first place? Not only because their child is their creation, but also because an inner voice tells them that it is they who have committed the main crime: While bringing him up they have killed in him the feeling of self-preservation which is natural to every living being and, while developing in him the logic of Thought, they did not manage to develop in him the feeling of an independent intuitive evaluation of the sudden situation.

In this regard, let me remind you once again that there are no “accidents” in Life; everything in Life of each of you is interconnected and interdependent. Each “coincidence” has its own reason, its own development in the course of events, and its own consequence. Obeying the General Laws of Cosmos development every human being draws his personal line of incarnation – his destiny.

Without having a guaranteed possibility to constantly analyze cause-and-effect relations between present, past and future “accidents”, you should remember the main thing that distinguishes all “accidents” is their suddenness of their manifestation. Each “eventuality” is a suddenly manifested inevitability, and in each inevitability there is always assumed a different, but usually hidden to most people, way to the most favourable outcome for each person.

In the energy charge of the energy-information system of every man there

is a possibility to protect it during his earthly existence against a sudden manifestation of an ‘accident’ or, in other words, unavoidability – it is the ability to hear your inner voice (you call it ‘a presentiment’, ‘intuition’) and to trust it. Therefore, my answer to the question of whether it is possible to prevent, at least to a certain extent, an **EXTRAORDINARY** manifestation of ‘accidental inevitability’ is unambiguous: ‘Yes, of course. But in order to do so, one must sufficiently develop the qualities of supersensory perception in the fields of clairvoyance, clairaudience, clairsentience and clairvoyance.

Recollect, Brother Oris, at least the case of your friend who, according to your foresight, was to perish on a certain day (Friday, June 13) last year under pre-planned circumstances? Because he – following your advice – as if temporarily “dropped out” of the ordinary course of his Life, Thoughts and feelings, and was quite far away from the place of the **EVIDENTIAL** “accident”, his death did not happen. We, for our part, also controlled this situation from possible interference of destructive forces.

But one should not forget that karmic reasons that caused this ‘accident’ remained, and to redeem them you will need much more serious measures (mainly of spiritual nature) on the part of your friend than a simple running away or hiding. You, Brother Oris, were not prevented from interfering in the prevention of this particular inevitability only because your friend was willingly helping your books to come out, but now his orientation has changed and his Consciousness has become entangled in very destructive layers of Matter dominated by negative dynamisms. He is in great danger.

In order to avoid karmic inevitability, such as being killed according to the Law of Retribution, a person must drastically change the vibration quality of his existence, the vibration level of his Thoughts and the energy of his feelings which requires a drastic spiritual leap, and this usually forms the most difficult obstacle to avoid the inevitable. Try more actively to include your friend in the circle of your interests that are two overtones higher than the level of his Consciousness, and perhaps the inevitability in this particular case can be overcome.

By the way, you know, Brother Oris, this story has another very interesting and instructive consequence: at the place of the supposed murder – again, as a result of measures you took to keep your buddy alive – on the same day and at the same time another “accident” happened that resulted in great trauma to both of the hired killers. Why exactly there and exactly at that time? Let us explain: The total or partial collapse of the time-fields of individual squirrel-minded systems is often due to the fact that in that particular volume of Space-Time the prevailing vibrations were formed by the very powerful united Thought-Desire of the hired killers and their clients to destroy one of their kind, which is a most grievous violation of Law.

The energy charge of this Thoughtform was the magnet which attracted identical vibrations and determined the point of realization of the following “accident”: a truck was passing by whose driver was to have an accident – crashing into a road sign – only a few minutes later and a few hundred meters beyond the supposed place and time of the murder.

The destructive force of the powerful concentrated Thought of the assassins drastically changed the curve of the density of Space-Time and Time field of this driver and he drove straight into the bushes behind which the hired killers’ car was standing, severely injuring them and thereby extinguishing the source of origin of this powerful destructive dynamism. This example is further evidence of the grave danger of spreading destructive Thoughts and Feelings around, which from their very inception are primarily directed against the very source of such negative vibrations.

The same people, colliding on the coils of the Time fields with each other, each affect the movement and development of their Time fields differently. From the contact, collision and mixing of one person’s Time field with the other person’s Time field, the following changes in the characteristics of their development can occur:

- *slowing down the pace of development of the time field of any one of them;*
- *accelerating the pace of development of the Time field of one of them;*
- *a simultaneous change in the rate of development of both in one direction or another;*
- *synchronous movement in the development of the Time field of one and the other;*
- *the partial collapse of the Time field of one without any visible change in the movement and development of the Time field of the other;*
- *partial collapse of the Time field of one with visible changes in the movement and development of the Time field of the other;*
- *partial destruction of the Time field of both;*
- *partial destruction of the Time field of one at the expense of restoring the Time field of the other;*
- *the complete collapse of the Time Fields of both;*
- *partial restoration of the Time fields of one and the other;*
- *full restoration of the Time fields of both.*

In the same direction you should also develop your ideas about Thought Matter. Thought is as material as anything else – this is an axiom. If one cannot conceive of and experience Thought Matter it does not mean that it does

## About the author

During his creative life Oris has written about 100 books on spiritual-philosophical and esoteric topics, as well as on the mental and spiritual relationship between the human energy-structure and the energy-structure of the universe.

A large part of Oris's life is devoted to spiritual creativity through writing books on cosmological subjects. In them the author uncovers such matters, which no one has ever touched so deeply and in such detail before. As early as 1996 Oris managed to find his Spiritual Mission, which he is tirelessly pursuing to the present day.

Oris was born on 25 January 1954 in small Ukrainian village of Maryinka in the Donetsk region in the family of a miner and a nurse.

From an early age (at the age of three) Oris developed an intuitive gift for writing poetry. Oris read out his first poem «Zhen-shen» at the age of 3 to his mother, who wrote it down, because he couldn't write yet.

He also possessed medial abilities from an early age: he could spontaneously «see» dynamic pictures of events and episodes from other people's personal lives, the authenticity of which was often later proven.

As a preschooler, Oris would periodically warn the children of impending contingencies when they were up to some mischief, and at school he knew who would be called to the blackboard and warned his classmates about it. He also knew in advance which boys and girls would be sympathetic to one another and which not.

Oris's first poems, from the age of 6, were published in the Maryinsky district

newspaper. In addition, Oris was good at drawing: 14 portraits of Ukrainian and Russian writers, which he painted in the 3rd grade, decorated the walls of the school corridor.

In 1971, Oris graduated from the 10th grade, worked as an instructor of physical education in Maryinsky Raypotrebsoyuz, and in 1973 he entered the Faculty of Agronomy of the Crimean Agricultural Institute, graduating in 1978. After 4 years of professional activity on the South Coast of Crimea (Yalta), he became the director of sports and recreation base (village of Ponizovka), belonging to two Moscow research and production associations - «Measuring Equipment» and «Energy», serving the space industry. He resigned in 1990 to pursue his literary career.

As a teenager, Oris became very interested in martial arts: karate (Kyokushinkai), kung fu (dim mak - «the art of the poisonous hand», Wing Chun, Zui Quan), judo, sambo and others. Later, in 1975 he achieved a black belt in martial arts and in 1979 in Yalta at the Ministry of Internal Affairs he opened a martial arts section and hand-to-hand fighting.

From this period (1975), while still a student at the Institute, he worked for 15 years on writing several books series about martial arts. Three volume textbook on karate and Dim-Mak Art titled «Karate Way - from Student to Master» was colourfully designed and published in Moscow in 1992. During these years a separate book «Dim Mak - the art of poisonous hand» was published in Moscow. A second cycle consisting of more than 20 books under the general title «Initiation or the Path of a warrior» was written during this period, but it was not published in the USSR because the author had no higher physical education. For this reason in 1982 Oris entered Simferopol State University, but in the 4th year he left the University for family reasons (due to the birth of his son Yaroslav in 1983) and because of perestroika.

During his work on the book cycle 'Initiation or the Path of a Warrior', Oris (in a state of deep meditation) first inadvertently came into Contact with his Spiritual Teachers, after which he regularly received the information that formed the basis of the most unique book series 'Life between Live's and all the books subsequently written by him.

Then begins a more intense Spiritual Path for Oris, marked by a turning point in his life due to the urgent need arising in his Consciousness to find Himself and his Spiritual role in life.

He went as a hermit to a cave in 1996 from which he had no plans to return. There, in the cave, deep Spiritual revelations came to him, as well as information about his past (parallel) lives. Some of these inner experiences Oris described in poems, which have been published in a separate collection. On the basis of the contacts with his Spiritual Teachers during this period (after 40 days of taking only water), having learned his Purpose in life, he returns home with a renewed Self-consciousness, after which a new Spiritual phase begins in his life: within four years he writes more than 40 books, which are combined into several cycles with the following

titles: «Life Between Lives», «The Art of Dying» and «Extraterrestrial Contacts».

After 2000 he began to write texts to the melodies of Soviet hit songs, in which he expressed the whole quintessence of his spiritual conclusions and thoughts, emphasizing the role of Love, Kindness, Mercy and all Human qualities and feelings, which people so often forget in their everyday life.

Also after 4 consecutive Spiritual Initiations (from 1996 to 2000) Oris gets access to more true and authentic information about the structure of the Universe and the role of human in it, which he reveals in the book series called «lissiidi», «The Great Message», «Immortality is available to everyone» and «lissiidiology Fundamentals». These book series are written as the quality of information that Oris received becomes more and more complex because it comes from deeper and deeper levels of the collective Subconsciousness. These more profound and insightful conceptions form basis of his own Self-Consciousness and he begins to find answers to complex cosmological questions that until then were expected to remain unanswered for people for many decades to come.

A more detailed and complete list of all books written by Oris is set out below. They are presented in chronological order as books were written.

## A collection of poems «40 days of Hermitage»

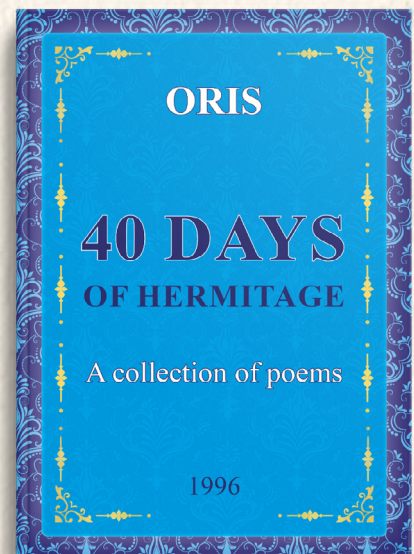

Yalta, 1996

Pages: 47

All poems in this book were written by Oris in 1996 in the Ai-Petri mountains, when he voluntarily took a vow of silence and lived for 40 days in a mountain forest, in a small space dug with a tin can between two rocks supporting each other, completely refusing food and any communication with people.

His inner reason for going to the mountains was the pressing, unyielding need in his Soul to try to cognize the Meaning of his present existence as deeply as possible and, if possible, to try to find the Essence of his own Spiritual Destination by conducting an inner dialog with his «Higher Self» and seeking opportunities to understand himself...

This book also contains an audio recording of these poems, which Oris recorded onto a tape recorder during this act of hermitage.

## Thought and Meditation

Yalta, 1997

Pages:

Thoughts, unlike objects, do not belong to you: they come from somewhere else all the time, stay and interact with your Consciousness for a while, and then imperceptibly disappear to somewhere. Your thinking is the process of continuously synthesizing in your reality newer and newer Forms from the already known to you mental and sensual experience. Therefore for you the thinking process represents the «beginning» and the «end» of absolutely all of your desires - from getting some material benefits to achieving «higher» (according to your concepts) spiritual goals.

By mastering the art of mental transformations, you will have an absolutely real means of consciously controlling the material conditions of your earthly existence. By improving in this direction, your mentality can reach the point where it becomes possible to control the powerful factors of the natural elements of Nature, influencing not only the weather, but also such destructive phenomena as tornadoes, tornadoes, earthquakes, tsunamis with the power of your Mind...

# Book series «Life between Lives»

*Yalta, 1997-1998*

What Oris writes about in this book series is the most detailed description ever written by human about the entire sequence of events undergone by the Consciousness of a dead person when he returns to his Heavenly Home, which has so many «abodes» that it is impossible for an ordinary person to even imagine.

Oris, using his many years of individual experience of astral travel, describes in detail the Astral and Mental realities he has explored, transforming the Incomprehensibly-Cognizable Existence into Knowledge that is comprehensible to almost every person, which leads readers to a gradual realization of the immutable Truth of their infinite Cosmic Existence.

## **Book 1. «Life without death» («The spirit of death»)**

And will you really exist after that? These are constant questions. But they have answers. The secret of life and death irresistibly draws man to the realization of what he has long known, but what has remained a mystery and unknown.

If you need answers to these eternal questions, if you can no longer live without understanding them, then this source of knowledge is for you.

## Book 2. «Soul and the Cosmos»

*Yalta, 1997*

 Pages:

 When confronted with the constant choice between Good and Evil, man is lost and does not always think about whom exactly with his every choice and action he serves: God or Satan? To help the reader to choose, the author tells in details about Egregors - astral entities, adapted to living in both as in positive so and in negative poles of Existense, which are mainly determined by the nature of Egregor itself.

 The author helps to understand all the subtleties of this topic, showing using examples the activity of «devil's Egregors», explains to what can lead the spiritual ignorance and thoughtless worship of material symbols, which all lower the human consciousness to the level of sorcerers, magicians and so-called non-humans.

How can we cleanse ourselves from the astral dirt of our own ignorance, which degrades our spiritual Essence and puts us on the same level as wild animals? How can we in Life take care of favorable conditions of our postmortem existence? This and much more is discussed by Oris in his second book «Soul and the Cosmos».

## Book 3. «Soul in other Worlds»

Yalta, 1997

Pages:

Always when people speak of «other cosmic thinking civilizations» they usually mean either the intelligent populations of other planets, the so-called «brothers in mind» or something very abstract and vague. But for some reason no one ever thought that these very «thinking civilizations» could be OURSELF, but only OURSELF located at other levels of OUR development, in other conditions of Existence, in the past or future space-time structure, in other circles of OUR human civilization's time field.

All so-called «other worlds» should not be perceived as something alien and unknown. There is no dividing barrier between «this World» and the many «other Worlds». On the contrary, all that exists is one single Divine Being.

You will learn about this and much more from the third book «Soul in other Worlds».

*Yalta, 1998*

 This book may seem unbelievable and dreamy to the reader, but those who have ears to hear will find confirmation of their thoughts and hopes and proof that we are not the only people in the cosmos.

The time has come to meet those who have been invisibly present around us for millions of years, sending signals of their invisible existence. May each of you perceive this book the way he or she feels! For some, it may be perceived as a fairy tale, and for others, as information for reflection or as a guide. In this way, the main goal of this book will be achieved, because you will know the Truth, and what to do with that Truth is everyone's personal choice.

This book represents the least amount of information about the author's many Contacts with other cosmic civilizations and the information that has been received from Those whom the author calls The Universal Teachers.

*Yalta, 1998*

In this book the author continues his exploration of the world around us and tries to unravel one of the most unexplored mysteries of nature – the human. After all, only by knowing ourselves we can come closer to knowing God and His Mysteries.

Who are you and what are you doing on this planet? What is the point of your being here? Where will you go after people say about you, «He's dead...»? And in general, will there be anything left after Death other than the memory of you? All these questions will be answered through the author of this book by his Teacher, who has undertaken the mission to give a thorough introduction to the mankind on Earth to the problem of so called «post-death existence» of a human.

## Book 7. «Soul in the Zodiac»

Yalta, 1998

Pages:

In this book the author tells us that the entire world around us is a single system, and the parts of which are in very close relationships and interconnections, and that the entire Universe is subject to unified rhythms and unified cycles. Some of these cycles began at the creation of the Worlds and determine the Evolution of the Universe as a whole. Others determine the course of geological processes that change the face of our planet and, in turn, also affect the development of all mankind, the emergence and collapse of terrestrial civilizations.

The nature of all these influences, both global and individual rhythms, on the objects of the World is determined by the laws of the Zodiac, whose symbolism is much deeper than many novice astrologers think. In addition, in each cycle we can distinguish twelve basic and twelve current phases or micro-cycles, the characteristics of which are also associated with the passage of the Soul along different qualities and with the zodiac symbolism.

This book, as well as all the other books by Oris, is intended for those readers who seriously, deeply and with a sincere desire want to understand on their own everything that relates to the problems of Life and Death, who see in their impending Death not the most terrible and dangerous enemy, but on the contrary, a reliable adviser and a friend.

With Oris's books, Death is transformed from a frightening adversary, from an unfortunate failure or fatal mistake in the Universe into one more, another Transfiguration, to which we have already been subjected more than once.

## Book 8. «The art of dying»

This book consists of 5 parts.

Pages:

The author has tried to give the most detailed answers to specific questions through his many years of experience of independent out-of-body explorations of the Ethereal World: how to die correctly? How to learn to accept your death in time? How the transformation of subtle bodies takes place during the post-mortem transition?

This book, describing in the most detailed way the changing state of a person's Consciousness during the process called «dying» and his Soul's presence in various

vibrations of the energies of the Astral, is also a kind of manual of religious therapy and eschatological psychosurgery, carried out through the most detailed texts of “Instructions” read by relatives for the dying ones or an already dead person in order to strengthen and awaken his Consciousness before the Transition to the Other World.

Among other things, this book can safely be classified as one of the most detailed travel guides to the many realms and spheres of the Ethereal World, which we commonly refer to as the «afterlife».

*Yalta, August 1999*

**Pages:**

As long as man is alive, he gives little thought to WHAT awaits him, perhaps in the next second: after all, how many beautiful lines broke off in mid-sentence, and how many good deeds were not destined to come true only because people in their busy every-day life keep putting off all the best and the most necessary,

forgetting that in the next moment they may not have that «later» at all. How many lost opportunities for the most simple manifestation of Kindness and Love towards each other have never been realized, and how many unspoken beautiful words have fallen into nothing!

This book is not about Death, but rather about HOW to restructure your whole life now, immediately, so that you can meet every next moment of your earthly existence without disappointment, despair and grief.

## Book 15. «Soul in the Higher Worlds»

Yalta, August 1999

Pages:

What Oris writes about in the book series «Life Between Lives» is the most detailed description, ever written by man, of the entire sequence of events undergone by the Consciousness of a dead person when he returns to his Heavenly Home, which has so many «abodes» that it is impossible for an ordinary person to even imagine.

Oris, using his many years of individual experience as an astrologer, describes in detail the Astral and Mental realities that he has explored, transforming the Incomprehensible-Cognizable Existence into Knowledge that is comprehensible to virtually every person and leads to a gradual realization of the immutable Truth of human's infinite Cosmic Existence.

Pages:

Never before has the Mystery of the Creation of our World and the tragic role that Lucifer, one of the most highly spiritual First Consciousnesses of the Logos of our Universe, played in the history of the birth and development of mankind on our planet in such detail been revealed to people.

The purpose of this book is to give you the Knowledge which will help you to understand who is the God and what place in Him belongs to the forces which people call «Satan», «devil», etc. What energy-informational niche do they occupy in the Earth's Space and what form do they take (and if they have a form?) in reality?

## Book 19. «Soul in Hell»

*Yalta, 1998*

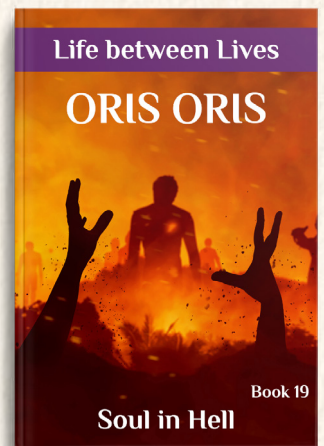

Pages:

Fear of Death is the individual's fear of losing himself, the fear of the need for further evolution. Man is most afraid of the unknown, but it is the unknown that makes a man to conquer his fear again and again. Many people are totally unaware of the infinite variety of levels of Consciousness in their own nature and whatever the author of this book may say to them about it, it will still not help them to understand it.

But there is still a small, even a tiny one-thousandth part of humanity which is the reason why all this knowledge about the true picture of Existence after Death is given. For the Transfiguration of this small part of mankind a small group of Star-Born Ones have specially incarnated and agreed to become conductors between the awakening Consciousnesses of the Earth and the Consciousnesses of the spiritual Teachers from Sirius and Pleiades. To each thousandth of the incarnate Earth's humanity Oris addresses in his books.

## «Extraterrestrial Contacts»

In today's world there is a lot of information about UFOs, about the meetings of individuals and even whole governments with aliens, as well as materials of telepathic Contacts with representatives of various extraterrestrial civilizations, etc. Unfortunately this information, while passing through different dimensions to us, in our three-dimensional world, is often subject to very strong distortions and is very often misunderstood by us due to the specifics of our three-dimensional way of thinking.

Offered to you materials of Oris's Contacts with the commanders and crew members of the Sirius-A and Sirius-B starships, as well as with other extraterrestrial Consciousnesses and Civilizations, including the Consciousness of Christ, Lord Maitreya, God of the Sun (the Logos of our Solar System), Elohim (the Creators of our Universe), and the four Archangels (Michael, Uriil, Gabriel and Metatron), are unique because they are literally received «first-hand» and contain very valuable information, useful for all humanity, which lives on the eve of the Transfiguration of the Earth.

The Pleadians and Siriusians, who are the true spiritual Teachers of Earth's humanity, are happy to share with us the knowledge without which we earthlings cannot emerge from the endless series of earthly incarnations and join as equals the extraterrestrial civilizations that are part of the «Commonwealth of the Light Ring» on the expanses of Cosmic and Galactic Creativity.

About this and much more you can learn from this book series called «Extraterrestrial Contacts».

## Book 1. «Teachers from Pleiades report»

Yalta, 1998

Pages:

Such concepts as «Cosmos», «Higher Intelligence», «UFOs», «aliens», etc. have now firmly established in our Consciousness, and we can no longer imagine ourselves, our planet and our entire existence in isolation from the rest of the universe, from the hope of a promising direct contact with brothers in Mind.

Who are they, our teachers, what do they teach, what do they look like, and what do they want from us? In this book you will find answers to these and many other questions.

Pages:

In this book, the Pleiadians and Siriusians, who are the true spiritual Teachers of mankind, gladly share their knowledge with us, without which we, the earthlings, would not be able in the very short time that remains before the Transfiguration to come out of the many thousands of years of hibernation and to make the necessary number of timeless passages in the impermeable thickness of the Collective Consciousness, necessary for the so called «shift of the paradigm».

## **Book 3. «The crew of the Starship Sirius-B reports»**

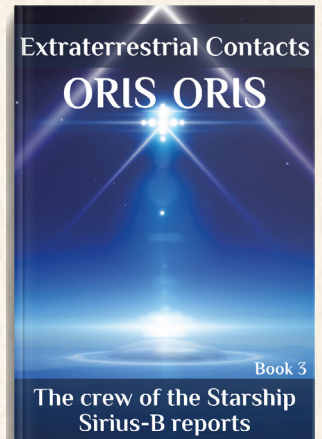

*Yalta, 1998*

**Pages:**

The next ten to fifteen years are predicted by extraterrestrials to be very informative and interesting for humanity. We will see how our so-called «unshakable reality» will begin to be rapidly turned upside down before our very eyes. Already the world does not seem as solid and unbreakable as it once did. And very soon we will all be witnesses and direct participants in a worldwide spectacle of Chaos and Confusion. The foundations of all our cultural, religious, philosophical, and scientific Paradigms, which have served us so far invariably as an image of the «real» World, in a matter of years, will crack and begin to crumble before our very eyes.

The reality of the New Age is within us, and main changes that we have to make must affect primarily our inner content, which, by freeing the Divine Light of our Souls from the millennia-old oppression of the Matter, will turn the mustiness and decay of our earthly cities into the unearthly glow of Beauty, which overflows the Cities of Light of the new, transfigured Earth.

## **Book 4. «The Teachers of the humanity report»**

*Yalta, 1998*

**Pages:**

Throughout all the history the humanity has been narrowing its perception of the Worlds from multidimensional, which includes all the subtle-material Spheres of the Astral, to three-dimensional, rough-material Level, thus not only limiting itself in the better understanding of the world around, but also completely destroying the possibility of free contact with the Consciousnesses of hundreds of thousands of other space civilizations, who actively create and work in the Cosmos.

Representatives of many of these Intelligent Civilizations have practically never left our planet, while other Higher Entities have been incarnated among people only for several millennia.

They have voluntarily shared and continue to share with us all the burdens of earthly incarnations and the very heavy human Karma, only to help with their Knowledge of the Truth and their personal experience, so that the people of Earth could more rapidly climb the steep steps of the Evolution Stairs.

## **Book 5. «Extraterrestrials»**

*Yalta, 1998*

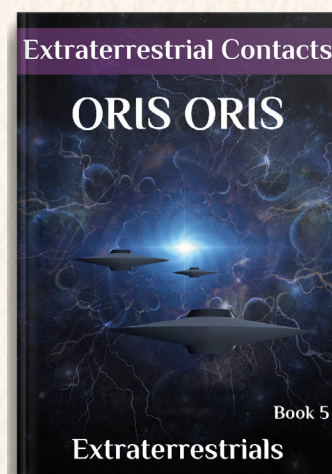

**Pages:**

They, the extraterrestrials, are working on our planet neither to conquer nor to enslave it, but with one single goal in mind: to slow down our rapid fall into the abyss of self-destruction, trying to bring to our Consciousnesses the moral, spiritual, social and scientific values accepted in the civilized Cosmos.

Those few people who are able to perceive their Word of Truth do everything possible, even impossible, to bring it to the half-asleep Consciousnesses of the rest of mankind.

Many «extraterrestrials» from Pleiades, Sirius, Andromeda and other civilizations of the «Light Ring» have been living among us for thousands of years, voluntarily giving up being in the Worlds of higher dimensions, just so that we, people of Earth, did not remain completely cut off from the Source, from Which all of us have come out, and to illuminate with the Knowledge of Truth the Path of spiritual ascent for Consciousnesses who no longer wish to

abide in the sleep of illusion and the darkness of ignorance. The Books of Oris are an example of this Service.

## **Book 6. «On the eve of Armageddon»**

*Yalta, August 1998*

**Pages:**

This book, in its uniqueness and value of the information it contains, is on par with the other Oris's books, continuing the subject of Contacts with Representatives of Worlds of Higher Levels of Existence.

Does The Christ Himself communicate with many people on the eve of the so-called «Last Judgment» transmitting specific recommendations? Has the Mother of God appeared to many to show them the way to salvation through Her Word in these terrible days of the approaching disasters and cataclysms? You just stop for a minute and delve into the rank of Those Who appeal to you – the Christ and the Queen of Heaven!

To ignore this information would be to close one's eyes, on the edge of the precipice, at the risk of being crushed to death. Is that what you want? Then read carefully, absorb and, opening the eyes of your Heart, draw your own conclusions.

## Book 7. «The beginning of Armageddon»

Yalta, September 1998

Pages:

The beginning of the Age of Aquarius. Nostradamus wrote: «I see a reborn and renewed Christ coming. And then there will come a long peace, unity and harmony among the generations of several races».

The process of division of people depending on the quality of their Consciousness has already begun rapidly around the world. It will soon lead to the final separation of mankind not by national, religious or party affiliation, but by the quality of their spiritual vibrations. People had more than enough time to change their lives for the better. But now there is no time even for a reflection.

Very soon there will be the first cataclysm of an unprecedented force, which will not only change the circumference of the Earth, but will also shift its magnetic poles. The Earth's axis, which is already in an unbalanced state, will change

and all this will cause continuous, endless cataclysms. Earthquakes and floods will become a common thing, and long and extensive fires will engulf the entire planet.

Today we are no longer «slipping into the abyss» or «standing on its edge», as economists and politicians reassure us; we are already flying into the abyss with great acceleration, and no one gave us wings to wave and soar upward to avoid death, or rather, God in fact did, but we have all forgotten about them.

*Yalta, 1999*

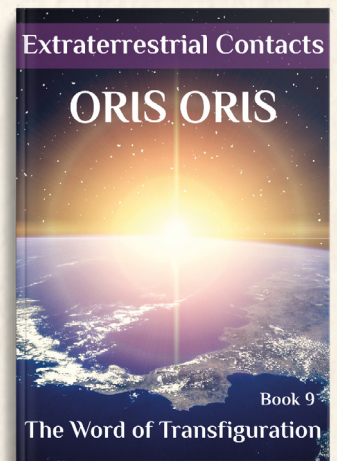

Pages:

Holy Mother of God, save us! - This is what the prayer to the Blessed Virgin asks for. But the same people disbelieve and slander, avoid and remain indifferent when the Living Virgin herself speaks to them and tells them about the ways of their salvation. «Hypocrites», says the Queen of Heaven to them, «get to know what Heaven looks like, and why do you not know the signs of the times? Prepare yourselves, people, as truly the day and hour of the Judgment of this world has already come».

In August Our Lady transmitted the first part of Her «WORD» through Oris, and on January 13 and 19, 1999, through the same channel She transmitted the next two parts and commanded to compose from Her «Word» a supranational «Gospel of Transfiguration», which was published as a separate book «The Gospel of Transfiguration by the Mother of God» (see below).

### «Muladhara chakra (Argllaamuni-lissiidi)»

Yalta, 2000

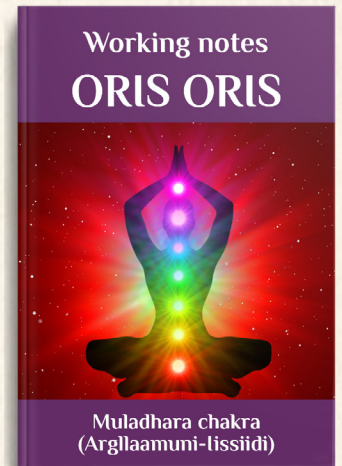

Pages:

Functionally, the Argllaamuni-center (Muladhara) is closely connected with the psychological abilities of the physical body, which provide survival of the physical body and protection of a person from unfavorable external influences. A big role in the activation of the whole immune system belongs to this lower center. Its normal functioning gives a sense of physical health, well-being, self-confidence and stability.

Imbalance and all kinds of muladhara «breakdowns» in the Aura, lead to the constant outflow of these energies and can cause a feel of insecurity, deep depression, lack of willpower, a sharp decline and energy loss, increased soreness in the lower and middle parts of the body, despondency and melancholy. This is particularly typical for those, who have not yet opened the karmic channels of the heart center or if karmic channels of the heart center are very weakly activated, which in order to switch the person to completely higher, spiritual levels of feeling and thinking. In such cases a person loses the purpose of his Life, as if he loses his roots and, purely intuitively, following the consciousnesses of the organs and body systems, completely surrenders himself to the satisfaction of his own lower desires in order to replenish the energies of the Argllaamuni center.

## «Svadhithana chakra (Inglimilissa-lissiidi)»

*Yalta, 2000*

Pages:

The weaknesses of our sex education have led to the fact that most people, even if they feel a deep sensual attraction, instead of beginning a heartfelt spiritual exploration of each other in the process of intimate interaction and accumulation of sexual energy, instead, close their heart centers and turn the unique opportunity of highly sensual admiration into a trivial sexual act.

Unfortunately, the creators of the lower-astral and dense-material types of Reality benefit greatly from the fact that the prevailing majority of people completely incorrectly and perversely understand the very essence of SEXUAL INTERACTION. Sexual interaction in fact is a spiritual intimate process which, if properly understood, contributes to a stronger contact between a person and his inner Essence and contributes to a more highly-sensual and deeply soulful manifestation of the person.

Love is the real Symbol of the Age of Transfiguration that is coming on Earth! And the mysterious «sacred key» to the Gate of Spiritual Transformation is not somewhere in the cosmic infinity and unfathomable unknown, beyond our psychic capabilities, but in fact is located quite «nearby», or rather, in our own heart center AIGLILLIA, which is filled with the highest vibrations of Love literally towards every manifested aspect of the Life around us, including the strongest of all – the sexual one.

## «Anahata chakra (Aigllilliaa-lissiidi)»

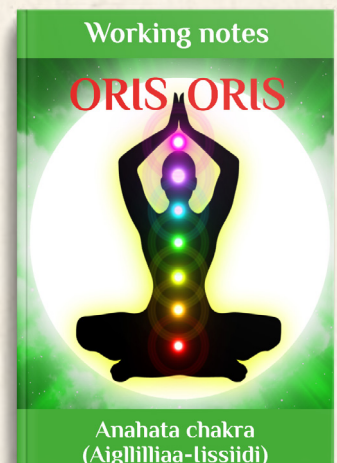

*Yalta, 2000*

Pages:

Oris describes his reflections about the so-called Anahat states and deepens the concepts of Kindness and Love, revealing their different shades depending on the presence of a greater or lesser selfish component in each of such manifestations.

## Book series «ISSIIDL»

This series of books, from the first to the last pages, includes the most unique in meaning and the most important information, accepted by Oris after the year 2000 during his next direct Contacts with the Creators of Humanity: Algellis (Argllaamuni and Inglmilissa iissiidi centers), lillgmmii-I, (Aigllilliaa and Orlaaktor iissiidi) Lua-Andis (Ulgluu and Ssaassfati iissiidi), Greyli-Vin (Olgoolloni and Aani lissiidi), Slliangsmiii (Raaklima and Uluuguma lissiidi), Sslaaiingsa (Svaagali and Eyyaaa lissiidi) and Ssniillgsa. These Cosmic Entities represent personal Interpretations of Oris at the levels of the collective Subconsciousness, Supraconsciousness, Ultraconsciousness, Superconsciousness, Hyperconsciousness, Proconsciousness and Protoconsciousness. The detailed Knowledge of such a high Buddhist level, for many evolutionary reasons, has never before was accessible to humans or even the spiritual Initiates of the 3-4 Planetary Initiations.

Only because of the spiritual transformations which have intensively begun on Earth and because of the preparation of the collective Consciousness of mankind for the act of Transfiguration this Knowledge is now being transmitted to those of earthmen who are ALREADY spiritually mature for its proper understanding and comprehension and who are eager to use it to continue their further Path of mastering and accumulating the entire experience of incarnated earthly existence as swiftly and as effectively as possible.

In none of the astral or written sources on our planet there is even a mention or a distant analogy of this Teaching, because the degree of admission to it requires from the spiritual seeker an active self-discovery and prolonged experience of conscious existence at the causal-buddhich level, as well as an experience of being outside the physical shell for long time.

Oris deliberately integrated all the Knowledge he received - the «Teaching about chakram personalities» - only onto the highest ajna-vishuddha levels of the collective Consciousness of the planet, because further adaptation of these highly spiritual codes to the generally accessible understanding would lead to a significant decrease in their degree of authenticity. Therefore this information can be productively assimilated only by people with actively developed over diaphragmatic psychic centers. For them and ONLY FOR THEM the Spiritual Teachers from Pleiades transmit this newest spiritual Teaching.

## «The Great Message»

In 2006 two volumes of Oris's books were published, reflecting the results of his further Contacts with the Teachers of Humanity, which represent the highest personal Interpretations of his Ultraconsciousness and Superconsciousness, under the general title «The Great Message». Its contents marked the beginning of the creative stage of work with information of a principally new, more qualitative level.

As a result of numerous answers to reader's questions on the materials of these volumes a new series of books «Immortality is accessible to everyone» was published as part of the Issiidiological Knowledge - the newest spiritual-cosmological conceptions about the Universe and the human being.

(New title - Volumes 7 and 8 of the series «lissidiology Fundamentals»)

Pages: 1,469

From 2001 to 2022 Oris has written over 1600 song lyrics to popular tunes of the 20th and 21st centuries. The first 555 songs were combined in two collections called «My Testament». The lyrics of all subsequent songs are published on the Ayfaar Songs website [ayfaarpesni.org](http://ayfaarpesni.org).

These songs tune to a positive perception of life circumstances, an altruistic way of life and unconditional love for everything, as well as a deep understanding of the fact that everything that happens to a person as a good thing.

## Book series «lissiidiology»

From 2009 to the present, Oris has been working on the book series called «lissiidiology».

This series consists of the following books:

- lissiidiology Fundamentals (Volumes 1-6)
- Texts of Ayfaar Songs (Volumes 7-8, previously published under the general title «My Covenant»)
- Dictionary of terms (Volume 9)
- «Immortality is Available to Everyone» (Volumes 10-15),
- «Commentaries to the Fundamentals» (vols. 16-20), which were compiled from the author's written answers to reader's questions
- «Kollokviums on Fundamental Concepts» (volumes 21-22), compiled from the author's oral answers to various lissiidiology questions

This book series is being continually updated with new Oris's answers to reader's questions, which are being subsequently formed into new lissiidiology volumes or added to existing volumes according to their subject.

This series of books reflects the author's latest iissiidiological insights, which deepen, expand and supplement the information published in the previous book series «lissiidi».

# LISSIIDIOLGY

## Volume 9. Glossary of terms

Moscow, 2010

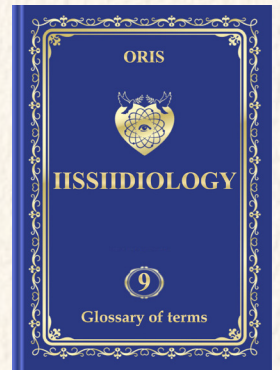

Pages: 725

IISSIIDIOLOGY terminology has its own individual specificity of spelling.

Also, each of the terms includes a much deeper meaning than might seem at first glance, because it is rooted in more qualitative levels of this Knowledge, which, without sufficiently developed extrasensory abilities, is not yet available for access to the current creative dynamics of the Self-Consciousness of an average person.

This publication contains only short vocabulary articles to facilitate the process of understanding the material, at least at the most elementary level. More detailed information on each of the terms can be found in other lissidiology books.

Some terms are very difficult to describe and have absolutely no analogues in the habitual human associative perception, so it is an extremely difficult task for the Author to formulate a dictionary article within the limits of an ordinary person's comprehension.

## Volume 10. Immortality is accessible to everyone. «Fundamental Principles of Immortality»

Moscow, 2010

Pages: 521

In this book, Oris continues to give full answers to inmost and fundamental questions of cosmic and human existence: about Earth and universal destinies, the nature of life and death, Soul and God, good and evil, about our relations with one another, the nature of Space-Time and how the entire visible and invisible-to-us reality is formed. The Universal Knowledge given by Oris offers the fundamentals of a new and unique world view for all of us. It allows us to penetrate the mystery of eternal existence to an extent inaccessible before, reasonably and substantially solving the problems therein, offering convincing answers which are not available in any religious world view, philosophical movement or scientific theory. Oris's Information expands the limits of human experience and perception literally to infinity!

### «Energy and biological mechanisms of refocusing of Self-Consciousness»

Moscow, 2010

Pages: 691

In the first Chapter of Volume, Oris describes in detail functioning of Formo-Creators of the brain, how the memory is accessed, how biological structures of the brain are associated with energy-informational structures of Self-Consciousness, how various Self-Consciousness Levels are differentiated and reprojected at the moment of so-called «Death». This Chapter also describes functioning of «the intestinal brain», how it becomes possible to cure at a distance (the technique of ethereal projection), gives the meaning of the esoteric term the «Astral Plane» from the point of view of lissidiology.

The second Chapter tells us that biological Forms can exist in different Continuums and explains the interrelationship between our lifespan and quality of active Levels of our Self-Consciousness. It also provides information on the following subjects: it is possible to «live one's Life many times» in higher-quality scenarios, cycles of changing male and female manifestations within the structure of a multi-dimensional human Form, physical principles of organization of higher-frequency levels of the Universal Reality with a detailed description of the nature of boson and fermion fields, and types of particles that are carriers of such interaction.

#### **CONTENTS:**

Preface

- SECTION VII. Objective mechanisms of a phenomenal manifestation of the Illusion of «Death» of any «personality» in the dynamics of Formo-systems of the Worlds

Volume 12 is devoted to the diversity of the Self-consciousness manifestation forms in the infinite variety of the Form-Systems of the Worlds. Tell me, what do you know about the universal properties of Space and Time? About the illusory nature of our existence? About the Essence of «development» of each «personality»? It's not easy to answer any of these age-old questions.

But Oris, with all possible detail and thoroughly, goes on to answer not only these, but many other equally urgent and vital questions that trouble us and compel every seeker to learn, to give up something, and to gain something...

### **CONTENTS:**

*Moscow, 2011*

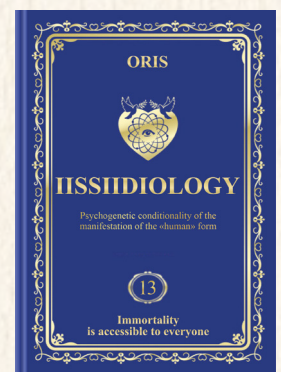

**Pages: 700**

In the 13th volume of the commentaries, Oris answers the vital questions of mental and physical health, medicine, psychology, psychiatry, genetics, somnology, pharmacology, and reveals the psychogenetic features of the manifestation of the «human» Form.

Our biological Existence is a continuous process - when we feel, think and experience something, we immediately become part of those groups of the Worlds, Realities and Continuums whose synthetic dynamics correspond exactly to the quality of these infinite processes.

## **Volume 15. Immortality is accessible to everyone.** **«The Conscious Path to Human Worlds of «personal» Immortality»**

*Moscow, 2012*

**Pages: 648**

«The Conscious Path to the Human Worlds of «personal» Immortality» - this is the name of the new volume from ORIS book cycle «Immortality is accessible to everyone». At first glance, this may seem like an invitation to a philosophical contemplation. But by appealing to his devoted readers, the author hopes for the consideration and perception of this issue in a broader or, if you like, deeper understanding. Philosophical concepts offer to us only sensory-contemplative,

mostly associative images regarding a particular issue. The author, however, presents in this work, as a logical continuation of previous volumes, a detailed consideration of the practical prospects for the development of a personality into a true Human, who explores his own spirituality.

In addition to the mechanisms of working with own Self-Consciousness, which will lead people as Humans to «personal» conscious Immortality, ORIS describes the «Worlds of our Future», the prospects for the manifestation of the coming times. And in order for everyone to develop an understanding of their own Path, a comprehension of the choice of their spiritual development, the author not only describes «bright» prospects, but also specifies in detail the obstacles that each of us may face and, by not noticing or not determining the nature of which, to unconsciously, under the influence of particular reasons, deviate from the development in the Human direction.

With the help of this book, you will be able to determine the qualities that are truly inherent in people, and you can finally figure out how to form in yourself these qualities that are truly Human - with a capital letter. Having experienced what a highly sensual Intellect is, you will then understand why only with the help of highly intellectual Altruism you can find the Path to the cherished Goal of your spiritual future!

### **CONTENTS:**

- SECTION XIX.       Obstacles on the path of realization of «individual» Immortality
- SECTION XX.        The Specific States of uoldmiism (high-sensual Intellect) and stollmiism (High-Intellectual Altruism) synthesized in the Human (lluuvvumic) development Direction
- SECTION XXI.       Specificities of lluuvvumic transformation of human features
- SECTION XXII.     Our «future» Worlds. Perspectives of the approaching times

### **«Interaction of Information and Energy as the Primary Cause for origination of the Creative Activity of Self-Consciousness Focus and the Macrocosmos in whole»**

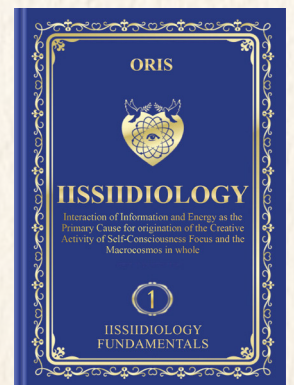

*Moscow 2013*

**Pages: 312**

This book presents the beginning of an overall 20-volume information series titled «The Great Message», which consists of «IIS-SIIDIOLGY. Fundamentals», «Commentaries to Fundamentals» and author's Song lyrics with a highly-spiritual content written to popular and all-loved melodies.

From the very beginning, the author pinpoints the reader's atten-

tion upon fundamental notions of IISSIIDIOLOGY starting from basic, axiomatic Conceptions. The book contains the newest interpretation of formation of the outer reality based on the Self-Consciousness's Focus Dynamics as the main functional mechanism of the Macrocosmos's Creative Activity. A detailed comparison of the author's hypotheses with existing scientific conceptions allows to draw parallels with the current worldviews about nature, space, time, energy and to find the ways for their radical transformation and potential development.

In this volume, the author introduces the conceptual foundation necessary for an adequate understanding of all other IISSIIDIOLOGY books of this series. Hierarchy of Self-Consciousness Levels, dimensional differentiation of manifestation Forms, classification of elementary (and other) particles as structural components of the Universal Plasmic-Differentiation Emission, information theory of the formation of Energy in the Macrocosmos are described in order to form necessary notions that will serve as the basis for further more complex iissiidiological Categories: Universal Cosmic Laws and their Principles, Diapasons of Plasmic Forces, Evolutional and Involutional Branches of development, and many others. The first volume of Fundamentals is the required minimum for any reader who wants to thoroughly study iissiidiological conceptions.

Many scientists may consider this volume of «Fundamentals of IISSIIDIOLOGY», as well as all the other books of this twenty-volume series titled «The Great Message», no more than «science fiction» — each of us has the right to believe in what is the most convincing. However, every intelligent person who possesses at least

the rudiments of cognitive intuition can discover in this information those more Qualitative characteristics of the objective truth, thanks to which continuous eglleroliftive Amplification of all Self-Consciousnesses Forms is carried out.

Catastrophism periodically appearing in the process of human self-cognition is always accompanied by the radical breaking of many old Conceptions, which by its radicalism surpasses greatly all theoretical forecasts. Fanatical belief in dogmas and postulates established once, as well as the clear tendency for idolatry — these are obvious characteristics of degradation and regression that converge modern academic science with paganish religion. Yet, the eglleroliftive Amplification process and harmonious evolution both of a separate personality and human population in general is impossible without breaking down old stereotypes and establishing — on the basis of deep cognition of Wisdom of previous and future generations — much more universal conceptions about ourselves and our surrounding reality.

This uneasy, but grandiose on its depth and scale Task of prompt and Qualitative transformation of human community is assigned by the Evolution Itself to the universal knowledge of IISSIIDIOLOGY, absolutely new to people, which is received for the first time and entirely by one person only by means of the intuitive way of cognition. We offer you to find out more about its newest fundamental Conceptions in the second volume.

Besides, the IISSIIDIOLOGY offers to Collective Consciousness of humankind a totally new paradigm that gives new and fresh view of the multitude of clinical phenomena studied by psychotherapists. It gives a theoretical model for understanding the changes in the mentality of a patient and the hope on clarifying mechanisms of effectiveness of psychotherapeutic method.

### «Variety of Forms of Creative Realization of the Cosmic Human»

Moscow, 2014

Pages: 780

The third volume of «ISSIIDIOLGY Fundamentals» allows readers to go deeper into yet completely unexplored by us structures that provide functioning of human Self-Consciousness and its interconnections with Self-Consciousnesses Forms focused by it. First two volumes of «ISSIIDIOLGY Fundamentals» thoroughly describe the deep Nature of Causes and Mechanisms of Creative Activity of everything manifested in multidimensional and different-Qualitative Macrocosmos, including also qualitative Basis of Focus Dynamics of Form-Creators of Universal Structures. The third volume in its turn focuses on the detailed description of basic Principles of exiberation of Human and other Self-Consciousnesses Forms in all the diversity of different-dimensional diapasons of the Tertiary Illusion.

To allow the reader to fully comprehend the essence of the notion «Self-Consciousness Form,» the author describes realization functions of these structures at the example of subjective formation — as a result of life creativity of every personality — of so called personalistic Worlds, which goes far beyond existing scientific notions about the surrounding reality and peculiarities of interaction between Forms structuring it, whether it is a human, a planet, or an elementary particle. Furthermore, he describes different-dimensional variety of Forms of Iluuvvumic Direction of development and characteristics of focal realization of Humankind Collective Cosmic Intelligence as a unified the LLUU-VVU-Entity.

The third volume ends with a detailed description of multi-level manifestation of Plasmic Forces Diapasons of our Universe, which are described from a position of their subjective interpretation through the specific peculiarities of human Perception systems. Endless inner transformations of Universal Illusion, as mechanisms of evolutional growth of the Cosmic Human on its Way to its Universal Future, lets inquisitive readers to form in their Self-Consciousness own highly intuitive conceptions about endless varieties of all possible variants of development, where goes the process of eternal multidimensional Existence of every human personality.

This new volume of the series «lissidiology Fundamentals» is a reasonable consequence of consideration of biological mixtum NUU-VVU-Form-Types that was started in the previous volume. For our deeper understanding, it draws our attention even more at iissidiological approach to the matters, which are related discretely by contemporary scientific community to philosophic anthropology in general and to behavior theories of personality in particular.

At more objective, transcendent, gabitual (primordial, objectively deep) discussion, it becomes clear that the given material leads a reader maximally to objectivization of own conceptions about relations among personalized, unconscious, and subconscious levels of Self-Consciousness at the background of developing invizusal (imperceptible by our sensor systems and measuring devices) mechanisms of anatomy and brain neurophysiology, accompanied by dominant dynamics of

the first IISSIIDI-Centers pair.
