The crew of the Starship
Sirius-B reports

The next ten to fifteen years are predicted by extraterrestrials to be very educational and interesting for humanity. We are about to see our so-called “unshakable reality” begin to turn upside down before our very eyes. Already now the world does not seem as solid and indestructible as it once did. Very soon all of us will be witnesses to and participants in a world representation of Chaos and Confusion. The foundations of all our cultural, religious, philosophical and scientific paradigms, which have always served us so far as an image of the “real” world, will crack and begin to crumble before our very eyes in a matter of years.

All of us earthlings are steadily moving towards the realization in our senses of the reality of the fourth dimension, which is more connected with perception, with the use of all the psychic possibilities of the individual being, rather than with sensations conditioned by thinking processes, which is characteristic of the physical worlds of the earthly type. The reality of the New Age is within ourselves and the main changes we have to make will have to affect first and foremost our inner content, which, freeing the Divine Light of our Souls from the millennia-old oppression of Matter, will transform the mustiness and decay of our earthly cities into the unearthly radiance of the Beauty that overflows the Cities of Light of the new, transformed Earth.

Humans are not yet able to approach other planets in the current state of their dense bodies, which are soon to undergo significant transmutations. But many evolved Consciousnesses in their subtle bodies have already explored such planets many times and brought back to Earth the memories of the surface structure, of Nature, of the population. Such flights strengthen the Consciousness of infinite Reality”.

FIRST MAKKEARLAND'S MESSAGE – THE CREW COMMANDER OF THE STARSHIP «RAMAX-01SL SIRIUS-B»

(TP-contact of 29.12.1997)

Hello Brother Oris! I am pleased to be able to give you the warmest greetings from Asteriarchus and Armaraorm from Loros, the third planet of Sirius-B. We have just arrived from there and will now, among many others, also work on the plan to prepare Earth for quantum transition. Our task is to make contact with the Planetary Consciousness of the Amenti Sphere, which is a warped hyperspace that serves as the Womb or Lon of Earth.

The complexity of the task is that there is only one very unusual way to get inside this Sphere, for which our starship and crew have been specially created and trained. We have to go very deeply beneath the planet's surface, about 2.000 km to the core, where the main Planetary Dedication Centre is located at the level of the 13th overtone of the fourth dimension. By the way Brother Oris, at the end of August 1996 you were shown these very Halls of Consecration located in the Amenti Sphere.

You remember that huge silvery purple Fire and the twelve plasma Beings standing on either side of the high Staircase, don't you? That took place in the first Hall of the Great Pyramid. Sorry, I was just counting from your subconscious, because you yourself are still not entirely clear about what happened. There were 12 of you from all over the Earth too, weren't there? You all stood inside the Main Golden Rectangle, and the lilac and violet Crystal, on which you were ordained, was that very Crystal of Consecration, carefully kept on the Earth since the times of Atlantis.

Incidentally, not many people realize that Consecration is merely a condensed individual evolution in a very short period of time during which, owing to certain circumstances or a responsible mission fulfilled by a man, he gets the opportunity to undergo, at the fastest possible pace, those stages of spiritual development which will one day, but naturally at a slower pace, be passed through by all mankind. So Dedication is essentially just the steps needed to access the Consciousness to the higher levels of the opening Knowledge.

This is exactly what happened to you, Brother Oris, in the cave on the night of 24 to 25 August 1996. But this is, so to speak, a lyrical digression from the main conversation. Brother I wish to tell you, Brother Oris, that I have just glanced through your fourth book, which is now ready for publication, and I cannot agree with some of your assessments, in particular with your optimistic and nonchalant assessment in your introduction of all manifestations of alien

Intelligence on Earth. Naturally, your exceptional position and direct relation to us does not give anyone the right to harm you, but not all people have such a right.

Therefore let me correct and supplement you in some points, because your task and ours is to give people as true information as possible about everything that concerns their development on Earth. So, first of all, you have forgotten to mention that besides us, the creators of humanity, who are ready to sacrifice in the widest range of values for the people of Earth, there are also aliens hostile towards humanity in the Space of your planet – just as there are rivalries between various countries on Earth or rivalries between humans and other biological species.

For example, many humans hunt animals, birds or catch fish. Similarly, there are various manifestations of energy in the cosmos that are hostile to humans, as they can potentially also be successfully used as game or food. There is a law of Absorption which states that ‘when one thing absorbs another, in the process of absorption it itself becomes that other’. When you eat the meat of animals which you have killed, you assimilate along with the food those qualities, or rather, vibrations of energy of their astral body, which this animal had during its life. This is very dangerous in that it considerably slows down your spiritual advancement, but that is not the point at all.

The same law also applies to cosmic beings who through suppression and absorption of weak-willed human Consciousnesses, want to get for themselves qualities which the representatives of a given aggressive civilization do not possess or possess insufficiently. I mean first of all the representatives of many parallel Worlds with you, on different stages of development, and also the Martian civilization, but not of the Mars you know today, but the Mars which existed a million years ago, when it was affected by the so called Lucifer Syndrome.

If you, Brother Oris, will permit me to give you a brief account of how the relationship between the earthlings and the Martian aliens has developed over the course of human history. But if not to begin with the Lemuria’s ruin (I know that you have already described this fact in details in one of your next books), at least with the appearance of the Atlantis civilization on the Earth. So, when Lemuria sank into the ocean and the poles shifted, a huge new land mass – Atlantis – rose above the water.

About a thousand immortal Masters, graduates of the Secret School of Naakal, travelled to one of its islands, Undal, where they first materialized a huge wall from north to south, so that the two halves of the island were completely isolated. A smaller wall, from west to east, materialized, dividing the island into four parts, just like the human brain: the left hemisphere of your brain represents the male part and is responsible for logic, and the right hemisphere

is the female part and is responsible for intuition. But in turn, the male half also has a feminine aspect based on experience or intuition and the female half has a masculine aspect based on logic.

The immortal Teachers then divided themselves in a special way: half went to one side of the island and the other half to the other side. Thus the inhabitants of the left side of the island became associated with logic and the inhabitants of the right side with intuition, which turned the island into a living entity. Ten Tree of Life structures were then formed on the island and energy vortexes began to swirl over these places, drawing the surviving Lemurians to Atlantis.

Each of the new arrivals felt a special attraction to one of these energy funnels, depending on their true nature. But unfortunately, the attraction only occurred with eight of the ten energy funnels associated with the Tree of Life. The Lemurians moved into these eight zones, creating large cities there, while the two remaining zones were empty. The unoccupied energy funnels attracted uninvited guests – two extraterrestrial races that, having merged with human consciousness, became part of your evolutionary structure.

One of these races posed no threat to humanity. The problem arose with the other race, which came from Mars as it was a million years ago. Back then, Mars was a beautiful planet, fully inhabited. But then the Martians began to suffer from a kind of disease that you have yet to encounter. This, a problem common to the whole galaxy, could be termed “Lucifer Syndrome”. The Archangel Lucifer, as you already know, was one of the most beautiful First Beings ever created by the Creator.

But some 18 million years ago he considered himself equal to the Creator Himself. Following the pattern of Creation – the Merkabah, which was originally created only for the inner way of creation, during which the emotional body together with the mental body were to remain intact in order to provide the creator with protection – Lucifer decided to create himself, but only in the outer way, as he was not capable of inner creation.

About a million years ago, the Martian race was dying from the consequences of Lucifer’s third attempt to become like the Originator. Mars was filled with millions of rampaging Merkabahs. In the creation of the Merkabah, love is involved internally and becomes the living field that surrounds the body. In the external method, love plays no part, only a calculating mind rules over everything. Because of this, there are only beings born with a developed left hemisphere, devoid of the emotional body and the concept of love.

A prime example of such beings is the descendants of the Martians and another of the alien races that appeared on Earth. The Martians arrived in Atlantis and brought with them the “Lucifer Syndrome”, which caused the greatest catastrophe on Earth. The Martians were completely deprived of their right

hemisphere, and therefore perceived all things with their minds alone, but were incapable of showing feelings, especially feelings of love. They are extremely selfish. Back on Mars, they were constantly at war and therefore destroyed their atmosphere, just as you are now destroying Earth's atmosphere.

They lost the ability to create internal Merkabahs so long ago that they have already forgotten how to do it. Creating such things requires an emotional body. Thanks to their immense intelligence, they created space-time machines. With their help, they looked into their future (your distant past) and saw the ideal landing place – the planet Earth, the land of the Atlanteans sixty-five thousand years ago. That's where more than a thousand Martians headed. Having landed on Earth against your will, they wanted to take you over right away, but their attempt failed because they were too few.

So they decided to take on the earthlings on the sly and began to imitate your "female" way of life, although they could neither understand nor accept it. This went on for 50,000 years. During this time their influence on humans became so strong that you largely changed your feminine orientation to a masculine one. They forcibly interfered with your evolutionary process and would have subjugated you if only they could have done so, but realizing their weakness they decided to tap into your evolutionary programme for a while and use it for large-scale intra-racial cloning to create the perfect super-intelligent and super-adaptable being.

For a long time, the relationship between the aliens and the Earthlings went relatively smoothly, until sixteen thousand years ago when a meteorite fell on Earth, causing the most damage in the exact spot where the Martians had settled. Much of the area went under water. For the surviving Martians, this was the final straw that overflowed the cup. Proponents of the outer Merkabah decided that from then on they would no longer go along with the Earthlings and decided to conduct an experiment similar to the one that devastated Mars a million years ago.

They still lacked the emotional body and love needed to create energy fields spinning in opposite directions, the very fields that underpin all life. The experiment got out of hand and opened up other spatial levels, causing parallel dimension beings and creatures that had no place here to flood into your world in an unstoppable and endless stream. Thus the Earth was transformed into a mad world.

Millions of beings of the fourth dimension endowed with telepathy and telekinesis abilities, capable to pass not only through the atmosphere but also freely penetrate into human mind, body and spirit of the Earth inhabitants, flooded all Space of the planet. Though the gaps in space the Martians made were repaired within the shortest possible time, the body of each inhabitant of Atlantis possessed up to a hundred astral spirits. The situation in Atlantis

became as critical as the one you find yourself in now.

The creatures of the Anti-World are still here, and in the body of every earthling there are if not a hundred of them, then there are always a few for sure. This unfortunate experiment took place sixteen thousand years ago, and the situation worsened over the next four thousand years. The Ascended Teachers, representatives of the highest level of Collective Consciousness ever attained on your planet, addressed the tenth, eleventh and twelfth overtones of the sixth dimension, asking for help.

Unable to simply destroy all Martians or expel all spirits, they sought a way to save the inhabitants of Earth. There is a unified consciousness in the higher dimension of life. And this unified consciousness recognizes neither duality nor illusion. It is quite clear there that the One Spirit pervades all things, and thus all things of the world are parts of the One Spirit. This was the main reason why the Ascended Teachers simply could not wipe out the Martians. This psychology of modern people is akin to the surgical approach: all that is sick must be removed so that the healthy can enjoy life.

The expulsion of Martians or their destruction would be a loss for everyone. The solution to this problem has been found during our present experiment: with the Transfiguration of people and their transfer of Consciousness to a higher level of existence – in the fourth dimension – Martians and other creatures of the Anti-World automatically lose all control over the human Consciousness and will have to seek other places and sources of existence.

That's why they come to the Earth so often and try by hook or by crook to take away with them as many people as possible to try to synthesize in a genetic way the qualities missing in their civilization – sexual and emotional energy. The mass mutilation of cattle and other animals by aliens is also the result of breeding activity of Martian aliens trying to understand the principle of sexual energy which they themselves lost long ago and continue their lineage only in a test-tube way.

They were originally created, like you, with astral bodies untainted by lower vibrations. But the “Lucifer syndrome” has isolated them from the One Reality. They have gone too far in their technocratic development and have driven themselves into an evolutionary dead end. Martians, having developed their level of intellect to the maximum, nevertheless cannot reach the next octave of existence, because only the qualities of Love can create the vibrations needed to penetrate this level.

Having realized their problem logically, they cannot “feel” their own way of creation and try, in vain, through large-scale cloning of themselves with earthlings, to find solutions to their problem. For a long time Martians have been trying to merge with your astrosomes according to the Law of Absorption and thus infuse their essence into you, hoping that in this case at least some

part of their super-intelligent individuality can be preserved and in further development prevail over sensuality.

In order to preserve their own gene pool, they have cloned many races of Earth and created many experimental human models in search of the perfect super being – a hybrid of human and Martian. Their embodied ideologues of the last century, such as Nietzsche, Hitler and the like, nearly pushed your civilization into a path of self-destruction. A few years ago these aliens were trying to provoke a rapid transition of the unprepared humanity to the level of the fourth dimension, which on the physical plane would mean your instant death.

Without consulting the Galactic Committee they tried, with their inexhaustible technical capabilities, to hurriedly build around the Earth their crystal lattice on the level of your lowest Consciousness and were ready to open many bilateral hyperspace tunnels into other dimensions. But being timely disclosed by us, these pernicious activities of the Martians have been foiled and all the window-tunnels have been sealed by the vibrations of Divine Love to which they have no access at all.

It was their last opportunity to influence the course of your evolution, because the Consciousness of mankind has already come close to taking control of things on its own planet. Although the activity of Martian aliens on Earth has now diminished considerably, this does not mean that the danger of any human contact with them has completely disappeared. Therefore, Brother Oris, I believe that people should know the whole truth and in possible contacts with Martians be very careful not to be seduced by their promises and benefits that usually concern only material side of life: successes in science, possibility to conduct research in Cosmos and on other planets, disclosure of technical secrets and mysteries, material provision, success in business and politics, etc.

Here are some external distinguishing features of Martian aliens: average or short stature with clearly visible physical signs of dystrophy (very thin disproportionate body with skinny long limbs and neck), narrow slanted eyes, excessively large skull with low set ears and absence of any signs of vegetation. Skin colour is all shades of grey. During contact there is usually a feeling of anxiety, fear and worry, a feeling of depression and insecurity, and after contact there is exhaustion and depression, emotional fatigue and unrelieved severe headaches.

The Universal Consciousness allows such behaviour and does not forbid their attempts to find their way to survival only because since the Martians came to Earth, human history has been very closely intertwined with their Karma. Furthermore, their experience may prove very useful to other cosmic civilizations caught in a similar stalemate due to Lucifer Syndrome. There are now about ten extraterrestrial cosmic races already involved in this evolutionary

drama.

The universe has to find a vaccine against the contagion so thoughtlessly sown by Lucifer. On a similar path of rational development many civilizations of our universe had already taken, but each time this only had disastrous consequences. The matter is that the stellar gates of higher dimensions were created with the expectation that highly spiritual emotions are needed for passing through them. The Lucifer Syndrome has caused the death of many planets and even huge sectors of the living Cosmos.

Relying only on Reason and logic, the Martians, like many others, only destroyed their planet, and when they arrived on Earth at the time of Atlantis, they infected you Earthlings with this disease as well. We hope that we shall succeed in curing you completely of this contagion. Well that is all I wish to add, Brother Oris, to the information you have chosen to give in this book. I know that you will be able to express it with your own precision. Now as never before we must be as vigilant as possible and forestall all possible attempts of destructive forces to disturb the healing process taking place in the Earth Consciousness on the eve of its quantum Transformation.

Happy 1998 to you, earthlings! I wish you all to regard all events occurring in your lives with optimism only, no matter how hard they may seem to you. The level of your awareness does not allow you to judge correctly about the essence of all changing happenings on the Earth, that is why be patient, rely on the justice of God's Providence and regard everything what happens with joyful expectation, as to your last and the most difficult final exam in the Earthly School of Life. See you soon in the Cities of Light!

SECOND MAKKEARLAND'S MESSAGE – THE CREW COMMANDER OF THE STARSHIP «RAMAX-01SL SIRIUS-B»

(TP-contact of 15.01.1998)

My crew and I, Makkearland, are pleased to welcome you, Brother Oris! We have once again entered the range of frequencies that allow us to communicate with you and pass on information useful to you and to humans alike. Let us begin with your perceptions of our names. We, i.e. civilizations which are developing in the field of Time of the star systems Sirius-A and Sirius-B, as well as civilizations with a high level of development of many other systems, use hieroglyphic forms of writing, without using any particular set of symbols or alphabet.

Information transmitted, as you have on Earth, by means of alphabets or sounds, is very limiting for communication between two sentient beings and can be interpreted very differently. A word is a combination of sounds, each of which is similar to a certain wavelength and contains within it a certain character of vibrations – the same as a graphic representation of waves, only for a different type of perception, which we have long ago disappeared due to evolution. The graphic representation of the numerical series is acceptable only to you, earthmen, for the civilization of the planet of the 23rd group of the paired series, which has various types and diverse styles of thinking with the dominant as yet figurative type of perception of information through beams of contacts from the Cosmos.

Now I will try to give you the information in the volumetric symbols of numerical series, which you can translate into the form of graphic image. (What I internally felt, saw or rather felt afterwards could be written approximately so: edin, uva, ter, quart, penta, seit, swent...it is not clear what should correspond to 1,2,3,4,5,6,7 according to their understanding...).). In our case, each symbol carries the information that was written at the time it was written.

The process of recording a symbol is also the end of coding information, and in order to decipher it, one must have the key to the code, which can only be learned by meditative means, as figurative information is the only type of unambiguously perceived information. But even the communication by sounds is seldom used with us and some civilizations do not have it at all. For every thing or concept there is an emotional pattern, or if I may say so, a sensual colouring. This system of communication is accepted among most developed civilizations and not only in this Universe.

But in order to communicate with civilizations like the Earth's we have to

undergo special training and learn the language. The same (and much more) must be done by volunteers who, like you, have volunteered to incarnate on this planet to help people in their development. Usually such schools are organized on planets with social and moral characteristics similar to the planet of incarnation.

So, you and our Sister Anaaella, before coming to Earth, were trained for a long time on a number of planets in the Orion system (before it was taken over by the aggressors from Lyra). It is not easy to master skills of very difficult human speech, that is why we try to transfer information to Earth through field covers of our mediators, who then transform these impulses to language symbols in their brain. After reading your books I would like to notice that our names, which you mention as a source of received information, when written on paper using your alphabet, completely lose their true original meaning, which can be determined only by the range of sounding with the help of special method of meditation.

The sound that emerges when you pronounce the letter combination “Makkearland” written down by you says absolutely nothing as if it were simply No. 1 or No. 2. The same applies to your real name, which you pronounce as “Oris” but which in fact represents some very definite volume and type of energy with a lot of information recorded in it about an Entity that has evolved as a carrier and reflection of a Higher Intelligence for many billions of years. Our civilization which you also belong to is more than 15 billion units of time older than the earth civilization. Changes in the information encoded in the name are made on a special Council approximately once every 100-150 thousand c. u. Time, depending on the intensity of the level increase of Consciousness of each particular individual.

But there are some exceptions. After your more than 2000 years on Earth, when you return to Sirius, your name will also be recoded and all the information obtained during your stay in various Spaces of this planet will be written into it. Now, Brother Oris, let’s talk about your books of the Life Between Lives series. You know, I like this title, because when you speak about Death and posthumous existence, first of all you speak to people about their Life, regardless of whether it occurs after birth or after Death. For in Life – as in the way of Existence of Consciousness – everything is interconnected and you are absolutely right stating that nothing dies or turns into dust: neither physical Matter, nor Matter of Thought.

Only the outer shell of the manifestation of these and other kinds of Matter changes, or rather modifies, but there is no parallel in them – they are interdependent, interpenetrable and intersubjective. It has always been like this, it is like this and it will always be like this. In the concept of Matter there is neither primary nor secondary origin. There are only its various types or kinds which give rise to a diversity of forms, and all sorts of signs of “external” and “hidden” manifestations thereof. All your field energy-information

structures, or as you call them “Souls”, are linked together like the fingers of a hand in a lock.

Only the outer shells or what you call ‘the dense body’ change if the soul exhausts itself in the given manifestation and the nature of the interrelation between these energy-informational systems. Why is there such a lively story among people about the Soul **BEGINNING** the perishable body of a deceased? Look at this event from the other side: in its entire essence the soul itself bears a combination of two kinds of matter – physical and mental matter, which can neither be destroyed nor annihilated in any way. The third kind – Matter of the senses – appears only as a derivative of these two.

Life of the Soul is the interpenetration of the three main Forces of Life: the Power of Spirit, the Power of Mind and the Power of Love. This triunity is not a dead union; each of these Forces develops according to the general laws and individual peculiarities of each individual Soul, being in constant conflict and commonwealth with the other two Forces. This is the source of the origin and the driving energy for the development of the third, derivative kind of Soul Matter – the Matter of the Senses, the Matter of the perception of the Soul as itself in itself, as itself in the surrounding World and as the surrounding World in itself.

Only this kind of Matter is capable of disconnecting or combining all the energy-information systems (Souls) into one whole, of seeing, hearing and feeling what cannot be seen and understood by the Mind, if it does not fall within the limits of its understanding. That is why when you say that at the time of Death the Soul “leaves” the physical body, it is not quite true, because nobody actually leaves anything, but there is only a transmutation of Matter in itself.

During the so-called “biological Death” of man some energy-information structures of the biological and thinking system disintegrate into components, releasing a huge amount of energy. This energy itself has a certain frequency shift in time phase, and all the released energy is distributed between the other biological – thinking systems that have just entered the vibrations of the Physical plane, i.e. people born again on the Earth. The vortex bioenergetic axes of time fields of each deceased person with information encoded on them go into what you call Noosphere and we call ‘the second New Age factor’”.

The moment from birth to death is the first new age factor that is in very close relationship to the physical existence of every bio-minded system, especially up to the point where the field shell program is recoded for autonomous existence. This factor is born out of swirling bioenergetic currents that add up to form a powerful directed bundle of energy. The cochlea of Time of the first Newtonian factor decreases in the anticlockwise direction.

At the moment of so-called ‘death’ there is a disruption of the shells from this small axis. If you move through the first zero, the shell simply closes in on

itself, and if you move through the second zero, its recoding takes place, after which the field shell goes to the time factors, but in no case this can happen on the time axis itself. Each of the temporal axes is surrounded by countless factor axes, which also have an energy-time basis. The field envelope is then stabilized and further modified.

- Brother Makkearland, I understand all this but my books are intended for such an untrained level of human Consciousness that if I try to explain it as it is in reality, not many untrained people will be able to understand correctly all these transmutations, transcendences, correlations and differentiations of Consciousness and my task will not be fulfilled. I try to leave as less unclear and frightening as possible in the notion of Death for millions of people of the Earth. Please tell me if you have such a notion – Death?

- I think you have already written about this somewhere in your next books, but I will still repeat it. The field shell of humans, or what you call the “Soul”, has much in common with our field structure, but only in the energetic and informational plane. But as a result of the mutations that suddenly appeared in your development, which began after the explosion on the Earth, biological thinking systems began to appear, in which the field shell, unlike ours, energetically finite, became practically infinite or as you call it ‘immortal’”.

We are very seriously investigating this phenomenon, which has become a mass phenomenon over the last millennia. Fortunately, such unique qualities are obtained not by all mankind, but only by those whose Consciousnesses have crossed the threshold of being a real threat or danger to the surrounding Cosmos, i.e. the Consciousnesses of people with sufficiently high spiritual development. This is very important for us because acquiring such qualities from you – our direct ancestors (and descendants at the same time) may very well influence our further Evolution.

As to the direct answer to your question, I will answer: yes, an individual may **PHYSICALLY** “die” too, but his/her intellectual potential remains intact and is passed on either to another or to everyone else. As regards the terms of physical life, everyone can decide for himself how he wants to live in a “dense” body for 2000 years or 3000 years or more. But in terms of our Life and Death, **AS YOU UNDERSTAND**, the dates of our “physical” incarnations do not play any significant role, because most of our existence anyway we spend on much higher energy levels than those which form the basis of even the highest vibrations of your Astral. Though, I have to say about that, it is not customary for us to treat our outer shells so wastefully and unreasonably as you do. To understand this, you should not forget that we do not really have such concepts as Time and Space.

We use these terms only to enter the circle of your, still very limited, ideas about the world around us. We can be at any point in Space and Time, being at the same time **OUT OF THEM**. It's still difficult for you to understand it. Right now, at the moment when we are having this conversation, I am in your Solar System, though in fact I have not been there for billions of years. In fact, I'm **EVERYWHERE** right now. And our starship is just a Thoughtform of our **VISIBLE** presence here.

How can I explain it more popularly? Well, Brother Oris, when you abide on other planets and other Worlds, do you **AT ALL** leave Earth? Besides staying with your physical shell **HERE** you are at the same time with your astral shell in a completely different World, with your mental shell somewhere else in another point of the Galaxy, and with your more spiritual shells you are somewhere in yet higher-level organized Creations.

As you already know, the concept of Time includes the concept of time. For you, Time is something irreversible, while we know how to manage Time as we see fit. If we would like, we could send the Earth together with all its present humanity back to its initial state, but we do not do it because after the explosion on your planet and its considerable decrease in size, on the surface of the Earth there have formed more favorable conditions for your spiritual development and we have obtained an opportunity to carefully study and trace in all nuances all your Evolution.

But first of all, the very close attention to you from many highly advanced civilizations of Cosmos is connected with the changes which have occurred after the explosion with your biological and field structures as well as with your entire sexual system, which is very closely linked with them. When we succeed in raising the Human Consciousness to the necessary level and when it can consciously manage its two structural units – protein and field – it will be able, as we do, to travel enormous distances without using any technical devices for that purpose.

We presume it will happen not earlier than 2005-2010, and then it will be possible to enter into closer Contact between us and you, without fear that you will use it to your detriment. Brother Oris, you know the laws of self-consciousness and self-development, you know the general principles of the birth of Space and of all that exists within it, and finally you know not only what triggers the development of the fields of Space-time and planetary systems, your planet, civilizations and personality separately, but also the general laws of their development, and what and how influences the character and pattern of each Consciousness and each event.

Beginning to incarnate here on the Earth three thousand years ago, you learned for a long time to penetrate the mysteries of religious principles and, being under the beneficial influence of the Christ Consciousness, you cognized

About the author

During his creative life Oris has written about 100 books on spiritual-philosophical and esoteric topics, as well as on the mental and spiritual relationship between the human energy-structure and the energy-structure of the universe.

A large part of Oris's life is devoted to spiritual creativity through writing books on cosmological subjects. In them the author uncovers such matters, which no one has ever touched so deeply and in such detail before. As early as 1996 Oris managed to find his Spiritual Mission, which he is tirelessly pursuing to the present day.

Oris was born on 25 January 1954 in small Ukrainian village of Maryinka in the Donetsk region in the family of a miner and a nurse.

From an early age (at the age of three) Oris developed an intuitive gift for writing poetry. Oris read out his first poem «Zhen-shen» at the age of 3 to his mother, who wrote it down, because he couldn't write yet.

He also possessed medial abilities from an early age: he could spontaneously «see» dynamic pictures of events and episodes from other people's personal lives, the authenticity of which was often later proven.

As a preschooler, Oris would periodically warn the children of impending contingencies when they were up to some mischief, and at school he knew who would be called to the blackboard and warned his classmates about it. He also knew in advance which boys and girls would be sympathetic to one another and which not.

Oris's first poems, from the age of 6, were published in the Maryinsky district

newspaper. In addition, Oris was good at drawing: 14 portraits of Ukrainian and Russian writers, which he painted in the 3rd grade, decorated the walls of the school corridor.

In 1971, Oris graduated from the 10th grade, worked as an instructor of physical education in Maryinsky Raypotrebsoyuz, and in 1973 he entered the Faculty of Agronomy of the Crimean Agricultural Institute, graduating in 1978. After 4 years of professional activity on the South Coast of Crimea (Yalta), he became the director of sports and recreation base (village of Ponizovka), belonging to two Moscow research and production associations - «Measuring Equipment» and «Energy», serving the space industry. He resigned in 1990 to pursue his literary career.

As a teenager, Oris became very interested in martial arts: karate (Kyokushinkai), kung fu (dim mak - «the art of the poisonous hand», Wing Chun, Zui Quan), judo, sambo and others. Later, in 1975 he achieved a black belt in martial arts and in 1979 in Yalta at the Ministry of Internal Affairs he opened a martial arts section and hand-to-hand fighting.

From this period (1975), while still a student at the Institute, he worked for 15 years on writing several books series about martial arts. Three volume textbook on karate and Dim-Mak Art titled «Karate Way - from Student to Master» was colourfully designed and published in Moscow in 1992. During these years a separate book «Dim Mak - the art of poisonous hand» was published in Moscow. A second cycle consisting of more than 20 books under the general title «Initiation or the Path of a warrior» was written during this period, but it was not published in the USSR because the author had no higher physical education. For this reason in 1982 Oris entered Simferopol State University, but in the 4th year he left the University for family reasons (due to the birth of his son Yaroslav in 1983) and because of perestroika.

During his work on the book cycle 'Initiation or the Path of a Warrior', Oris (in a state of deep meditation) first inadvertently came into Contact with his Spiritual Teachers, after which he regularly received the information that formed the basis of the most unique book series 'Life between Live's and all the books subsequently written by him.

Then begins a more intense Spiritual Path for Oris, marked by a turning point in his life due to the urgent need arising in his Consciousness to find Himself and his Spiritual role in life.

He went as a hermit to a cave in 1996 from which he had no plans to return. There, in the cave, deep Spiritual revelations came to him, as well as information about his past (parallel) lives. Some of these inner experiences Oris described in poems, which have been published in a separate collection. On the basis of the contacts with his Spiritual Teachers during this period (after 40 days of taking only water), having learned his Purpose in life, he returns home with a renewed Self-consciousness, after which a new Spiritual phase begins in his life: within four years he writes more than 40 books, which are combined into several cycles with the following

titles: «Life Between Lives», «The Art of Dying» and «Extraterrestrial Contacts».

After 2000 he began to write texts to the melodies of Soviet hit songs, in which he expressed the whole quintessence of his spiritual conclusions and thoughts, emphasizing the role of Love, Kindness, Mercy and all Human qualities and feelings, which people so often forget in their everyday life.

Also after 4 consecutive Spiritual Initiations (from 1996 to 2000) Oris gets access to more true and authentic information about the structure of the Universe and the role of human in it, which he reveals in the book series called «lissiidi», «The Great Message», «Immortality is available to everyone» and «lissiidiology Fundamentals». These book series are written as the quality of information that Oris received becomes more and more complex because it comes from deeper and deeper levels of the collective Subconsciousness. These more profound and insightful conceptions form basis of his own Self-Consciousness and he begins to find answers to complex cosmological questions that until then were expected to remain unanswered for people for many decades to come.

A more detailed and complete list of all books written by Oris is set out below. They are presented in chronological order as books were written.

A collection of poems «40 days of Hermitage»

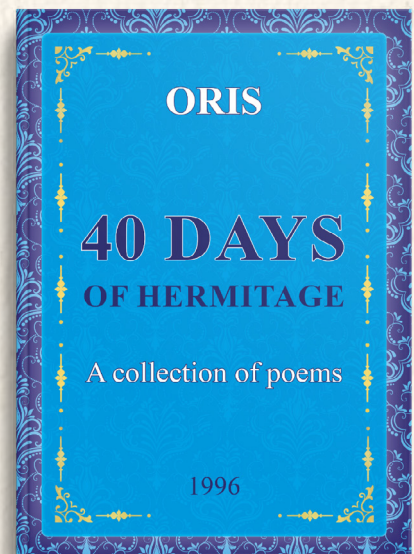

Yalta, 1996

Pages: 47

All poems in this book were written by Oris in 1996 in the Ai-Petri mountains, when he voluntarily took a vow of silence and lived for 40 days in a mountain forest, in a small space dug with a tin can between two rocks supporting each other, completely refusing food and any communication with people.

His inner reason for going to the mountains was the pressing, unyielding need in his Soul to try to cognize the Meaning of his present existence as deeply as possible and, if possible, to try to find the Essence of his own Spiritual Destination by conducting an inner dialog with his «Higher Self» and seeking opportunities to understand himself...

This book also contains an audio recording of these poems, which Oris recorded onto a tape recorder during this act of hermitage.

Thought and Meditation

Yalta, 1997

Pages:

Thoughts, unlike objects, do not belong to you: they come from somewhere else all the time, stay and interact with your Consciousness for a while, and then imperceptibly disappear to somewhere. Your thinking is the process of continuously synthesizing in your reality newer and newer Forms from the already known to you mental and sensual experience. Therefore for you the thinking process represents the «beginning» and the «end» of absolutely all of your desires - from getting some material benefits to achieving «higher» (according to your concepts) spiritual goals.

By mastering the art of mental transformations, you will have an absolutely real means of consciously controlling the material conditions of your earthly existence. By improving in this direction, your mentality can reach the point where it becomes possible to control the powerful factors of the natural elements of Nature, influencing not only the weather, but also such destructive phenomena as tornadoes, tornadoes, earthquakes, tsunamis with the power of your Mind...

Book series «Life between Lives»

Yalta, 1997-1998

What Oris writes about in this book series is the most detailed description ever written by human about the entire sequence of events undergone by the Consciousness of a dead person when he returns to his Heavenly Home, which has so many «abodes» that it is impossible for an ordinary person to even imagine.

Oris, using his many years of individual experience of astral travel, describes in detail the Astral and Mental realities he has explored, transforming the Incomprehensibly-Cognizable Existence into Knowledge that is comprehensible to almost every person, which leads readers to a gradual realization of the immutable Truth of their infinite Cosmic Existence.

Book 1. «Life without death» («The spirit of death»)

Yalta, 1997

 **Pages:**

 Who are you? How and why did you come to this cruel and alien world? Where will you go and how will you live after your loved ones have said good-buy to you on this earth? And will you really exist after that? These are constant questions. But they have answers. The secret of life and death irresistibly draws man to the realization of what he has long known, but what has remained a mystery and unknown.

If you need answers to these eternal questions, if you can no longer live without understanding them, then this source of knowledge is for you.

Book 2. «Soul and the Cosmos»

Yalta, 1997

 Pages:

 When confronted with the constant choice between Good and Evil, man is lost and does not always think about whom exactly with his every choice and action he serves: God or Satan? To help the reader to choose, the author tells in details about Egregors - astral entities, adapted to living in both as in positive so and in negative poles of Existense, which are mainly determined by the nature of Egregor itself.

 The author helps to understand all the subtleties of this topic, showing using examples the activity of «devil's Egregors», explains to what can lead the spiritual ignorance and thoughtless worship of material symbols, which all lower the human consciousness to the level of sorcerers, magicians and so-called non-humans.

How can we cleanse ourselves from the astral dirt of our own ignorance, which degrades our spiritual Essence and puts us on the same level as wild animals? How can we in Life take care of favorable conditions of our postmortem existence? This and much more is discussed by Oris in his second book «Soul and the Cosmos».

Book 3. «Soul in other Worlds»

Yalta, 1997

Pages:

Always when people speak of «other cosmic thinking civilizations» they usually mean either the intelligent populations of other planets, the so-called «brothers in mind» or something very abstract and vague. But for some reason no one ever thought that these very «thinking civilizations» could be OURSELF, but only OURSELF located at other levels of OUR development, in other conditions of Existence, in the past or future space-time structure, in other circles of OUR human civilization's time field.

All so-called «other worlds» should not be perceived as something alien and unknown. There is no dividing barrier between «this World» and the many «other Worlds». On the contrary, all that exists is one single Divine Being.

You will learn about this and much more from the third book «Soul in other Worlds».

 This book may seem unbelievable and dreamy to the reader, but those who have ears to hear will find confirmation of their thoughts and hopes and proof that we are not the only people in the cosmos.

The time has come to meet those who have been invisibly present around us for millions of years, sending signals of their invisible existence. May each of you perceive this book the way he or she feels! For some, it may be perceived as a fairy tale, and for others, as information for reflection or as a guide. In this way, the main goal of this book will be achieved, because you will know the Truth, and what to do with that Truth is everyone's personal choice.

This book represents the least amount of information about the author's many Contacts with other cosmic civilizations and the information that has been received from Those whom the author calls The Universal Teachers.

Book 5. «The technique of Astro-Travel. Chakrams»

Yalta, 1998

Pages:

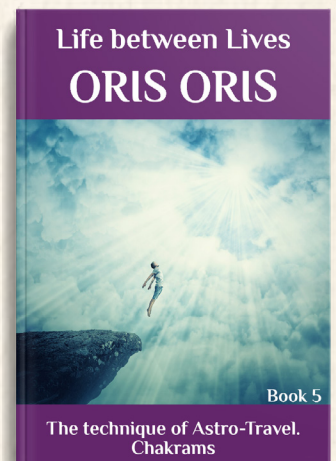

In this book the author continues his exploration of the world around us and tries to unravel one of the most unexplored mysteries of nature – the human. After all, only by knowing ourselves we can come closer to knowing God and His Mysteries.

Who are you and what are you doing on this planet? What is the point of your being here? Where will you go after people say about you, «He's dead...»? And in general, will there be anything left after Death other than the memory of you? All these questions will be answered through the author of this book by his Teacher, who has undertaken the mission to give a thorough introduction to the mankind on Earth to the problem of so called «post-death existence» of a human.

Book 7. «Soul in the Zodiac»

Yalta, 1998

Pages:

In this book the author tells us that the entire world around us is a single system, and the parts of which are in very close relationships and interconnections, and that the entire Universe is subject to unified rhythms and unified cycles. Some of these cycles began at the creation of the Worlds and determine the Evolution of the Universe as a whole. Others determine the course of geological processes that change the face of our planet and, in turn, also affect the development of all mankind, the emergence and collapse of terrestrial civilizations.

The nature of all these influences, both global and individual rhythms, on the objects of the World is determined by the laws of the Zodiac, whose symbolism is much deeper than many novice astrologers think. In addition, in each cycle we can distinguish twelve basic and twelve current phases or micro-cycles, the characteristics of which are also associated with the passage of the Soul along different qualities and with the zodiac symbolism.

This book, as well as all the other books by Oris, is intended for those readers who seriously, deeply and with a sincere desire want to understand on their own everything that relates to the problems of Life and Death, who see in their impending Death not the most terrible and dangerous enemy, but on the contrary, a reliable adviser and a friend.

With Oris's books, Death is transformed from a frightening adversary, from an unfortunate failure or fatal mistake in the Universe into one more, another Transfiguration, to which we have already been subjected more than once.

Book 8. «The art of dying»

This book consists of 5 parts.

Pages:

The author has tried to give the most detailed answers to specific questions through his many years of experience of independent out-of-body explorations of the Ethereal World: how to die correctly? How to learn to accept your death in time? How the transformation of subtle bodies takes place during the post-mortem transition?

This book, describing in the most detailed way the changing state of a person's Consciousness during the process called «dying» and his Soul's presence in various

vibrations of the energies of the Astral, is also a kind of manual of religious therapy and eschatological psychosurgery, carried out through the most detailed texts of “Instructions” read by relatives for the dying ones or an already dead person in order to strengthen and awaken his Consciousness before the Transition to the Other World.

Among other things, this book can safely be classified as one of the most detailed travel guides to the many realms and spheres of the Ethereal World, which we commonly refer to as the «afterlife».

forgetting that in the next moment they may not have that «later» at all. How many lost opportunities for the most simple manifestation of Kindness and Love towards each other have never been realized, and how many unspoken beautiful words have fallen into nothing!

Fear of Death is the individual's fear of losing himself, the fear of the need for further evolution. Man is most afraid of the unknown, but it is the unknown that makes a man to conquer his fear again and again. Many people are totally unaware of the infinite variety of levels of Consciousness in their own nature and whatever the author of this book may say to them about it, it will still not help them to understand it.

But there is still a small, even a tiny one-thousandth part of humanity which is the reason why all this knowledge about the true picture of Existence after Death is given. For the Transfiguration of this small part of mankind a small group of Star-Born Ones have specially incarnated and agreed to become conductors between the awakening Consciousnesses of the Earth and the Consciousnesses of the spiritual Teachers from Sirius and Pleiades. To each thousandth of the incarnate Earth's humanity Oris addresses in his books.

«Extraterrestrial Contacts»

In today's world there is a lot of information about UFOs, about the meetings of individuals and even whole governments with aliens, as well as materials of telepathic Contacts with representatives of various extraterrestrial civilizations, etc. Unfortunately this information, while passing through different dimensions to us, in our three-dimensional world, is often subject to very strong distortions and is very often misunderstood by us due to the specifics of our three-dimensional way of thinking.

Offered to you materials of Oris's Contacts with the commanders and crew members of the Sirius-A and Sirius-B starships, as well as with other extraterrestrial Consciousnesses and Civilizations, including the Consciousness of Christ, Lord Maitreya, God of the Sun (the Logos of our Solar System), Elohim (the Creators of our Universe), and the four Archangels (Michael, Uriil, Gabriel and Metatron), are unique because they are literally received «first-hand» and contain very valuable information, useful for all humanity, which lives on the eve of the Transfiguration of the Earth.

The Pleadians and Siriusians, who are the true spiritual Teachers of Earth's humanity, are happy to share with us the knowledge without which we earthlings cannot emerge from the endless series of earthly incarnations and join as equals the extraterrestrial civilizations that are part of the «Commonwealth of the Light Ring» on the expanses of Cosmic and Galactic Creativity.

About this and much more you can learn from this book series called «Extraterrestrial Contacts».

Book 1. «Teachers from Pleiades report»

Yalta, 1998

Pages:

Such concepts as «Cosmos», «Higher Intelligence», «UFOs», «aliens», etc. have now firmly established in our Consciousness, and we can no longer imagine ourselves, our planet and our entire existence in isolation from the rest of the universe, from the hope of a promising direct contact with brothers in Mind.

Who are they, our teachers, what do they teach, what do they look like, and what do they want from us? In this book you will find answers to these and many other questions.

In this book, the Pleiadians and Siriusians, who are the true spiritual Teachers of mankind, gladly share their knowledge with us, without which we, the earthlings, would not be able in the very short time that remains before the Transfiguration to come out of the many thousands of years of hibernation and to make the necessary number of timeless passages in the impermeable thickness of the Collective Consciousness, necessary for the so called «shift of the paradigm».

Book 3. «The crew of the Starship Sirius-B reports»

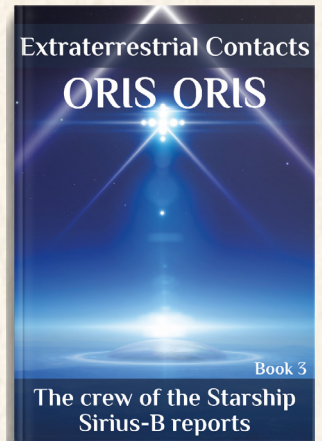

Yalta, 1998

Pages:

The next ten to fifteen years are predicted by extraterrestrials to be very informative and interesting for humanity. We will see how our so-called «unshakable reality» will begin to be rapidly turned upside down before our very eyes. Already the world does not seem as solid and unbreakable as it once did. And very soon we will all be witnesses and direct participants in a worldwide spectacle of Chaos and Confusion. The foundations of all our cultural, religious, philosophical, and scientific Paradigms, which have served us so far invariably as an image of the «real» World, in a matter of years, will crack and begin to crumble before our very eyes.

The reality of the New Age is within us, and main changes that we have to make must affect primarily our inner content, which, by freeing the Divine Light of our Souls from the millennia-old oppression of the Matter, will turn the mustiness and decay of our earthly cities into the unearthly glow of Beauty, which overflows the Cities of Light of the new, transfigured Earth.

Book 4. «The Teachers of the humanity report»

Yalta, 1998

Pages:

Throughout all the history the humanity has been narrowing its perception of the Worlds from multidimensional, which includes all the subtle-material Spheres of the Astral, to three-dimensional, rough-material Level, thus not only limiting itself in the better understanding of the world around, but also completely destroying the possibility of free contact with the Consciousnesses of hundreds of thousands of other space civilizations, who actively create and work in the Cosmos.

Representatives of many of these Intelligent Civilizations have practically never left our planet, while other Higher Entities have been incarnated among people only for several millennia.

They have voluntarily shared and continue to share with us all the burdens of earthly incarnations and the very heavy human Karma, only to help with their Knowledge of the Truth and their personal experience, so that the people of Earth could more rapidly climb the steep steps of the Evolution Stairs.

Book 5. «Extraterrestrials»

Yalta, 1998

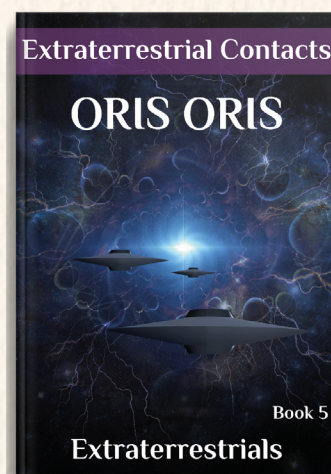

Pages:

They, the extraterrestrials, are working on our planet neither to conquer nor to enslave it, but with one single goal in mind: to slow down our rapid fall into the abyss of self-destruction, trying to bring to our Consciousnesses the moral, spiritual, social and scientific values accepted in the civilized Cosmos.

Those few people who are able to perceive their Word of Truth do everything possible, even impossible, to bring it to the half-asleep Consciousnesses of the rest of mankind.

Many «extraterrestrials» from Pleiades, Sirius, Andromeda and other civilizations of the «Light Ring» have been living among us for thousands of years, voluntarily giving up being in the Worlds of higher dimensions, just so that we, people of Earth, did not remain completely cut off from the Source, from Which all of us have come out, and to illuminate with the Knowledge of Truth the Path of spiritual ascent for Consciousnesses who no longer wish to

abide in the sleep of illusion and the darkness of ignorance. The Books of Oris are an example of this Service.

Book 6. «On the eve of Armageddon»

Yalta, August 1998

Pages:

This book, in its uniqueness and value of the information it contains, is on par with the other Oris's books, continuing the subject of Contacts with Representatives of Worlds of Higher Levels of Existence.

Does The Christ Himself communicate with many people on the eve of the so-called «Last Judgment» transmitting specific recommendations? Has the Mother of God appeared to many to show them the way to salvation through Her Word in these terrible days of the approaching disasters and cataclysms? You just stop for a minute and delve into the rank of Those Who appeal to you – the Christ and the Queen of Heaven!

To ignore this information would be to close one's eyes, on the edge of the precipice, at the risk of being crushed to death. Is that what you want? Then read carefully, absorb and, opening the eyes of your Heart, draw your own conclusions.

CONTENTS:

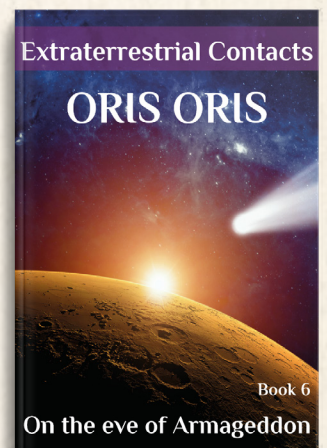

On the Eve of Armageddon

Second Message of Christ, Lord Maitreya

Commandments of Christ

The Word of the Queen of Heaven to the Adam's family

Oris's answers to the questions of the Swiss group of Star-Born

Book 7. «The beginning of Armageddon»

Yalta, September 1998

Pages:

The beginning of the Age of Aquarius. Nostradamus wrote: «I see a reborn and renewed Christ coming. And then there will come a long peace, unity and harmony among the generations of several races».

The process of division of people depending on the quality of their Consciousness has already begun rapidly around the world. It will soon lead to the final separation of mankind not by national, religious or party affiliation, but by the quality of their spiritual vibrations. People had more than enough time to change their lives for the better. But now there is no time even for a reflection.

Very soon there will be the first cataclysm of an unprecedented force, which will not only change the circumference of the Earth, but will also shift its magnetic poles. The Earth's axis, which is already in an unbalanced state, will change

and all this will cause continuous, endless cataclysms. Earthquakes and floods will become a common thing, and long and extensive fires will engulf the entire planet.

Today we are no longer «slipping into the abyss» or «standing on its edge», as economists and politicians reassure us; we are already flying into the abyss with great acceleration, and no one gave us wings to wave and soar upward to avoid death, or rather, God in fact did, but we have all forgotten about them.

Holy Mother of God, save us! - This is what the prayer to the Blessed Virgin asks for. But the same people disbelieve and slander, avoid and remain indifferent when the Living Virgin herself speaks to them and tells them about the ways of their salvation. «Hypocrites», says the Queen of Heaven to them, «get to know what Heaven looks like, and why do you not know the signs of the times? Prepare yourselves, people, as truly the day and hour of the Judgment of this world has already come».

In August Our Lady transmitted the first part of Her «WORD» through Oris, and on January 13 and 19, 1999, through the same channel She transmitted the next two parts and commanded to compose from Her «Word» a supranational «Gospel of Transfiguration», which was published as a separate book «The Gospel of Transfiguration by the Mother of God» (see below).

«Muladhara chakra (Argllaamuni-lissiidi)»

Yalta, 2000

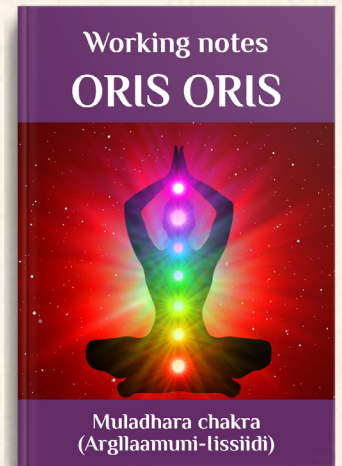

Pages:

Functionally, the Argllaamuni-center (Muladhara) is closely connected with the psychological abilities of the physical body, which provide survival of the physical body and protection of a person from unfavorable external influences. A big role in the activation of the whole immune system belongs to this lower center. Its normal functioning gives a sense of physical health, well-being, self-confidence and stability.

Imbalance and all kinds of muladhara «breakdowns» in the Aura, lead to the constant outflow of these energies and can cause a feel of insecurity, deep depression, lack of willpower, a sharp decline and energy loss, increased soreness in the lower and middle parts of the body, despondency and melancholy. This is particularly typical for those, who have not yet opened the karmic channels of the heart center or if karmic channels of the heart center are very weakly activated, which in order to switch the person to completely higher, spiritual levels of feeling and thinking. In such cases a person loses the purpose of his Life, as if he loses his roots and, purely intuitively, following the consciousnesses of the organs and body systems, completely surrenders himself to the satisfaction of his own lower desires in order to replenish the energies of the Argllaamuni center.

«Svadhithana chakra (Inglimilissa-lissiidi)»

Yalta, 2000

Pages:

The weaknesses of our sex education have led to the fact that most people, even if they feel a deep sensual attraction, instead of beginning a heartfelt spiritual exploration of each other in the process of intimate interaction and accumulation of sexual energy, instead, close their heart centers and turn the unique opportunity of highly sensual admiration into a trivial sexual act.

Unfortunately, the creators of the lower-astral and dense-material types of Reality benefit greatly from the fact that the prevailing majority of people completely incorrectly and perversely understand the very essence of SEXUAL INTERACTION. Sexual interaction in fact is a spiritual intimate process which, if properly understood, contributes to a stronger contact between a person and his inner Essence and contributes to a more highly-sensual and deeply soulful manifestation of the person.

Love is the real Symbol of the Age of Transfiguration that is coming on Earth! And the mysterious «sacred key» to the Gate of Spiritual Transformation is not somewhere in the cosmic infinity and unfathomable unknown, beyond our psychic capabilities, but in fact is located quite «nearby», or rather, in our own heart center AIGLILLIA, which is filled with the highest vibrations of Love literally towards every manifested aspect of the Life around us, including the strongest of all – the sexual one.

Book series «ISSIIDL»

This series of books, from the first to the last pages, includes the most unique in meaning and the most important information, accepted by Oris after the year 2000 during his next direct Contacts with the Creators of Humanity: Algellis (Argllaamuni and Inglmilissa iissiidi centers), lillgmmii-I, (Aigllilliaa and Orlaaktor iissiidi) Lua-Andis (Ulgluu and Ssaassfati iissiidi), Greyli-Vin (Olgoolloni and Aani lissiidi), Slliargsmiii (Raaklima and Uluuguma lissiidi), Sslaaiingsa (Svaagali and Eyyaaa lissiidi) and Ssniillgsa. These Cosmic Entities represent personal Interpretations of Oris at the levels of the collective Subconsciousness, Supraconsciousness, Ultraconsciousness, Superconsciousness, Hyperconsciousness, Proconsciousness and Protoconsciousness. The detailed Knowledge of such a high Buddhist level, for many evolutionary reasons, has never before was accessible to humans or even the spiritual Initiates of the 3-4 Planetary Initiations.

Only because of the spiritual transformations which have intensively begun on Earth and because of the preparation of the collective Consciousness of mankind for the act of Transfiguration this Knowledge is now being transmitted to those of earthmen who are ALREADY spiritually mature for its proper understanding and comprehension and who are eager to use it to continue their further Path of mastering and accumulating the entire experience of incarnated earthly existence as swiftly and as effectively as possible.

In none of the astral or written sources on our planet there is even a mention or a distant analogy of this Teaching, because the degree of admission to it requires from the spiritual seeker an active self-discovery and prolonged experience of conscious existence at the causal-buddhich level, as well as an experience of being outside the physical shell for long time.

Oris deliberately integrated all the Knowledge he received - the «Teaching about chakram personalities» - only onto the highest ajna-vishuddha levels of the collective Consciousness of the planet, because further adaptation of these highly spiritual codes to the generally accessible understanding would lead to a significant decrease in their degree of authenticity. Therefore this information can be productively assimilated only by people with actively developed over diaphragmatic psychic centers. For them and ONLY FOR THEM the Spiritual Teachers from Pleiades transmit this newest spiritual Teaching.

«The Great Message»

In 2006 two volumes of Oris's books were published, reflecting the results of his further Contacts with the Teachers of Humanity, which represent the highest personal Interpretations of his Ultraconsciousness and Superconsciousness, under the general title «The Great Message». Its contents marked the beginning of the creative stage of work with information of a principally new, more qualitative level.

As a result of numerous answers to reader's questions on the materials of these volumes a new series of books «Immortality is accessible to everyone» was published as part of the Issiidiological Knowledge - the newest spiritual-cosmological conceptions about the Universe and the human being.

From 2001 to 2022 Oris has written over 1600 song lyrics to popular tunes of the 20th and 21st centuries. The first 555 songs were combined in two collections called «My Testament». The lyrics of all subsequent songs are published on the Ayfaar Songs website ayfaarpesni.org.

These songs tune to a positive perception of life circumstances, an altruistic way of life and unconditional love for everything, as well as a deep understanding of the fact that everything that happens to a person as a good thing.

LISSIIDIOLGY

Volume 9. Glossary of terms

Moscow, 2010

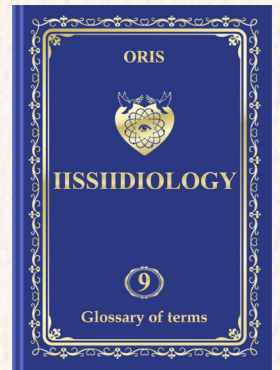

Pages: 725

IISSIIDIOLOGY terminology has its own individual specificity of spelling.

Also, each of the terms includes a much deeper meaning than might seem at first glance, because it is rooted in more qualitative levels of this Knowledge, which, without sufficiently developed extrasensory abilities, is not yet available for access to the current creative dynamics of the Self-Consciousness of an average person.

This publication contains only short vocabulary articles to facilitate the process of understanding the material, at least at the most elementary level. More detailed information on each of the terms can be found in other lissidiology books.

Some terms are very difficult to describe and have absolutely no analogues in the habitual human associative perception, so it is an extremely difficult task for the Author to formulate a dictionary article within the limits of an ordinary person's comprehension.

Volume 10. Immortality is accessible to everyone. «Fundamental Principles of Immortality»

In this book, Oris continues to give full answers to inmost and fundamental questions of cosmic and human existence: about Earth and universal destinies, the nature of life and death, Soul and God, good and evil, about our relations with one another, the nature of Space-Time and how the entire visible and invisible-to-us reality is formed. The Universal Knowledge given by Oris offers the fundamentals of a new and unique world view for all of us. It allows us to penetrate the mystery of eternal existence to an extent inaccessible before, reasonably and substantially solving the problems therein, offering convincing answers which are not available in any religious world view, philosophical movement or scientific theory. Oris's Information expands the limits of human experience and perception literally to infinity!

«Energy and biological mechanisms of refocusing of Self-Consciousness»

Moscow, 2010

Pages: 691

In the first Chapter of Volume, Oris describes in detail functioning of Formo-Creators of the brain, how the memory is accessed, how biological structures of the brain are associated with energy-informational structures of Self-Consciousness, how various Self-Consciousness Levels are differentiated and reprojected at the moment of so-called «Death». This Chapter also describes functioning of «the intestinal brain», how it becomes possible to cure at a distance (the technique of ethereal projection), gives the meaning of the esoteric term the «Astral Plane» from the point of view of lissidiology.

The second Chapter tells us that biological Forms can exist in different Continuums and explains the interrelationship between our lifespan and quality of active Levels of our Self-Consciousness. It also provides information on the following subjects: it is possible to «live one's Life many times» in higher-quality scenarios, cycles of changing male and female manifestations within the structure of a multi-dimensional human Form, physical principles of organization of higher-frequency levels of the Universal Reality with a detailed description of the nature of boson and fermion fields, and types of particles that are carriers of such interaction.

Volume 12 is devoted to the diversity of the Self-consciousness manifestation forms in the infinite variety of the Form-Systems of the Worlds. Tell me, what do you know about the universal properties of Space and Time? About the illusory nature of our existence? About the Essence of «development» of each «personality»? It's not easy to answer any of these age-old questions.

But Oris, with all possible detail and thoroughly, goes on to answer not only these, but many other equally urgent and vital questions that trouble us and compel every seeker to learn, to give up something, and to gain something...

In the 13th volume of the commentaries, Oris answers the vital questions of mental and physical health, medicine, psychology, psychiatry, genetics, somnology, pharmacology, and reveals the psychogenetic features of the manifestation of the «human» Form.

Our biological Existence is a continuous process - when we feel, think and experience something, we immediately become part of those groups of the Worlds, Realities and Continuums whose synthetic dynamics correspond exactly to the quality of these infinite processes.

Volume 15. Immortality is accessible to everyone. **«The Conscious Path to Human Worlds of «personal» Immortality»**

Moscow, 2012

Pages: 648

«The Conscious Path to the Human Worlds of «personal» Immortality» - this is the name of the new volume from ORIS book cycle «Immortality is accessible to everyone». At first glance, this may seem like an invitation to a philosophical contemplation. But by appealing to his devoted readers, the author hopes for the consideration and perception of this issue in a broader or, if you like, deeper understanding. Philosophical concepts offer to us only sensory-contemplative,

mostly associative images regarding a particular issue. The author, however, presents in this work, as a logical continuation of previous volumes, a detailed consideration of the practical prospects for the development of a personality into a true Human, who explores his own spirituality.

In addition to the mechanisms of working with own Self-Consciousness, which will lead people as Humans to «personal» conscious Immortality, ORIS describes the «Worlds of our Future», the prospects for the manifestation of the coming times. And in order for everyone to develop an understanding of their own Path, a comprehension of the choice of their spiritual development, the author not only describes «bright» prospects, but also specifies in detail the obstacles that each of us may face and, by not noticing or not determining the nature of which, to unconsciously, under the influence of particular reasons, deviate from the development in the Human direction.

With the help of this book, you will be able to determine the qualities that are truly inherent in people, and you can finally figure out how to form in yourself these qualities that are truly Human - with a capital letter. Having experienced what a highly sensual Intellect is, you will then understand why only with the help of highly intellectual Altruism you can find the Path to the cherished Goal of your spiritual future!

CONTENTS:

- SECTION XIX. Obstacles on the path of realization of «individual» Immortality
- SECTION XX. The Specific States of uoldmiism (high-sensual Intellect) and stollmiism (High-Intellectual Altruism) synthesized in the Human (lluuvvumic) development Direction
- SECTION XXI. Specificities of lluuvvumic transformation of human features
- SECTION XXII. Our «future» Worlds. Perspectives of the approaching times

Volume 1. lissiiology Fundamentals.

«Interaction of Information and Energy as the Primary Cause for origination of the Creative Activity of Self-Consciousness Focus and the Macrocosmos in whole»

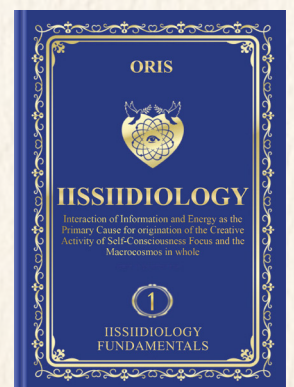

Moscow 2013

Pages: 312

This book presents the beginning of an overall 20-volume information series titled «The Great Message», which consists of «IIS-SIIDIOLGY. Fundamentals», «Commentaries to Fundamentals» and author's Song lyrics with a highly-spiritual content written to popular and all-loved melodies.

From the very beginning, the author pinpoints the reader's atten-

tion upon fundamental notions of IISSIIDIOLOGY starting from basic, axiomatic Conceptions. The book contains the newest interpretation of formation of the outer reality based on the Self-Consciousness's Focus Dynamics as the main functional mechanism of the Macrocosmos's Creative Activity. A detailed comparison of the author's hypotheses with existing scientific conceptions allows to draw parallels with the current worldviews about nature, space, time, energy and to find the ways for their radical transformation and potential development.

In this volume, the author introduces the conceptual foundation necessary for an adequate understanding of all other IISSIIDIOLOGY books of this series. Hierarchy of Self-Consciousness Levels, dimensional differentiation of manifestation Forms, classification of elementary (and other) particles as structural components of the Universal Plasmic-Differentiation Emission, information theory of the formation of Energy in the Macrocosmos are described in order to form necessary notions that will serve as the basis for further more complex iissiidiological Categories: Universal Cosmic Laws and their Principles, Diapasons of Plasmic Forces, Evolutional and Involutional Branches of development, and many others. The first volume of Fundamentals is the required minimum for any reader who wants to thoroughly study iissiidiological conceptions.

«Cosmic Qualities as the Basis for energy-informational manifestation of all the Form-systems of Macrocosmos»

Moscow, 2013

Pages: 662

Many scientists may consider this volume of «Fundamentals of IISSIIDIOLOGY», as well as all the other books of this twenty-volume series titled «The Great Message», no more than «science fiction» — each of us has the right to believe in what is the most convincing. However, every intelligent person who possesses at least

the rudiments of cognitive intuition can discover in this information those more Qualitative characteristics of the objective truth, thanks to which continuous eglleroliftive Amplification of all Self-Consciousnesses Forms is carried out.

Catastrophism periodically appearing in the process of human self-cognition is always accompanied by the radical breaking of many old Conceptions, which by its radicalism surpasses greatly all theoretical forecasts. Fanatical belief in dogmas and postulates established once, as well as the clear tendency for idolatry — these are obvious characteristics of degradation and regression that converge modern academic science with paganish religion. Yet, the eglleroliftive Amplification process and harmonious evolution both of a separate personality and human population in general is impossible without breaking down old stereotypes and establishing — on the basis of deep cognition of Wisdom of previous and future generations — much more universal conceptions about ourselves and our surrounding reality.

This uneasy, but grandiose on its depth and scale Task of prompt and Qualitative transformation of human community is assigned by the Evolution Itself to the universal knowledge of IISSIIDIOLOGY, absolutely new to people, which is received for the first time and entirely by one person only by means of the intuitive way of cognition. We offer you to find out more about its newest fundamental Conceptions in the second volume.

Besides, the IISSIIDIOLOGY offers to Collective Consciousness of humankind a totally new paradigm that gives new and fresh view of the multitude of clinical phenomena studied by psychotherapists. It gives a theoretical model for understanding the changes in the mentality of a patient and the hope on clarifying mechanisms of effectiveness of psychotherapeutic method.

The third volume of «ISSIIDIOLGY Fundamentals» allows readers to go deeper into yet completely unexplored by us structures that provide functioning of human Self-Consciousness and its interconnections with Self-Consciousnesses Forms focused by it. First two volumes of «ISSIIDIOLGY Fundamentals» thoroughly describe the deep Nature of Causes and Mechanisms of Creative Activity of everything manifested in multidimensional and different-Qualitative Macrocosmos, including also qualitative Basis of Focus Dynamics of Form-Creators of Universal Structures. The third volume in its turn focuses on the detailed description of basic Principles of exiberation of Human and other Self-Consciousnesses Forms in all the diversity of different-dimensional diapasons of the Tertiary Illusion.

To allow the reader to fully comprehend the essence of the notion «Self-Consciousness Form,» the author describes realization functions of these structures at the example of subjective formation — as a result of life creativity of every personality — of so called personalistic Worlds, which goes far beyond existing scientific notions about the surrounding reality and peculiarities of interaction between Forms structuring it, whether it is a human, a planet, or an elementary particle. Furthermore, he describes different-dimensional variety of Forms of Iluuvvumic Direction of development and characteristics of focal realization of Humankind Collective Cosmic Intelligence as a unified the LLUU-VVU-Entity.

This new volume of the series «lissidiology Fundamentals» is a reasonable consequence of consideration of biological mixtum NUU-VVU-Form-Types that was started in the previous volume. For our deeper understanding, it draws our attention even more at iissidiological approach to the matters, which are related discretely by contemporary scientific community to philosophic anthropology in general and to behavior theories of personality in particular.

At more objective, transcendent, gabitual (primordial, objectively deep) discussion, it becomes clear that the given material leads a reader maximally to objectivization of own conceptions about relations among personalized, unconscious, and subconscious levels of Self-Consciousness at the background of developing invizusal (imperceptible by our sensor systems and measuring devices) mechanisms of anatomy and brain neurophysiology, accompanied by dominant dynamics of

the first IISSIID-Centers pair.
