The Teachers of the  
humanity report

Throughout the history mankind has been narrowing its perception of the Worlds from multidimensional, which includes all the subtle spheres of the Astral, to three-dimensional, gross material plane, thus not only limiting itself in its perception, but also completely destroying the possibility of free contact with the Consciousnesses of hundreds of thousands of other space civilizations which are actively creating in the Cosmos. Representatives of many of these intelligent civilizations have practically never left our planet, while other higher entities have been embodied among people only for a few millennia. They have voluntarily shared and continue to share with us all the burdens of earthly incarnations and the heaviest of human Karma, only to help people of Earth, by their Knowledge of the Truth and their personal experience, to climb steeper steps on the Stairs of Evolution more rapidly.

In this book their Knowledge and experiences for the spiritually evolved part of humanity through the Consciousness of Oris are imparted by: the Siriusian Araaragot, the andromedian Allaagor, the “Wanderer” as well as the Higher Spiritual Divine Entities: Christ, Lord Maitreya, the Sun God (the Logos of our Solar System), ELOHIM (the Creators-Creators of our Universe), and the four Archangels (Michael, Uriil, Gabriel and Metatron). “Those who have ears” may hear their Messages, awaken from their spiritual sleep and live ETERNAL LIFE!

# ARAARAGOT REPORTS – THE MEMBER OF THE CREW OF THE STARSHIP OF THE «RAMAX-01SL SIRIUS-B», RESEARCH PHYSICIAN, CYBERNETIC ENGINEER

*(TP-contact of 30.12.1997)*

Brother Oris, hello! I have known you informally through my friends from Sirius-A for a long time now and I am happy to pass on information to the people of Earth that might help them to understand us, so different, but having as much in common as it does between parents and children. We don't really fit your definition of an "alien" or, worse, an "alien". Because we really don't.

We haven't gone anywhere and we haven't flown away since we came to Earth millions of years ago. The difference is that in your perception we seem distant, as if we were on another planet. From a physical, three-dimensional point of view you perceive us as aliens (which will gradually make it so that you can actually perceive our permanent presence).

Socially, we are one entity and differ from you only in some perceptual limits. We are you living in the so-called "Future" and you are us living in the "Past". Our communication with you is made possible by the merging structure of awareness of its connective unity. In this there is a free exchange of minds. The basis of the relationship between us and earthlings is that we are always here, literally next to you.

We consider ourselves part of you humans, finding differences only within perception. Once your recognition system is tuned, the biological filters in the psyche of the individual are also tuned; this allows you to perceive the flow of information from us, which is then interpreted as alien life. In terms of the other limit of perception, there is no evidence of our existence on your planet, for in this respective reality we are not here on Earth.

We are already here. Since we conform to a particular model of consciousness, all energy is one and therefore there is no movement. Movement refers to other models or limits of perception. However, it would be a mistake to get lost in the model of universal unity. Consciousness is also divided into layers; it is so complex that it is beyond comprehension. One component of consciousness is physical perception – hence extraterrestrial intelligent life, such as in the form of "flying saucers". In terms of human perception and our technology, the shapes of our flying devices conform to the principles of aerodynamics. When speaking or communicating telepathically with any other energy system, such

as the Earth, we also see it as alien.

Compared to Earth, we are on a much higher stage of development. Our everyday life bears little resemblance to that of yours, but in some respects you can draw analogies. For instance, we also have devices that resemble your television sets in some respects in their functions. We do not have telephones because telepathy, especially in families, is the most common thing for us. What you have beyond the reach of your senses is not difficult for us.

We are characterized by individual self-government, but we also have a naturally developed social structure. Like you, we have the heads of the various structures, but there is no struggle for the right to manage the social institutions. Every Pleiadian has a sense of direction and awareness of the cause, where he/she will be able to contribute the most to the entire society. Every Pleiadian in general knows the essence of his functions. So why should he or she aspire to other states?

We have and for a long time practice the system of harmonious and spiritual connection of the society with organizations, remotely resembling your monasteries. Let us call them spiritual monasteries, because their true name won't tell you anything. The relationship of our spiritual monasteries to society is twofold. First, they consist in providing spiritual direction to the whole society by disseminating theoretical information and ways of its practical application among the Pleadians.

Secondly, in order to integrate the knowledge available to the monasteries, they are constantly in very close and active two-way contact with political, medical and scientific leaders. Once a Pleiadian joins a monastic order, his powers of perception are so enhanced that to any of you, the inhabitants of Earth, he might seem like a god. That's why in our society the members of monasteries are treated with very great respect – as you, for example, treat people who have a much higher level of awareness of the world around them – but they don't consider themselves either inferior or superior to the others – they are just the same ordinary members of our society.

We do not have religious orders like your earthly religious organizations – we went through that phase a long time ago. But within any of the monasteries there are some divisions, implying different temperaments and interests of their members. You could call them small orders, too, if you like, but in reality you would probably be reminded of the classrooms of your very best schools.

Students of one such order strive to develop, for instance, a gentler, more feminine approach to Life, and not to behave in society like an elephant in a china shop. Other orders teach other disciplines and develop other qualities, such as you could compare them to a mother's love for her child, or the opposite, to the development of a demanding and affirming masculine energy.

Other members of the monastery learn the art of giving the best to the community and receiving the lacking in return. Some learn all kinds of affection,

associated at times with even more overwhelming feelings and emotions than love. And so on, through all aspects of sensual energy.

Even the lowest (in rank of distinction) member of such an order may report his or her discoveries to the Convent Council and, if this information is of value, it will be presented for discussion to the whole community. If it is a matter of “borderline” information, then it is added to the rest of the information of the same kind and passed on through the appropriate channels. It must be noted that such “borderline” information may contain both brilliant things and absolutely insignificant information for the society.

Just as the political structure gives stability to the technological order, the religious order gives stability to politics. The religious order is the basic guiding force of everything in general. Our system of monasteries gives society such a perfection of perception that all our technology is forced to conform to this perception, lest it turn against ourselves.

We have a unified sphere of influence of a political structure; you exist in several political environments created by different parties. Our planetary reality exists within a unified structure with which all members resonate. This leads to the absence of any fear and generally eliminates any cause for concern for any member of our society.

That is why in politics we are in harmony. Our political leaders have a natural internal balance of frequencies by which they respond to the commands propagating within this waveform. So, if we talk about our forms of governance in society, we should not be talking about subordination, but about the reflection of the whole waveform. Our concern for the younger generation is manifested in the constant exchange between adults and children of extremely powerful streams of emotional, mental and intellectual energy.

Thanks to this energy exchange, the phenomenon of delay in the natural development of young people is completely absent. The division of labour exists and does not exist at the same time. Everyone in our society, regardless of their job or position in society, has the same opportunities for inner perfection as we do. We don't even have the notion that some should live worse than others and some should live better; no one wears the brand of “inferior” or “untouchable” as is customary in your society everywhere.

There is a very subtle connection between the Earth and the constellation of Pleiades. It is an energetic thread. We see you as our heirs. However, we are a separate life form. We cannot abuse this connection or deliberately destroy it, because that would be like harming ourselves. That said, our rules do not prohibit any action in response to your aggressive actions necessary for the well-being and safety of the Life Space surrounding you.

It is foolish and reckless to think that you are capable of countering us with your technology. If there was to be a loser in this game, it would surely be Earth. You should not see this statement as a threat; it is simply a statement

of fact. Imagine a mother who sees her small child playing with gunpowder and risks to blow up everything and get himself killed. Of course she will punish him severely, so that he understands that he must not do it. But will she destroy her child, no matter how reckless his actions? This is how we treat you, our not yet fully grown children.

In a sense, you may think of us as a kind of electromagnetic energy field. But you can also think of us as forms of Thought. You and I are very similar in that respect. A thought-form is an energy storehouse that contains a certain but infinitely large number of records about us, records that reflect the state of our society, our concerns, our goals regarding our own planetary sphere and, of course, our goals regarding you. But it's all completely impersonal. If you like, it could be compared to a tape recording.

We are a manifestation of human energy through time. Since all being is One, there is an infinite number of all possible realities. If you like, we represent your, human possibilities viewed through the prism of time. You yourselves will also gradually evolve into what you now perceive as an "alien civilization". When we look back at you, today, through the prism of time, we recognize our forefathers in humans.

But you are also our heirs. Let us take our eyes off the physical boundaries for a moment and then we can say with absolute honesty and sincerity: we are you in a certain time, let us say in 10.000 years, and you are us, but only 10.000 years ago. At least, you may think that our world is your Earth, as it could be somewhere in a parallel dimension, if you also aspire to the same thing that we and most of the advanced civilizations of the Cosmos aspire to. But in a physical sense we are indeed much older than you, as you are descended from us.

As physical beings, we have many similarities with you. One similarity is that we also have a need for food and the engines of our ships need fuel, which is extremely rich in Earth's minerals. In addition to countless basic starships built from the superfine matter of light, we also have many spaceships composed of physical atoms to explore the worlds of three-dimensional Space. In a sense the physical is illusory, but it can still give a very real impression. Physical reality becomes illusory as perception transcends physical boundaries.

The physical laws of overcoming distances, for example, can easily be changed. If a vehicle is immersed in physical consciousness, there is no way it can move faster than the speed of light, because the basis of three-dimensional reality is the speed of light. Anything that exceeds that immediately becomes invisible and disappears from your field of vision. But if you think of other realities of existence, technology becomes possible that will allow a spacecraft or any other object to physically disappear into another dimension, and then regain its original form at its physical destination.

Our spaceships travel as far beneath the surface of the Earth as they please, leaving absolutely no external trace of their presence. If we go to a planet, no

matter where it is, we must first tune into the desired spatial level and determine what is there. Life exists only in certain dimensions. Take Venus, for example, with whose inhabitants, the Hathors, we have the friendliest and most beautiful relations, which have been tested by many hundreds of thousands of years of joint creative activity. Venusians, or Hathors, as they call themselves, are an exclusive combination of Light and Love, enclosed in wonderful shells of the thinnest matter of three to five meters in height.

By taking part in the creation of you, the earthlings of today, they very much wanted you to be like them one day. They are the wisest and most advanced race in your solar system. Their development is far more advanced than that of the Martians and even the Nephilim. But none of your earthly telescopes or ships will be able to detect living beings there because the three-dimensional level of Venus is uninhabited. They moved to higher dimensions a very long time ago.

Our motherships do not need to obey the laws of aerodynamics – they operate outside the atmospheric influences, shuttling “between worlds” in hyperspace. From a physical point of view, such a ship seems to disappear and reappear a moment later at a distant point in space. But if circumstances prevent you from taking advantage of the properties of hyperspace, a matka-ship – according to Earth time – takes one year to travel from your planet to the constellation of Pleiades, and two Earth years for ships of another class.

However, due to the large amount of cargo, the presence of delicate and precise instruments on board, and valuable geological samples from other planets, this journey takes somewhat longer. The engines of our ships do not produce any disturbance in the environment at all, as is the case with your jet engines. Your physics scientists have not yet even guessed at the possibility of such propulsion systems.

The concept of spectral energy is briefly defined as a hierarchy in the manifestation of consciousness, or perfect form. We are able to interact with a wide variety of cosmic forms, such as star constellations of light and sound, beings composed of light or sound. We make very extensive use of what might be called ‘free energy’ in our technology. This is energy which is ready for use without any further processing or purification.

Although it does use a fuel source, it does not contain the oil or natural gas you are used to. For example, an energy plant that extracts “raw” energy from regular air, instead of taking it from gasoline or nuclear fuel, is a system that uses free energy.

All said refers to valence energy changing the normal motion of electrons – but not beyond the laws of nature. This is the precursor model to our current propulsion systems. The fundamental law of spectral energy is that it modulates gravity, surpasses it. The free energy that permeates your entire planet requires no recycling and is ready for application.

These types of energy exist, permeating all Matter. But we cannot say

whether the reserves of these energies on Earth are absolutely inexhaustible. An analogy can be made here with your aerosol cans depleting the ozone layer of the Earth's atmosphere, causing damaging solar radiation to penetrate into the lower layers of the atmosphere and thus reach the Earth's surface.

We have fears that the sufficiently intensive use of free energy, which will become widely available to mankind in the next few years, will begin to deplete certain atmospheric layers, which may result in uncontrolled energy "bleeding" from other dimensions. If these beams emanate from a quadrant of Consciousness that is not physical, the effect may be most destructive – similar to the electromagnetic radiation that now penetrates very intensely through the naturally thinning ozone layer.

The planets in our system have a broadly similar set of minerals – the only difference is that some have it and others do not. It is more economically viable for us to mine elements such as zinc, phosphorus, silicon and other elements on Earth, because at present some metals are of no value to Earthlings. We have mining operations in South America and South Africa. There we mine fuel for the engines of our spacecraft.

Mine mining is carried out in empty, isolated places, isolated from human activity. If man were to get to the location of such mines, he would find real holes in the earth's crust. Since we are active on the physical plane as well, we also need a physical source of energy. Our energy systems and the principles of their operation are as yet completely beyond your comprehension.

But with natural progress you will understand the construction and working principles of our energy systems. We regularly materialize in various places of the Earth and with the help of psychic channels try to come into a voluntary contact with people. Our periodical return to the Earth does not mean that we come to the same place every time. Ninety percent of our time is spent communicating with earthlings. Human contact is due to our great interest in planet Earth and the desire to gradually accustom earthlings to our presence.

If we allowed ourselves to appear to you in our physical form now, it would cause great panic and emotional trauma to many. But we encrypt information about ourselves in the headlines from time to time and we think that people's emotions will very soon stabilize and people will gradually become tolerant to our presence on Earth, without fear or panic. Only then we will be able to make real physical contact – your and our civilizations will finally meet face to face.

I would like to make two more words with regard to your understanding of so-called "death". In this connection I would like to point out that your earthly concept of reincarnation doesn't reflect the Truth exactly. From the books of Brother Oris and our other Messengers you should already be well aware that time is both reality and illusion. When it comes to reincarnation, the idea of time naturally arises.

Every sentient being has its own distinctions, its own individual features,

and every sentient being is for itself the only shelter, the only “cove” where it can be itself or be alone with itself. But just as in every cove there is a great variety of boats, buildings on the shore, etc., so also every sentient being lives in its own “latitude” and “longitude”.

We know that you all constitute One Single Entity. But please take a step beyond that – into the Reality where Mystery alone dwells. In order to know or at least try to unravel the Mystery, you have to have the quality of understanding. And where there is no room for the Mystery, there is no room for understanding. If there were no mysteries in your life, you wouldn’t be asking questions about your reincarnation. Understanding is only a limited function, so it needs to be protected and discarded at the same time.

And finally, as a doctor, I would like to tell you something regarding some of your earthly diseases. So, for example, in terms of fighting the disease that you call “**AIDS**”, we would suggest at least three directions. The virus of this disease is not the result of the work of some laboratory, as some of you believe. There has been a mutation of a virus similar to the Cori virus.

It was previously a saprophyte and did not cause this kind of complication. It first appeared in Central Africa and now has several modifications. These types of the virus differ from one another in the length of the **RNA** chain: the least dangerous modifications have the shortest chains. As a result of infection, the T-lymphocytes stop fulfilling their function and even become aggressive towards each other.

This is due to the alteration that the virus causes. It has a detrimental effect on T-lymphocytes, thus paralyzing the entire immune system. Not only the cell membrane protein is affected, but primarily the connections between the endocrine and lymphoid systems are affected. In addition, the subcortical control of the information coming into these two systems is disrupted, causing the T-lymphocytes to spew false information and become antigens.

The virus becomes maximally aggressive on day 2-3 of its presence in the human body. The next peak is then reached at the end of the second week. The duration of the course of the disease depends on the type of **HIV** virus the person has. Your scientists have already found out that it can be transmitted not only through sexual contact, blood and injections, but also through the skin, sweat and airborne droplets.

However, it can remain in the human body for a long time without causing any pathological changes. It can therefore be a preventive measure and if a vaccine is made from the virus by extraction, a person will develop immunity against the other two viruses. By the way, it is advisable to keep pets, both cats and dogs, as they are particularly active not only against the **HIV** virus, but also against many other viruses that are dangerous for humans, as a preventive measure against **AIDS**.

If the infection does occur, the most effective method of prolonging the

patient's life can be mummy. The course of treatment in this case lasts for years. Also, to reassure you, the virus is not hereditary, but the child may be infected by the mother during the first feeding. Genotype has nothing to do with it. The virus can be found not only in the blood, but also in the lymphatic system, where it collects in maximum quantities.

Therefore, draw the attention of your doctors to the isolation of the virus by puncturing the lymph nodes, especially in the groin areas. This is best done in a fluorescent way. The difficulty is that it is possible to prepare a vaccine using only a patient with the virus. A monkey is not suitable for this, as there are significant differences in the immune systems.

As a first measure against this disease, we suggest seriously working on the problem of fundamentally changing perceptions concerning your physical sexual behaviour. We are not advocating withdrawal at all, given the important fact that you are still a young, instinctively acting population, literally imbued with vibrations of lust and desire.

It is this fixation on your sexual desires that has now, in the face of the need for rapid spiritual growth, turned against your own. The second approach to healing deals exclusively with biological medicine. A fruitful leap forward in research would be to work with the antibodies needed to support the immune system, which is rapidly breaking down under the influence of the virus.

However, the realisation of these antibodies will only manifest itself as a result of human species development itself. Here man's opponent is nature itself. Your biological sphere on this planet is terribly overpopulated. It is simply out of balance. Thus, the nature of the Earth, as a kind of expression of the Collective Consciousness, thus aspires to get rid of an obvious surplus of annoying Consciousnesses and hurry back to its former unstable equilibrium state.

This means, as far as we could ascertain from any form of your activity on the Earth, that you have yet to attain any form of self-regulation, which requires you to become an integral and balanced unity in any wave form. This observation is not just about AIDS-related moments. The whole point is that one's life orientation must be in harmony with one's surroundings.

If one chooses to live out of harmony, this can trigger a corrective action, either by activating a destructive virus seeking to correct the electromagnetic energy, or by becoming aware of this disharmony, or by destroying it – so that the whole wave can act.

Goodbye, Brother Oris! I think we will continue our conversation, that will help the inhabitants of Earth to understand us, Pleadians, better and if not to love us, then at least not to try to destroy us as their worst enemies.

# ORIS'S DIALOGUE WITH ALLAAGOR THE ANDROMEDIAN

*(TP-contact of 6.01.1998)*

**Advise me, Allaagor, how can I help the people of Earth to ease the idea of you as our forebears and at the same time as our great-great-grandchildren?**

- Your question, Oris, is not an easy one, because Earthlings and we Andromedians think in completely opposite categories, for which there are objective reasons. The human mind simply cannot imagine something now without having at least some distant stereotype: this is like this, and this is like that...

Your media and television have so blatantly perverted all notions and concepts of a Higher Extraterrestrial Intelligence that it is not even worth our while to try to impress upon people anything to the contrary. You see for yourself that even our physical plane is so much different from the plane where you are now, that it makes no sense to talk about the higher levels of our ordinary being, if only because the people of the Earth have nothing to compare it to.

When we say that in terms of species development we are more advanced than you, there should be nothing offensive to earthlings in this – this is merely a statement of physiological, political, social and biological fact. We belong to a philosophy that affects all levels of our planetary sphere, which we call ‘spectral energy’.

To explain it in detail, the concept of “spectral” describes the different influences that vibrations of different frequencies have on any given object at any given moment. Visually, you can most easily visualize this as a colour spectrum or rainbow. What we mean by ‘energy’ is that every object consists of, or rather is literally overflowing with, all different types of energy of varying quality and in order to obtain the desired results we simply manipulate those types of energy that are most suitable for it.

If any of you are subjected to the so called ‘progressive method of cleansing and moving energies’ while moving your Consciousness back and forth along the time axis of your time field, the imprints of the mind belonging to higher levels of this process will become increasingly activated and an entirely different aspect of your Consciousness from the current one will be brought to the forefront, due to the particular structure of your genetic code which is a holographic doublet of ours.

Yes, we Andromedians have exactly the same genetic code as you do. You have an excellent opportunity to see that we are not much different from you humans in our appearance, in principle – even though you are complex and

stereotypical in your thinking. We have the same physiological components of the expression of Consciousness and its access to information as you do.

But, as you see, our eyes are a bit bigger than yours in size and in their inner structure they are also somewhat different from yours. This gives us the ability to communicate directly with those who spend most of their lives on the levels of the fourth dimension. Our eyes perceive a much greater range of frequencies; they are more sensitive and therefore we are able to distinguish more colours and their hues than even your most advanced optical instruments.

In the dark we do not require night vision equipment, and our sight is in no comparison with yours, for we are able to move our focus as we please. Our lips and nose, on the other hand, are slightly smaller, even than those of your white race, because we are more accustomed to telepathic contact and resort to sound vibrations only in the most necessary cases.

Our food, on the other hand, is much more subtle in its vibrations than yours. Our habitat and the mild climate do not require any vegetation on our bodies, so we have hair, as you can see, grow only on the head, and many andromedians do not have them at all.

That's not a problem for us, because anyone can grow as much hair as they want in any part of their body. Simply, there is no practical necessity in it. The same applies to our genitals: our external genitals are also less pronounced than yours and have a slightly different structure. Impregnation and childbirth are different from yours and do not involve even the slightest discomfort.

The sexual organs themselves for us play more a role of the centre of vibrations of the lower physical plane, similar to yours, rather than an object of sexual arousal. By concentrating on these lower centres we can freely penetrate into the physical worlds, not only those of your planet. The energy exchange between the opposite sexes (what you call "sex") goes on a much higher level with us than with you, although, to give you credit, it is inferior in sensuality to what people experience during intercourse.

But let us continue with our visual inspection, Oris. As you can see, our upper limbs are far more compact, slender and graceful than yours, and the five phalanges of each of our two upper limbs are more adapted to perform very delicate and precise manipulations that your crude fingers would be quite unsuited to. Our digestive system is also more advanced and highly organized than yours, and far less prone to clogging by life-sustaining products and decay ("constipation", I believe you call it?).

You have already noticed that our ear-shells are slightly different in shape from yours, and they are also slightly displaced towards the base of the skull, thanks to which, thanks to our basal ganglia, we can much better perceive the volume and richness of the sounds of living nature around us or the music we create. Usually our consciousness is spatially located at the base of our skull.

Our evolution, in terms of brain development, from reptiles to mammals to humans is exactly the same as yours. It is true that the functions of our cortex and new cortex are much more extended than yours. Because of this, the proportions of our skull relative to the rest of our body are somewhat larger than those of the average human. You should also take into account that our height exceeds your average height by 1.5-2 times.

Our physical World, if considered from the point of view of linear evolution from you to us, is more perfect than the Earth's, as the functions of our cerebral cortex are more developed and diverse, more controllable and more adapted to extract information from the environment. In addition to having right and left hemispheres (the so called lateral division), our brain also has a three-level vertical division, where we distinguish divisions conventionally corresponding to reptiles and early and late mammals.

The section corresponding to later mammals is often referred to as the 'new cortex'. The department corresponding to reptiles looks similar to the brains of higher reptiles. The early mammalian division also looks identical to the brains of the lower members of this class, and the late mammalian division has the main distinguishing features common to humans, whales and dolphins.

Our evolution has forced us to reject the functions of reptiles and mammals [at the expense of their unconditional acceptance]. So our evolutionary advantage is also manifested in the fact that we experience much less cortical interference than you do. The lower positioning of our auricles at the base of the skull than yours reduces the possibility of inferior cortical excitations, which is one of the advantages of this location.

The fact that our auditory organs are located closer to the base of the skull and are connected to the section of the brain corresponding to the reptilian brain (which we consider the centre of Consciousness) also affects this aspect; simultaneously, it prevents our Consciousness from being dominated by more technically and evolutionarily advanced cortical functions. Consequently, our mammalian brain is far more advanced than even your whales and dolphins because it receives and processes far more information from the department corresponding to the reptilian brain.

We use light to balance the electrical activity of the brain. We see this not as synchronization of hemispheric activity, but as holistic structuring. The hemispheric synchronization technique you apply also helps with your mammalian tissues. It is also applicable to the stimulation of brain functions that you have left over from reptiles. These functions are very closely linked to your survival, and have really wide evolutionary applications.

Your brain structures, which combine reptilian and mammalian qualities, will continue to produce enough energy to stimulate the functions of the new cortex;

this will allow your skull to gradually grow in size as well. This means that your cerebral cortex will be intensively evolving on a cellular and tissue level. Very soon you yourself will experience – on a biological and cellular level – the need to bring your auditory apparatus closer to the structures left over from reptiles.

Your scientists' current successes in hemispheric synchronization are commendable – especially in finding new functions and isolating certain areas of the brain. But if the earthlings could improve this technique so much that they could isolate the coordinates of the areas corresponding to the reptilian and mammalian brains – which should be stimulated instead of figuring out the nature of quasi-cortical functions or making measurements – it would speed up the process considerably, resulting in a dynamic and completely unexpected results.

Right now, your technical capabilities are limited to only scanning devices and nuclear magnetic resonance instruments. Unfortunately, in the near future, it is not possible to bring your capabilities in line with the conditions of your physical World – for various reasons.

**- Tell me, Allaagor, are you able to manipulate physical matter in the three-dimensional dimension in the same way that we earthlings manipulate, say, light? – I wondered.**

- If you mean people's ability to manipulate the flow of electricity in a chandelier to produce a light effect, or your ability to purify and concentrate light by focusing it in laser systems, or your ability to protect yourself from sunburn with appropriate protection, then yes, it can be answered affirmatively that we have brought the manipulation of physical Matter almost to the limit of these possibilities.

We can, for example, change the physical shape of any living or non-living object within the widest range. We could transform the form of any human being or any other sentient being into the form of the most fantastic beast if necessary, but this is not necessary at all, for you people create your own forms with your evil thoughts and wildest senses, which the Fourth Dimension Matter immediately projects into Space and creates therein unspeakably ugly monstrosities.

We sometimes use our ability to manipulate physical matter to change the expression of our physical manifestation on the three-dimensional plane of the Earth, instantly transferring, if necessary, the vibrations of our bodies of manifestation into the mode of radiation of light. Or another example of the use of this ability: we have spaceships that do not obey in any way the laws of propagation of light energy – they move almost instantaneously, regardless of their size or mass. Let's say any of our many motherships can return to base almost in the blink of an eye.

## About the author

During his creative life Oris has written about 100 books on spiritual-philosophical and esoteric topics, as well as on the mental and spiritual relationship between the human energy-structure and the energy-structure of the universe.

A large part of Oris's life is devoted to spiritual creativity through writing books on cosmological subjects. In them the author uncovers such matters, which no one has ever touched so deeply and in such detail before. As early as 1996 Oris managed to find his Spiritual Mission, which he is tirelessly pursuing to the present day.

Oris was born on 25 January 1954 in small Ukrainian village of Maryinka in the Donetsk region in the family of a miner and a nurse.

From an early age (at the age of three) Oris developed an intuitive gift for writing poetry. Oris read out his first poem «Zhen-shen» at the age of 3 to his mother, who wrote it down, because he couldn't write yet.

He also possessed medial abilities from an early age: he could spontaneously «see» dynamic pictures of events and episodes from other people's personal lives, the authenticity of which was often later proven.

As a preschooler, Oris would periodically warn the children of impending contingencies when they were up to some mischief, and at school he knew who would be called to the blackboard and warned his classmates about it. He also knew in advance which boys and girls would be sympathetic to one another and which not.

Oris's first poems, from the age of 6, were published in the Maryinsky district

newspaper. In addition, Oris was good at drawing: 14 portraits of Ukrainian and Russian writers, which he painted in the 3rd grade, decorated the walls of the school corridor.

In 1971, Oris graduated from the 10th grade, worked as an instructor of physical education in Maryinsky Raypotrebsoyuz, and in 1973 he entered the Faculty of Agronomy of the Crimean Agricultural Institute, graduating in 1978. After 4 years of professional activity on the South Coast of Crimea (Yalta), he became the director of sports and recreation base (village of Ponizovka), belonging to two Moscow research and production associations - «Measuring Equipment» and «Energy», serving the space industry. He resigned in 1990 to pursue his literary career.

As a teenager, Oris became very interested in martial arts: karate (Kyokushinkai), kung fu (dim mak - «the art of the poisonous hand», Wing Chun, Zui Quan), judo, sambo and others. Later, in 1975 he achieved a black belt in martial arts and in 1979 in Yalta at the Ministry of Internal Affairs he opened a martial arts section and hand-to-hand fighting.

From this period (1975), while still a student at the Institute, he worked for 15 years on writing several books series about martial arts. Three volume textbook on karate and Dim-Mak Art titled «Karate Way - from Student to Master» was colourfully designed and published in Moscow in 1992. During these years a separate book «Dim Mak - the art of poisonous hand» was published in Moscow. A second cycle consisting of more than 20 books under the general title «Initiation or the Path of a warrior» was written during this period, but it was not published in the USSR because the author had no higher physical education. For this reason in 1982 Oris entered Simferopol State University, but in the 4th year he left the University for family reasons (due to the birth of his son Yaroslav in 1983) and because of perestroika.

During his work on the book cycle 'Initiation or the Path of a Warrior', Oris (in a state of deep meditation) first inadvertently came into Contact with his Spiritual Teachers, after which he regularly received the information that formed the basis of the most unique book series 'Life between Live's and all the books subsequently written by him.

Then begins a more intense Spiritual Path for Oris, marked by a turning point in his life due to the urgent need arising in his Consciousness to find Himself and his Spiritual role in life.

He went as a hermit to a cave in 1996 from which he had no plans to return. There, in the cave, deep Spiritual revelations came to him, as well as information about his past (parallel) lives. Some of these inner experiences Oris described in poems, which have been published in a separate collection. On the basis of the contacts with his Spiritual Teachers during this period (after 40 days of taking only water), having learned his Purpose in life, he returns home with a renewed Self-consciousness, after which a new Spiritual phase begins in his life: within four years he writes more than 40 books, which are combined into several cycles with the following

titles: «Life Between Lives», «The Art of Dying» and «Extraterrestrial Contacts».

After 2000 he began to write texts to the melodies of Soviet hit songs, in which he expressed the whole quintessence of his spiritual conclusions and thoughts, emphasizing the role of Love, Kindness, Mercy and all Human qualities and feelings, which people so often forget in their everyday life.

Also after 4 consecutive Spiritual Initiations (from 1996 to 2000) Oris gets access to more true and authentic information about the structure of the Universe and the role of human in it, which he reveals in the book series called «lissiidi», «The Great Message», «Immortality is available to everyone» and «lissiidiology Fundamentals». These book series are written as the quality of information that Oris received becomes more and more complex because it comes from deeper and deeper levels of the collective Subconsciousness. These more profound and insightful conceptions form basis of his own Self-Consciousness and he begins to find answers to complex cosmological questions that until then were expected to remain unanswered for people for many decades to come.

A more detailed and complete list of all books written by Oris is set out below. They are presented in chronological order as books were written.

## A collection of poems «40 days of Hermitage»

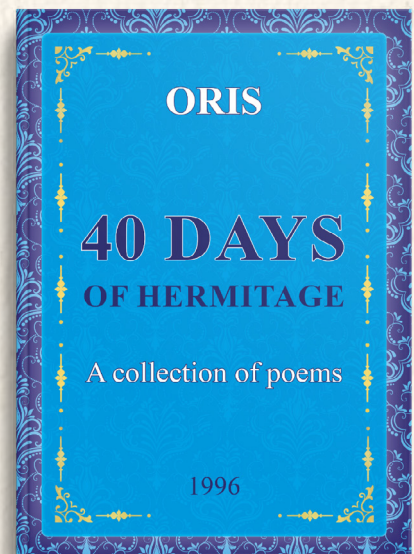

Yalta, 1996

Pages: 47

All poems in this book were written by Oris in 1996 in the Ai-Petri mountains, when he voluntarily took a vow of silence and lived for 40 days in a mountain forest, in a small space dug with a tin can between two rocks supporting each other, completely refusing food and any communication with people.

His inner reason for going to the mountains was the pressing, unyielding need in his Soul to try to cognize the Meaning of his present existence as deeply as possible and, if possible, to try to find the Essence of his own Spiritual Destination by conducting an inner dialog with his «Higher Self» and seeking opportunities to understand himself...

This book also contains an audio recording of these poems, which Oris recorded onto a tape recorder during this act of hermitage.

## Thought and Meditation

Yalta, 1997

Pages:

Thoughts, unlike objects, do not belong to you: they come from somewhere else all the time, stay and interact with your Consciousness for a while, and then imperceptibly disappear to somewhere. Your thinking is the process of continuously synthesizing in your reality newer and newer Forms from the already known to you mental and sensual experience. Therefore for you the thinking process represents the «beginning» and the «end» of absolutely all of your desires - from getting some material benefits to achieving «higher» (according to your concepts) spiritual goals.

By mastering the art of mental transformations, you will have an absolutely real means of consciously controlling the material conditions of your earthly existence. By improving in this direction, your mentality can reach the point where it becomes possible to control the powerful factors of the natural elements of Nature, influencing not only the weather, but also such destructive phenomena as tornadoes, tornadoes, earthquakes, tsunamis with the power of your Mind...

# Book series «Life between Lives»

*Yalta, 1997-1998*

What Oris writes about in this book series is the most detailed description ever written by human about the entire sequence of events undergone by the Consciousness of a dead person when he returns to his Heavenly Home, which has so many «abodes» that it is impossible for an ordinary person to even imagine.

Oris, using his many years of individual experience of astral travel, describes in detail the Astral and Mental realities he has explored, transforming the Incomprehensibly-Cognizable Existence into Knowledge that is comprehensible to almost every person, which leads readers to a gradual realization of the immutable Truth of their infinite Cosmic Existence.

## **Book 1. «Life without death» («The spirit of death»)**

And will you really exist after that? These are constant questions. But they have answers. The secret of life and death irresistibly draws man to the realization of what he has long known, but what has remained a mystery and unknown.

If you need answers to these eternal questions, if you can no longer live without understanding them, then this source of knowledge is for you.

## Book 2. «Soul and the Cosmos»

*Yalta, 1997*

 Pages:

 When confronted with the constant choice between Good and Evil, man is lost and does not always think about whom exactly with his every choice and action he serves: God or Satan? To help the reader to choose, the author tells in details about Egregors - astral entities, adapted to living in both as in positive so and in negative poles of Existense, which are mainly determined by the nature of Egregor itself.

 The author helps to understand all the subtleties of this topic, showing using examples the activity of «devil's Egregors», explains to what can lead the spiritual ignorance and thoughtless worship of material symbols, which all lower the human consciousness to the level of sorcerers, magicians and so-called non-humans.

How can we cleanse ourselves from the astral dirt of our own ignorance, which degrades our spiritual Essence and puts us on the same level as wild animals? How can we in Life take care of favorable conditions of our postmortem existence? This and much more is discussed by Oris in his second book «Soul and the Cosmos».

## Book 3. «Soul in other Worlds»

Yalta, 1997

Pages:

Always when people speak of «other cosmic thinking civilizations» they usually mean either the intelligent populations of other planets, the so-called «brothers in mind» or something very abstract and vague. But for some reason no one ever thought that these very «thinking civilizations» could be OURSELF, but only OURSELF located at other levels of OUR development, in other conditions of Existence, in the past or future space-time structure, in other circles of OUR human civilization's time field.

All so-called «other worlds» should not be perceived as something alien and unknown. There is no dividing barrier between «this World» and the many «other Worlds». On the contrary, all that exists is one single Divine Being.

You will learn about this and much more from the third book «Soul in other Worlds».

May each of you perceive this book the way he or she feels! For some, it may be perceived as a fairy tale, and for others, as information for reflection or as a guide. In this way, the main goal of this book will be achieved, because you will know the Truth, and what to do with that Truth is everyone's personal choice.

This book represents the least amount of information about the author's many Contacts with other cosmic civilizations and the information that has been received from Those whom the author calls The Universal Teachers.

## Book 5. «The technique of Astro-Travel. Chakrams»

*Yalta, 1998*

In this book the author continues his exploration of the world around us and tries to unravel one of the most unexplored mysteries of nature – the human. After all, only by knowing ourselves we can come closer to knowing God and His Mysteries.

Who are you and what are you doing on this planet? What is the point of your being here? Where will you go after people say about you, «He's dead...»? And in general, will there be anything left after Death other than the memory of you? All these questions will be answered through the author of this book by his Teacher, who has undertaken the mission to give a thorough introduction to the mankind on Earth to the problem of so called «post-death existence» of a human.

## Book 7. «Soul in the Zodiac»

Yalta, 1998

Pages:

In this book the author tells us that the entire world around us is a single system, and the parts of which are in very close relationships and interconnections, and that the entire Universe is subject to unified rhythms and unified cycles. Some of these cycles began at the creation of the Worlds and determine the Evolution of the Universe as a whole. Others determine the course of geological processes that change the face of our planet and, in turn, also affect the development of all mankind, the emergence and collapse of terrestrial civilizations.

The nature of all these influences, both global and individual rhythms, on the objects of the World is determined by the laws of the Zodiac, whose symbolism is much deeper than many novice astrologers think. In addition, in each cycle we can distinguish twelve basic and twelve current phases or micro-cycles, the characteristics of which are also associated with the passage of the Soul along different qualities and with the zodiac symbolism.

This book, as well as all the other books by Oris, is intended for those readers who seriously, deeply and with a sincere desire want to understand on their own everything that relates to the problems of Life and Death, who see in their impending Death not the most terrible and dangerous enemy, but on the contrary, a reliable adviser and a friend.

With Oris's books, Death is transformed from a frightening adversary, from an unfortunate failure or fatal mistake in the Universe into one more, another Transfiguration, to which we have already been subjected more than once.

## Book 8. «The art of dying»

This book consists of 5 parts.

Pages:

The author has tried to give the most detailed answers to specific questions through his many years of experience of independent out-of-body explorations of the Ethereal World: how to die correctly? How to learn to accept your death in time? How the transformation of subtle bodies takes place during the post-mortem transition?

This book, describing in the most detailed way the changing state of a person's Consciousness during the process called «dying» and his Soul's presence in various

vibrations of the energies of the Astral, is also a kind of manual of religious therapy and eschatological psychosurgery, carried out through the most detailed texts of “Instructions” read by relatives for the dying ones or an already dead person in order to strengthen and awaken his Consciousness before the Transition to the Other World.

Among other things, this book can safely be classified as one of the most detailed travel guides to the many realms and spheres of the Ethereal World, which we commonly refer to as the «afterlife».

*Yalta, August 1999*

**Pages:**

As long as man is alive, he gives little thought to WHAT awaits him, perhaps in the next second: after all, how many beautiful lines broke off in mid-sentence, and how many good deeds were not destined to come true only because people in their busy every-day life keep putting off all the best and the most necessary,

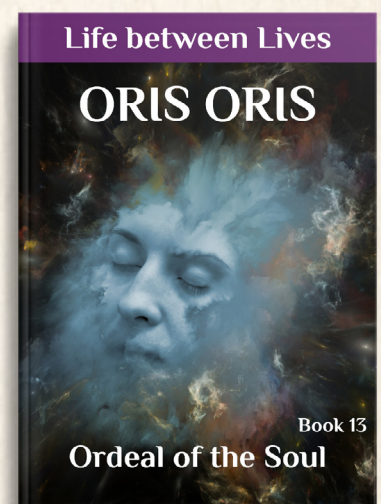

forgetting that in the next moment they may not have that «later» at all. How many lost opportunities for the most simple manifestation of Kindness and Love towards each other have never been realized, and how many unspoken beautiful words have fallen into nothing!

This book is not about Death, but rather about HOW to restructure your whole life now, immediately, so that you can meet every next moment of your earthly existence without disappointment, despair and grief.

What Oris writes about in the book series «Life Between Lives» is the most detailed description, ever written by man, of the entire sequence of events undergone by the Consciousness of a dead person when he returns to his Heavenly Home, which has so many «abodes» that it is impossible for an ordinary person to even imagine.

Oris, using his many years of individual experience as an astrologer, describes in detail the Astral and Mental realities that he has explored, transforming the Incomprehensible-Cognizable Existence into Knowledge that is comprehensible to virtually every person and leads to a gradual realization of the immutable Truth of human's infinite Cosmic Existence.

Pages:

Never before has the Mystery of the Creation of our World and the tragic role that Lucifer, one of the most highly spiritual First Consciousnesses of the Logos of our Universe, played in the history of the birth and development of mankind on our planet in such detail been revealed to people.

The purpose of this book is to give you the Knowledge which will help you to understand who is the God and what place in Him belongs to the forces which people call «Satan», «devil», etc. What energy-informational niche do they occupy in the Earth's Space and what form do they take (and if they have a form?) in reality?

## Book 19. «Soul in Hell»

*Yalta, 1998*

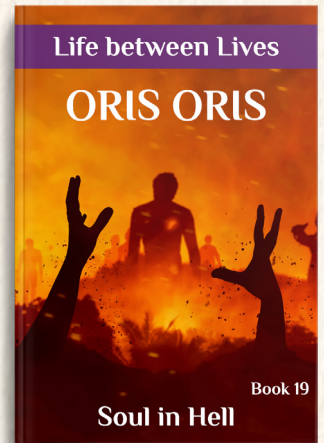

Pages:

Fear of Death is the individual's fear of losing himself, the fear of the need for further evolution. Man is most afraid of the unknown, but it is the unknown that makes a man to conquer his fear again and again. Many people are totally unaware of the infinite variety of levels of Consciousness in their own nature and whatever the author of this book may say to them about it, it will still not help them to understand it.

But there is still a small, even a tiny one-thousandth part of humanity which is the reason why all this knowledge about the true picture of Existence after Death is given. For the Transfiguration of this small part of mankind a small group of Star-Born Ones have specially incarnated and agreed to become conductors between the awakening Consciousnesses of the Earth and the Consciousnesses of the spiritual Teachers from Sirius and Pleiades. To each thousandth of the incarnate Earth's humanity Oris addresses in his books.

## «Extraterrestrial Contacts»

In today's world there is a lot of information about UFOs, about the meetings of individuals and even whole governments with aliens, as well as materials of telepathic Contacts with representatives of various extraterrestrial civilizations, etc. Unfortunately this information, while passing through different dimensions to us, in our three-dimensional world, is often subject to very strong distortions and is very often misunderstood by us due to the specifics of our three-dimensional way of thinking.

Offered to you materials of Oris's Contacts with the commanders and crew members of the Sirius-A and Sirius-B starships, as well as with other extraterrestrial Consciousnesses and Civilizations, including the Consciousness of Christ, Lord Maitreya, God of the Sun (the Logos of our Solar System), Elohim (the Creators of our Universe), and the four Archangels (Michael, Uriil, Gabriel and Metatron), are unique because they are literally received «first-hand» and contain very valuable information, useful for all humanity, which lives on the eve of the Transfiguration of the Earth.

The Pleadians and Siriusians, who are the true spiritual Teachers of Earth's humanity, are happy to share with us the knowledge without which we earthlings cannot emerge from the endless series of earthly incarnations and join as equals the extraterrestrial civilizations that are part of the «Commonwealth of the Light Ring» on the expanses of Cosmic and Galactic Creativity.

About this and much more you can learn from this book series called «Extraterrestrial Contacts».

## Book 1. «Teachers from Pleiades report»

Yalta, 1998

Pages:

Such concepts as «Cosmos», «Higher Intelligence», «UFOs», «aliens», etc. have now firmly established in our Consciousness, and we can no longer imagine ourselves, our planet and our entire existence in isolation from the rest of the universe, from the hope of a promising direct contact with brothers in Mind.

Who are they, our teachers, what do they teach, what do they look like, and what do they want from us? In this book you will find answers to these and many other questions.

Yalta, 1998

Pages:

In this book, the Pleiadians and Siriusians, who are the true spiritual Teachers of mankind, gladly share their knowledge with us, without which we, the earthlings, would not be able in the very short time that remains before the Transfiguration to come out of the many thousands of years of hibernation and to make the necessary number of timeless passages in the impermeable thickness of the Collective Consciousness, necessary for the so called «shift of the paradigm».

## **Book 3. «The crew of the Starship Sirius-B reports»**

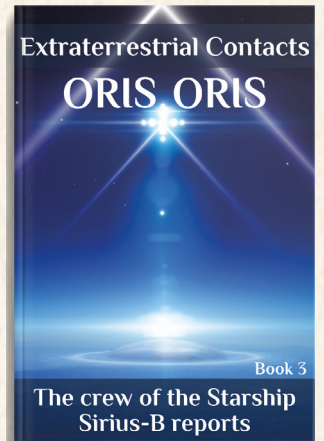

*Yalta, 1998*

**Pages:**

The next ten to fifteen years are predicted by extraterrestrials to be very informative and interesting for humanity. We will see how our so-called «unshakable reality» will begin to be rapidly turned upside down before our very eyes. Already the world does not seem as solid and unbreakable as it once did. And very soon we will all be witnesses and direct participants in a worldwide spectacle of Chaos and Confusion. The foundations of all our cultural, religious, philosophical, and scientific Paradigms, which have served us so far invariably as an image of the «real» World, in a matter of years, will crack and begin to crumble before our very eyes.

The reality of the New Age is within us, and main changes that we have to make must affect primarily our inner content, which, by freeing the Divine Light of our Souls from the millennia-old oppression of the Matter, will turn the mustiness and decay of our earthly cities into the unearthly glow of Beauty, which overflows the Cities of Light of the new, transfigured Earth.

## **Book 4. «The Teachers of the humanity report»**

*Yalta, 1998*

**Pages:**

Throughout all the history the humanity has been narrowing its perception of the Worlds from multidimensional, which includes all the subtle-material Spheres of the Astral, to three-dimensional, rough-material Level, thus not only limiting itself in the better understading of the world around, but also completely destroying the possibility of free contact with the Consciousnesses of hundreds of thousands of other space civilizations, who actively create and work in the Cosmos.

Representatives of many of these Intelligent Civilizations have practically never left our planet, while other Higher Entities have been incarnated among people only for several millennia.

They have voluntarily shared and continue to share with us all the burdens of earthly incarnations and the very heavy human Karma, only to help with their Knowledge of the Truth and their personal experience, so that the people of Earth could more rapidly climb the steep steps of the Evolution Stairs.

## **Book 5. «Extraterrestrials»**

*Yalta, 1998*

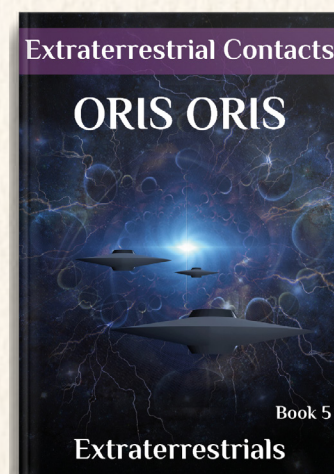

**Pages:**

They, the extraterrestrials, are working on our planet neither to conquer nor to enslave it, but with one single goal in mind: to slow down our rapid fall into the abyss of self-destruction, trying to bring to our Consciousnesses the moral, spiritual, social and scientific values accepted in the civilized Cosmos.

Those few people who are able to perceive their Word of Truth do everything possible, even impossible, to bring it to the half-asleep Consciousnesses of the rest of mankind.

Many «extraterrestrials» from Pleiades, Sirius, Andromeda and other civilizations of the «Light Ring» have been living among us for thousands of years, voluntarily giving up being in the Worlds of higher dimensions, just so that we, people of Earth, did not remain completely cut off from the Source, from Which all of us have come out, and to illuminate with the Knowledge of Truth the Path of spiritual ascent for Consciousnesses who no longer wish to

abide in the sleep of illusion and the darkness of ignorance. The Books of Oris are an example of this Service.

## **Book 6. «On the eve of Armageddon»**

*Yalta, August 1998*

**Pages:**

This book, in its uniqueness and value of the information it contains, is on par with the other Oris's books, continuing the subject of Contacts with Representatives of Worlds of Higher Levels of Existence.

Does The Christ Himself communicate with many people on the eve of the so-called «Last Judgment» transmitting specific recommendations? Has the Mother of God appeared to many to show them the way to salvation through Her Word in these terrible days of the approaching disasters and cataclysms? You just stop for a minute and delve into the rank of Those Who appeal to you – the Christ and the Queen of Heaven!

To ignore this information would be to close one's eyes, on the edge of the precipice, at the risk of being crushed to death. Is that what you want? Then read carefully, absorb and, opening the eyes of your Heart, draw your own conclusions.

## Book 7. «The beginning of Armageddon»

Yalta, September 1998

Pages:

The beginning of the Age of Aquarius. Nostradamus wrote: «I see a reborn and renewed Christ coming. And then there will come a long peace, unity and harmony among the generations of several races».

The process of division of people depending on the quality of their Consciousness has already begun rapidly around the world. It will soon lead to the final separation of mankind not by national, religious or party affiliation, but by the quality of their spiritual vibrations. People had more than enough time to change their lives for the better. But now there is no time even for a reflection.

Very soon there will be the first cataclysm of an unprecedented force, which will not only change the circumference of the Earth, but will also shift its magnetic poles. The Earth's axis, which is already in an unbalanced state, will change

and all this will cause continuous, endless cataclysms. Earthquakes and floods will become a common thing, and long and extensive fires will engulf the entire planet.

Today we are no longer «slipping into the abyss» or «standing on its edge», as economists and politicians reassure us; we are already flying into the abyss with great acceleration, and no one gave us wings to wave and soar upward to avoid death, or rather, God in fact did, but we have all forgotten about them.

*Yalta, 1999*

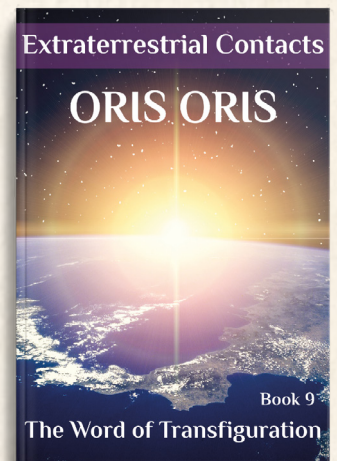

Pages:

Holy Mother of God, save us! - This is what the prayer to the Blessed Virgin asks for. But the same people disbelieve and slander, avoid and remain indifferent when the Living Virgin herself speaks to them and tells them about the ways of their salvation. «Hypocrites», says the Queen of Heaven to them, «get to know what Heaven looks like, and why do you not know the signs of the times? Prepare yourselves, people, as truly the day and hour of the Judgment of this world has already come».

In August Our Lady transmitted the first part of Her «WORD» through Oris, and on January 13 and 19, 1999, through the same channel She transmitted the next two parts and commanded to compose from Her «Word» a supranational «Gospel of Transfiguration», which was published as a separate book «The Gospel of Transfiguration by the Mother of God» (see below).

### «Muladhara chakra (Argllaamuni-lissiidi)»

Yalta, 2000

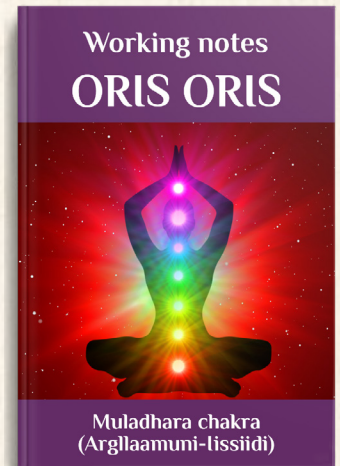

Pages:

Functionally, the Argllaamuni-center (Muladhara) is closely connected with the psychological abilities of the physical body, which provide survival of the physical body and protection of a person from unfavorable external influences. A big role in the activation of the whole immune system belongs to this lower center. Its normal functioning gives a sense of physical health, well-being, self-confidence and stability.

Imbalance and all kinds of muladhara «breakdowns» in the Aura, lead to the constant outflow of these energies and can cause a feel of insecurity, deep depression, lack of willpower, a sharp decline and energy loss, increased soreness in the lower and middle parts of the body, despondency and melancholy. This is particularly typical for those, who have not yet opened the karmic channels of the heart center or if karmic channels of the heart center are very weakly activated, which in order to switch the person to completely higher, spiritual levels of feeling and thinking. In such cases a person loses the purpose of his Life, as if he loses his roots and, purely intuitively, following the consciousnesses of the organs and body systems, completely surrenders himself to the satisfaction of his own lower desires in order to replenish the energies of the Argllaamuni center.

## «Svadhithana chakra (Inglimilissa-lissiidi)»

Yalta, 2000

Pages:

The weaknesses of our sex education have led to the fact that most people, even if they feel a deep sensual attraction, instead of beginning a heartfelt spiritual exploration of each other in the process of intimate interaction and accumulation of sexual energy, instead, close their heart centers and turn the unique opportunity of highly sensual admiration into a trivial sexual act.

Unfortunately, the creators of the lower-astral and dense-material types of Reality benefit greatly from the fact that the prevailing majority of people completely incorrectly and perversely understand the very essence of SEXUAL INTERACTION. Sexual interaction in fact is a spiritual intimate process which, if properly understood, contributes to a stronger contact between a person and his inner Essence and contributes to a more highly-sensual and deeply soulful manifestation of the person.

Love is the real Symbol of the Age of Transfiguration that is coming on Earth! And the mysterious «sacred key» to the Gate of Spiritual Transformation is not somewhere in the cosmic infinity and unfathomable unknown, beyond our psychic capabilities, but in fact is located quite «nearby», or rather, in our own heart center AIGLILLIA, which is filled with the highest vibrations of Love literally towards every manifested aspect of the Life around us, including the strongest of all – the sexual one.

*Yalta, 2000*

Pages:

Oris describes his reflections about the so-called Anahat states and deepens the concepts of Kindness and Love, revealing their different shades depending on the presence of a greater or lesser selfish component in each of such manifestations.

## Book series «ISSIIDL»

This series of books, from the first to the last pages, includes the most unique in meaning and the most important information, accepted by Oris after the year 2000 during his next direct Contacts with the Creators of Humanity: Algellis (Argllaamuni and Inglmilissa iissiidi centers), lillgmmii-I, (Aigllilliaa and Orlaaktor iissiidi) Lua-Andis (Ulgluu and Ssaassfati iissiidi), Greyli-Vin (Olgoolloni and Aani lissiidi), Slliargsmiii (Raaklima and Uluuguma lissiidi), Sslaaiingsa (Svaagali and Eyyaaa lissiidi) and Ssniillgsa. These Cosmic Entities represent personal Interpretations of Oris at the levels of the collective Subconsciousness, Supraconsciousness, Ultraconsciousness, Superconsciousness, Hyperconsciousness, Proconsciousness and Protoconsciousness. The detailed Knowledge of such a high Buddhist level, for many evolutionary reasons, has never before was accessible to humans or even the spiritual Initiates of the 3-4 Planetary Initiations.

Only because of the spiritual transformations which have intensively begun on Earth and because of the preparation of the collective Consciousness of mankind for the act of Transfiguration this Knowledge is now being transmitted to those of earthmen who are ALREADY spiritually mature for its proper understanding and comprehension and who are eager to use it to continue their further Path of mastering and accumulating the entire experience of incarnated earthly existence as swiftly and as effectively as possible.

In none of the astral or written sources on our planet there is even a mention or a distant analogy of this Teaching, because the degree of admission to it requires from the spiritual seeker an active self-discovery and prolonged experience of conscious existence at the causal-buddhich level, as well as an experience of being outside the physical shell for long time.

Oris deliberately integrated all the Knowledge he received - the «Teaching about chakram personalities» - only onto the highest ajna-vishuddha levels of the collective Consciousness of the planet, because further adaptation of these highly spiritual codes to the generally accessible understanding would lead to a significant decrease in their degree of authenticity. Therefore this information can be productively assimilated only by people with actively developed over diaphragmatic psychic centers. For them and ONLY FOR THEM the Spiritual Teachers from Pleiades transmit this newest spiritual Teaching.

## «The Great Message»

In 2006 two volumes of Oris's books were published, reflecting the results of his further Contacts with the Teachers of Humanity, which represent the highest personal Interpretations of his Ultraconsciousness and Superconsciousness, under the general title «The Great Message». Its contents marked the beginning of the creative stage of work with information of a principally new, more qualitative level.

As a result of numerous answers to reader's questions on the materials of these volumes a new series of books «Immortality is accessible to everyone» was published as part of the Issiidiological Knowledge - the newest spiritual-cosmological conceptions about the Universe and the human being.

Pages: 1,469

From 2001 to 2022 Oris has written over 1600 song lyrics to popular tunes of the 20th and 21st centuries. The first 555 songs were combined in two collections called «My Testament». The lyrics of all subsequent songs are published on the Ayfaar Songs website [ayfaarpesni.org](http://ayfaarpesni.org).

These songs tune to a positive perception of life circumstances, an altruistic way of life and unconditional love for everything, as well as a deep understanding of the fact that everything that happens to a person as a good thing.

## Book series «lissiidiology»

From 2009 to the present, Oris has been working on the book series called «lissiidiology».

This series consists of the following books:

- lissiidiology Fundamentals (Volumes 1-6)
- Texts of Ayfaar Songs (Volumes 7-8, previously published under the general title «My Covenant»)
- Dictionary of terms (Volume 9)
- «Immortality is Available to Everyone» (Volumes 10-15),
- «Commentaries to the Fundamentals» (vols. 16-20), which were compiled from the author's written answers to reader's questions
- «Kollokviums on Fundamental Concepts» (volumes 21-22), compiled from the author's oral answers to various lissiidiology questions

This book series is being continually updated with new Oris's answers to reader's questions, which are being subsequently formed into new lissiidiology volumes or added to existing volumes according to their subject.

This series of books reflects the author's latest iissiidiological insights, which deepen, expand and supplement the information published in the previous book series «lissiidi».

# LISSIIDIOLGY

## Volume 9. Glossary of terms

Moscow, 2010

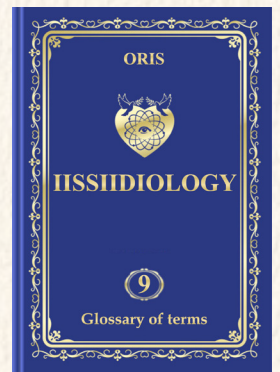

Pages: 725

IISSIIDIOLOGY terminology has its own individual specificity of spelling.

Also, each of the terms includes a much deeper meaning than might seem at first glance, because it is rooted in more qualitative levels of this Knowledge, which, without sufficiently developed extrasensory abilities, is not yet available for access to the current creative dynamics of the Self-Consciousness of an average person.

This publication contains only short vocabulary articles to facilitate the process of understanding the material, at least at the most elementary level. More detailed information on each of the terms can be found in other lissidiology books.

Some terms are very difficult to describe and have absolutely no analogues in the habitual human associative perception, so it is an extremely difficult task for the Author to formulate a dictionary article within the limits of an ordinary person's comprehension.

## Volume 10. Immortality is accessible to everyone. «Fundamental Principles of Immortality»

Moscow, 2010

Pages: 521

In this book, Oris continues to give full answers to inmost and fundamental questions of cosmic and human existence: about Earth and universal destinies, the nature of life and death, Soul and God, good and evil, about our relations with one another, the nature of Space-Time and how the entire visible and invisible-to-us reality is formed. The Universal Knowledge given by Oris offers the fundamentals of a new and unique world view for all of us. It allows us to penetrate the mystery of eternal existence to an extent inaccessible before, reasonably and substantially solving the problems therein, offering convincing answers which are not available in any religious world view, philosophical movement or scientific theory. Oris's Information expands the limits of human experience and perception literally to infinity!

### «Energy and biological mechanisms of refocusing of Self-Consciousness»

Moscow, 2010

Pages: 691

In the first Chapter of Volume, Oris describes in detail functioning of Formo-Creators of the brain, how the memory is accessed, how biological structures of the brain are associated with energy-informational structures of Self-Consciousness, how various Self-Consciousness Levels are differentiated and reprojected at the moment of so-called «Death». This Chapter also describes functioning of «the intestinal brain», how it becomes possible to cure at a distance (the technique of ethereal projection), gives the meaning of the esoteric term the «Astral Plane» from the point of view of lissidiology.

The second Chapter tells us that biological Forms can exist in different Continuums and explains the interrelationship between our lifespan and quality of active Levels of our Self-Consciousness. It also provides information on the following subjects: it is possible to «live one's Life many times» in higher-quality scenarios, cycles of changing male and female manifestations within the structure of a multi-dimensional human Form, physical principles of organization of higher-frequency levels of the Universal Reality with a detailed description of the nature of boson and fermion fields, and types of particles that are carriers of such interaction.

#### **CONTENTS:**

Preface

- SECTION VII. Objective mechanisms of a phenomenal manifestation of the Illusion of «Death» of any «personality» in the dynamics of Formo-systems of the Worlds

Volume 12 is devoted to the diversity of the Self-consciousness manifestation forms in the infinite variety of the Form-Systems of the Worlds. Tell me, what do you know about the universal properties of Space and Time? About the illusory nature of our existence? About the Essence of «development» of each «personality»? It's not easy to answer any of these age-old questions.

But Oris, with all possible detail and thoroughly, goes on to answer not only these, but many other equally urgent and vital questions that trouble us and compel every seeker to learn, to give up something, and to gain something...

### **CONTENTS:**

**Pages: 700**

In the 13th volume of the commentaries, Oris answers the vital questions of mental and physical health, medicine, psychology, psychiatry, genetics, somnology, pharmacology, and reveals the psychogenetic features of the manifestation of the «human» Form.

Our biological Existence is a continuous process - when we feel, think and experience something, we immediately become part of those groups of the Worlds, Realities and Continuums whose synthetic dynamics correspond exactly to the quality of these infinite processes.

## **Volume 15. Immortality is accessible to everyone.** **«The Conscious Path to Human Worlds of «personal» Immortality»**

*Moscow, 2012*

**Pages: 648**

«The Conscious Path to the Human Worlds of «personal» Immortality» - this is the name of the new volume from ORIS book cycle «Immortality is accessible to everyone». At first glance, this may seem like an invitation to a philosophical contemplation. But by appealing to his devoted readers, the author hopes for the consideration and perception of this issue in a broader or, if you like, deeper understanding. Philosophical concepts offer to us only sensory-contemplative,

mostly associative images regarding a particular issue. The author, however, presents in this work, as a logical continuation of previous volumes, a detailed consideration of the practical prospects for the development of a personality into a true Human, who explores his own spirituality.

In addition to the mechanisms of working with own Self-Consciousness, which will lead people as Humans to «personal» conscious Immortality, ORIS describes the «Worlds of our Future», the prospects for the manifestation of the coming times. And in order for everyone to develop an understanding of their own Path, a comprehension of the choice of their spiritual development, the author not only describes «bright» prospects, but also specifies in detail the obstacles that each of us may face and, by not noticing or not determining the nature of which, to unconsciously, under the influence of particular reasons, deviate from the development in the Human direction.

With the help of this book, you will be able to determine the qualities that are truly inherent in people, and you can finally figure out how to form in yourself these qualities that are truly Human - with a capital letter. Having experienced what a highly sensual Intellect is, you will then understand why only with the help of highly intellectual Altruism you can find the Path to the cherished Goal of your spiritual future!

### **CONTENTS:**

- SECTION XIX.       Obstacles on the path of realization of «individual» Immortality
- SECTION XX.        The Specific States of uoldmiism (high-sensual Intellect) and stollmiism (High-Intellectual Altruism) synthesized in the Human (lluuvvumic) development Direction
- SECTION XXI.       Specificities of lluuvvumic transformation of human features
- SECTION XXII.     Our «future» Worlds. Perspectives of the approaching times

### **«Interaction of Information and Energy as the Primary Cause for origination of the Creative Activity of Self-Consciousness Focus and the Macrocosmos in whole»**

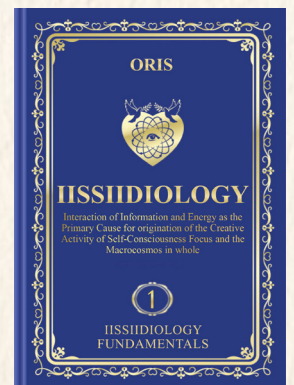

*Moscow 2013*

**Pages: 312**

This book presents the beginning of an overall 20-volume information series titled «The Great Message», which consists of «IIS-SIIDIOLOGY. Fundamentals», «Commentaries to Fundamentals» and author's Song lyrics with a highly-spiritual content written to popular and all-loved melodies.

From the very beginning, the author pinpoints the reader's atten-

tion upon fundamental notions of IISSIIDIOLOGY starting from basic, axiomatic Conceptions. The book contains the newest interpretation of formation of the outer reality based on the Self-Consciousness's Focus Dynamics as the main functional mechanism of the Macrocosmos's Creative Activity. A detailed comparison of the author's hypotheses with existing scientific conceptions allows to draw parallels with the current worldviews about nature, space, time, energy and to find the ways for their radical transformation and potential development.

In this volume, the author introduces the conceptual foundation necessary for an adequate understanding of all other IISSIIDIOLOGY books of this series. Hierarchy of Self-Consciousness Levels, dimensional differentiation of manifestation Forms, classification of elementary (and other) particles as structural components of the Universal Plasmic-Differentiation Emission, information theory of the formation of Energy in the Macrocosmos are described in order to form necessary notions that will serve as the basis for further more complex iissiidiological Categories: Universal Cosmic Laws and their Principles, Diapasons of Plasmic Forces, Evolutional and Involutional Branches of development, and many others. The first volume of Fundamentals is the required minimum for any reader who wants to thoroughly study iissiidiological conceptions.

*Moscow, 2013*

**Pages: 662**

Many scientists may consider this volume of «Fundamentals of IISSIIDIOLOGY», as well as all the other books of this twenty-volume series titled «The Great Message», no more than «science fiction» — each of us has the right to believe in what is the most convincing. However, every intelligent person who possesses at least

the rudiments of cognitive intuition can discover in this information those more Qualitative characteristics of the objective truth, thanks to which continuous eglleroliftive Amplification of all Self-Consciousnesses Forms is carried out.

Catastrophism periodically appearing in the process of human self-cognition is always accompanied by the radical breaking of many old Conceptions, which by its radicalism surpasses greatly all theoretical forecasts. Fanatical belief in dogmas and postulates established once, as well as the clear tendency for idolatry — these are obvious characteristics of degradation and regression that converge modern academic science with paganish religion. Yet, the eglleroliftive Amplification process and harmonious evolution both of a separate personality and human population in general is impossible without breaking down old stereotypes and establishing — on the basis of deep cognition of Wisdom of previous and future generations — much more universal conceptions about ourselves and our surrounding reality.

This uneasy, but grandiose on its depth and scale Task of prompt and Qualitative transformation of human community is assigned by the Evolution Itself to the universal knowledge of IISSIIDIOLOGY, absolutely new to people, which is received for the first time and entirely by one person only by means of the intuitive way of cognition. We offer you to find out more about its newest fundamental Conceptions in the second volume.

Besides, the IISSIIDIOLOGY offers to Collective Consciousness of humankind a totally new paradigm that gives new and fresh view of the multitude of clinical phenomena studied by psychotherapists. It gives a theoretical model for understanding the changes in the mentality of a patient and the hope on clarifying mechanisms of effectiveness of psychotherapeutic method.

### «Variety of Forms of Creative Realization of the Cosmic Human»

Moscow, 2014

Pages: 780

The third volume of «ISSIIDIOLGY Fundamentals» allows readers to go deeper into yet completely unexplored by us structures that provide functioning of human Self-Consciousness and its interconnections with Self-Consciousnesses Forms focused by it. First two volumes of «ISSIIDIOLGY Fundamentals» thoroughly describe the deep Nature of Causes and Mechanisms of Creative Activity of everything manifested in multidimensional and different-Qualitative Macrocosmos, including also qualitative Basis of Focus Dynamics of Form-Creators of Universal Structures. The third volume in its turn focuses on the detailed description of basic Principles of exiberation of Human and other Self-Consciousnesses Forms in all the diversity of different-dimensional diapasons of the Tertiary Illusion.

To allow the reader to fully comprehend the essence of the notion «Self-Consciousness Form,» the author describes realization functions of these structures at the example of subjective formation — as a result of life creativity of every personality — of so called personalistic Worlds, which goes far beyond existing scientific notions about the surrounding reality and peculiarities of interaction between Forms structuring it, whether it is a human, a planet, or an elementary particle. Furthermore, he describes different-dimensional variety of Forms of Iluuvvumic Direction of development and characteristics of focal realization of Humankind Collective Cosmic Intelligence as a unified the LLUU-VVU-Entity.

The third volume ends with a detailed description of multi-level manifestation of Plasmic Forces Diapasons of our Universe, which are described from a position of their subjective interpretation through the specific peculiarities of human Perception systems. Endless inner transformations of Universal Illusion, as mechanisms of evolutional growth of the Cosmic Human on its Way to its Universal Future, lets inquisitive readers to form in their Self-Consciousness own highly intuitive conceptions about endless varieties of all possible variants of development, where goes the process of eternal multidimensional Existence of every human personality.

This new volume of the series «lissidiology Fundamentals» is a reasonable consequence of consideration of biological mixtum NUU-VVU-Form-Types that was started in the previous volume. For our deeper understanding, it draws our attention even more at iissidiological approach to the matters, which are related discretely by contemporary scientific community to philosophic anthropology in general and to behavior theories of personality in particular.

At more objective, transcendent, gabitual (primordial, objectively deep) discussion, it becomes clear that the given material leads a reader maximally to objectivization of own conceptions about relations among personalized, unconscious, and subconscious levels of Self-Consciousness at the background of developing invizusal (imperceptible by our sensor systems and measuring devices) mechanisms of anatomy and brain neurophysiology, accompanied by dominant dynamics of

the first IISSIIDI-Centers pair.
